many of his contemporaries Thomas Hardy is not generally recognized as an imperial writer even though he wrote during a period of major expansion of the British Empire and in spite of the many allusions to the Roman Empire and Napoleonic Wars in his writing Jane L Bownas examines the context of these references proposing that Hardy was a writer who not only posed a challenge to the whole of established society but one whose writings bring into question the very notion of empire Bownas argues that Hardy takes up ideas of the primitive and civilized that were central to Western thought in the nineteenth century contesting this opposition and highlighting the effect outsiders have on so called primitive communities In her discussion of the oppressions of imperialism she analyzes the debate surrounding the use of gender as an articulated category together with race and class and shows how in exposing the power structures operating within Britain Hardy produces a critique of all forms of ideological oppression The Cambridge Companion to Thomas Hardy Dale
