Multicultural Literature for Children and Young Adults Mingshui Cai, 2002-10-30. There is much discussion of multiculturalism in education. This is especially true of multicultural literature for children and young adults. The rise of multicultural literature is a political rather than a literary movement; it is a movement to claim space in literature and in education for historically marginalized social groups rather than one to renovate the craft of literature itself. Multicultural literature has been closely bound with the cause of multiculturalism in general and thus has been confronted with resistance from conservatives. This book discusses many of the controversial issues surrounding multicultural literature for children and young adults. The volume begins with a look at some of the foundational and theoretical issues related to multicultural literature. The second part of the book addresses issues related to the creation and critique of multicultural literature, including the authorship of such works and the role of the reader in determining whether or not a work is multicultural. The third looks at the place of multicultural literature in the education of children and young adults. Throughout its discussion, the book makes extensive references to a large body of multicultural fiction and provides a thorough review of research on this important topic.

Literary Modernism, Queer Temporality Kate Haffey, 2019-04-24. This book explores the intersection between the recent work on queer temporality and the experiments of literary modernism. Kate Haffey argues that queer theory's recent work on time owes a debt to modernist authors who developed new ways of representing temporality in their texts. By reading a series of early twentieth-century literary texts from modernists like Woolf, Eliot, Faulkner, and Stein alongside contemporary authors, this book examines the way in which modernist writers challenged narrative conventions of time in ways that both illuminate and foreshadow current scholarship on queer temporality. In her analyses of contemporary novelists and critics Michael Cunningham, Jeanette Winterson, Angela Carter, and Eve Sedgwick, Haffey also shows that these modernist temporalities have been reconfigured by contemporary authors to develop new approaches to futurity.
