Shaping Health Policy Mark Exworthy, 2012 This collection written by leading health policy researchers examines the role that case studies play in British health policy covering key health policy literatures in the policy process analytical frameworks and seminal moments of the NHS

Medicine in the Remote and Rural North, 1800-2000 J T H Connor, Stephen Curtis, 2015-10-06 This volume of thirteen essays focuses on the health and treatment of the peoples of northern Europe and North America over the course of the nineteenth and twentieth centuries

The Political Economy of Health Care Development and Reforms in Hong Kong Victor C.W. Wong, 2019-05-23 First published in 1999 this book constitutes a unique account of the development and reform of health care in Hong Kong Its main focus is on policy developments since 1945 Victor Wong demonstrates the development of a two tier health system in both a capitalist and Chinese context His work is one of both health policy and political economy Wong utilises the latter perspective to show the state's role in the interests of capital the public demand for health care and the power of the medical profession Alongside this Wong brings in the role of Chinese and family medicine and the role of the family in cost containment and minimising the hospitalisation of elderly frail and chronically ill patients The volume is the most comprehensive analysis available for health policy in Hong Kong

Understanding Actors and Processes Shaping Transgender Subjectivities Zhanar Sekerbayeva, 2023-01-01 This book introduces the policies surrounding legal gender recognition of trans people in Kazakhstan Generally the research in this sphere focuses on medical professions described as gatekeepers or judges deciding who fit the prescriptions of being a woman or a man and on trans people themselves who are often portrayed as victims However this process is more complex than only describing the interaction of these two groups or by labelling them either as gatekeepers or victims The project provides a critical approach and attempts to expand our understanding of the process the dynamics and the actors involved This study will be of interest to scholars of contemporary Kazakhstan and of feminism and LGBTQ activism more generally

Industry Analysts Shape the Digital Future Neil Pollock, Robin Williams, 2016-01-14 Industry analysts are in the business of shaping the technological and economic future They attempt to predict what will become the next big thing to spot new emerging trends and paradigms to decide which hi tech products will win out over others and to figure out which technology vendors can deliver on their promises In just a few short years they have developed a surprising degree of authority over technological innovation Yet we know very little if anything about them This book seeks to explain how this was achieved and on what this authority rests Who are the experts who increasingly command the attention of vendor and user communities What is the nature of this new form of technical and business knowledge How Industry Analysts Shape the Digital Future offers the first book length study into this rarely scrutinized form of business expertise Contributions to this volume show how from a small group of mainly North American players which arose in the 1970s Gartner Inc has emerged as clear leader of a 6 billion industry that involves several hundred firms worldwide Through interviews and observation of Gartner Inc and other industry analyst firms the book explores how these firms create their predictions market classifications and rankings as well as with how these outputs are assessed and consumed The book asks why many social scientists have ignored the proliferation of these new forms of management and technical expertise In some cases scholars have deflated this kind of business acumen portraying it as arbitrary knowledge whose methods and content do not deserve enquiry The valuable exception here has been the path breaking work on the performativity of economic financial or accounting knowledge Drawing upon recent performativity arguments the book argues the case for a Sociology of Business Knowledge **Clio**

Practice Davina Allen, 2002-01-04 Bringing together sociological theories and nursing practice this text develops a dynamic conceptualisation of the nursing role which is rooted in the work setting It looks at the factors which have shaped nursing work in the past and those which are likely to shape it in the future Nurses work is changing in two respects the place nursing occupies in the health care division of labour and the routine shifting of work boundaries that nurses experience in

their daily work Drawing on her detailed observations of the reality of nursing work in a district general hospital Davina Allen explores these linked themes focussing on five key work boundaries nurse doctor nurse manager nurse support worker nurse patient nurse nurse The text provides new insight into many of the tensions and dilemmas nurses routinely face and the processes and constraints through which their work is fashioned It offers a new way of thinking about the nursing role which is particularly relevant at a time when the scope of nursing practice is expanding and when the integrated approach to health and social care is seen as the key to provision and improved services *Wounded Profession* Arnold Birenbaum,2002-10-30 This important new study explores how American health care evolved in the 1990s as well as the changes in public support and policy Birenbaum examines where the interests of consumers and professionals have dovetailed and where they differ He considers the health care system s future and suggested ways the system must be adjusted to provide better and wider coverage at reasonable costs This volume is essential reading for scholars students and professionals in the medical field as well as general readers concerned with health care issues The 90s saw the country moving toward a realization that health care had become unaffordable or an enormous financial burden for people with otherwise adequate incomes Health care providers and consumers alike worried that the problem was becoming uncontrollable Doctors saw their autonomy and control eroded employers saw their costs rising significantly the costs began shifting to employees and alternative approaches to cost containment were explored School of Bio and Chemical Engineering : Introduction to Biomedical Engineering Principles Mr. Rohit Manglik,2024-04-20 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Education for the Professions of Medicine, Law, Theology, and Social Welfare** Everett Cherrington Hughes,Carnegie Commission on Higher Education,1973 Monograph on higher education for professional workers in the USA describes educational facilities for students in medicine the law the Church and social work at university level References **The Shape of Spectatorship** Scott Curtis,2015-09-22 Scott Curtis draws our eye to the role of scientific medical educational and aesthetic observation in shaping modern spectatorship Focusing on the nontheatrical use of motion picture technology in Germany between the 1890s and World War I he follows researchers teachers and intellectuals as they negotiated the fascinating at times fraught relationship between technology discipline and expert vision As these specialists struggled to come to terms with motion pictures they advanced new ideas of mass spectatorship that continue to affect the way we make and experience film Staging a brilliant collision between the moving image and scientific or medical observation visual instruction and aesthetic contemplation *The Shape of Spectatorship* showcases early cinema s revolutionary impact on society and culture and the challenges the new medium placed on ways of seeing and learning **Holistic Health and Biomedical Medicine** Stephen Lyng,1990-08-14 Holistic Health and

Biomedical Medicine outlines a new framework for social science research Illustrated in an analysis of the American health care system Lyng presents an empirical study of the relationship between medical knowledge and the social structure of medical practice in America Through a synthesis of ideas from such diverse perspectives as classical Marxian theory and the medical model embraced by the holistic health movement Lyng articulates a medical countersystem that is contrasted against the traditional biomedical model of medical practice What results is an entirely unique Marxian analysis of the U S health care system one that examines how the system evolved historically as well as describes several possibilities for the future of medicine in America

Surgically Shaping Children Erik Parens, 2006-05-06 Winner of an Honorable Mention in the Clinical Medicine category of the Professional and Scholarly Publishing Awards given by the Association of American Publishers At a time when medical technologies make it ever easier to enhance our minds and bodies a debate has arisen about whether such efforts promote a process of normalization which makes it ever harder to tolerate the natural anatomical differences among us The debate becomes especially complicated when it addresses the surgical alteration or shaping of children This volume explores the ethical and social issues raised by the recent proliferation of surgeries designed to make children born with physical differences look more normal Using three cases surgeries to eliminate craniofacial abnormalities such as cleft lip and palate surgeries to correct ambiguous genitalia and surgeries to lengthen the limbs of children born with dwarfism the contributors consider the tensions parents experience when making such life altering decisions on behalf of or with their children The essays in this volume offer in depth examinations of the significance and limits of surgical alteration through personal narratives theoretical reflections and concrete suggestions about how to improve the decision making process Written from the perspectives of affected children and their parents health care providers and leading scholars in philosophy sociology history law and medicine this collection provides an integrated and comprehensive foundation from which to consider a complex and controversial issue It takes the reader on a journey from reflections on the particulars of current medical practices to reflections on one of the deepest and most complex of human desires the desire for normality Contributors Priscilla Alderson Adrienne Asch Cassandra Aspinall Alice Domurat Dreger James C Edwards Todd C Edwards Ellen K Feder Arthur W Frank Lisa Abelow Hedley Eva Fedder Kittay Hilde Lindemann Jeffery L Marsh Paul Steven Miller Sherri G Morris Wendy E Mouradian Donald L Patrick Nichola Rumsey Emily Sullivan Sanford Tari D Topolski

Ethics and the Good Doctor Sabena Jameel, Andrew Peterson, James Arthur, 2021-09-12 Ethics and the Good Doctor brings together existing literature and an analysis of empirical research conducted by the Jubilee Centre for Character and Virtues to examine the ethical nature of medical practice and explore medicine as a virtuous profession The book is based on the idea that medical practice is an inherently moral profession in which notions of trust care and meaningful relationships form the foundations of being a good doctor By taking into account the ethical dimensions of medical practice that have come under greater scrutiny and pressure over recent years this book explores how personal and professional character is understood

enacted and experienced by medical practitioners at various stages of their career Ethics and the Good Doctor situates and presents the empirical data in a way that is accessible to practicing doctors medical students and medical educators Clear implications for policy practice and research are offered ensuring this book will be of great interest to a range of stakeholders involved in medical practice including those working in medical policy

Handbook of the Sociology of Medical Education Caragh Brosnan, Bryan S. Turner, 2009-09-10 The Handbook of the Sociology of Medical Education provides a contemporary introduction to this classic area of sociology by examining the social origin and implications of the epistemological organisational and demographic challenges facing medical education at the beginning of the twenty first century Leading sociologists explore topics such as gender ethnicity disability and evidence based medicine in the context of current international debates over medical curricula

Doctors and the State Dorothy Mutizwa-Mangiza, 2018-08-13 Published in 1999 the main aim of this text is to examine the nature of professional control medical practice and the state of health services in a post colonial state and the medical profession in Zimbabwe since 1980 The text reviews the theories of professions and professional control and medical practice it concludes by examining the nature of the Zimbabwean state The chapter on methodology highlights some of the ethical dilemmas of carrying out research in developing countries The book then goes on to review health services and policies of both the colonial and post colonial governments in Zimbabwe Three chapters discuss the nature of medical practice and the constraints encountered by doctors in their work the terms and conditions of service under which doctors work and the nature of medical regulation of education licensing and discipline including issues such as malpractice and litigation Throughout the book comparisons are made with situations in other countries both developed and developing and the main conclusions of the book are that medical doctors in Zimbabwe have minimal administrative restrictions on the type of treatment which they can carry out but the unavailability and breakdown of essential equipment shortages of essential drugs and staff limit the doctors autonomy to carry out the treatment that they consider necessary
