It gives us great pleasure to present the proceedings of the 9th Asian Conference on Computer Vision (ACCV 2009) held in Xi'an, China, in September 2009. This was the first ACCV conference to take place in mainland China. We received a total of 670 full submissions, which is a new record in the ACCV series. Overall, 35 papers were selected for oral presentation and 131 as posters, yielding acceptance rates of 5.2% for oral, 19.6% for poster, and 24.8% in total. In the paper reviewing, we continued the tradition of previous ACCVs by conducting the process in a double-blind manner. Each of the 33 Area Chairs received a pool of about 20 papers and nominated a number of potential reviewers for each paper. Then, Program Committee Chairs allocated at least three reviewers to each paper, taking into consideration any conflicts of interest and the balance of loads. Once the reviews were finished, the Area Chairs made summary reports for the papers in their pools based on the reviewers' comments and on their own assessments of the papers. **The Origin and Early Evolutionary History of Snakes** David J.
