Shaping the Post-Soviet Space? Laure Delcour, 2016-04-01 While the European Union EU is widely perceived as a model for regional integration the encouragement of regional co operation also ranks high among its foreign policy priorities Drawing on a wealth of sources and extensive fieldwork conducted in the Commonwealth of Independent States CIS Laure Delcour questions the pursuit of this external objective in EU policies implemented in the CIS and the existence of an EU regional vision in the post Soviet area She asks does the recent compartmentalization of EU policies correspond to a growing fragmentation of the former Soviet Union that cannot be considered as a region anymore Does it rather reflect the EU s own interests in the area Interested in exposing why the EU has not pursued a strategy of region building in the post Soviet area Delcour examines the disintegration dynamics affecting the area following the collapse of the USSR the interplay between different actors and levels of action in EU foreign policy making and the role of other region builders She takes a closer look at the strategic partnership with Russia European Neighbourhood Policy Eastern Partnership and Black Sea Synergy as a capability test for the European foreign policy to promote its foreign policy priorities and to raise a distinctive profile in the international arena

Owning Russia Andrew S. Barnes, 2018-07-05 During and after the breakdown of the Soviet Union a wide range of competitors fought to build new political and economic empires by wresting control over resources from the state and from each other In the only book to examine the evolution of Russian property ownership in both industry and agriculture Andrew Barnes uses interviews archival research and firsthand observation to document how a new generation of capitalists gained control over key pieces of the Russian economy by acquiring debt ridden factories and farms once owned

by the state He argues that although the Russian government made policies that affected how actors battled one another it could never rein in the most destructive aspects of the struggle for property Barnes shows that dividing the spoils of the Soviet economy involved far more than the experiment with voucher privatization or the scandalous behavior of a few Moscow based oligarchs In Russia the control of property yielded benefits beyond mere profits and these high stakes fueled an intense enduring and profound conflict over real assets This fierce competition empowered the Russian executive branch at the expense of the legislature dramatically strengthened managers in relation to workers created a broad array of business conglomerates and fundamentally shaped regional politics not only blurring the line between government and business but often erasing it

Resource Curse and Post-Soviet Eurasia Vladimir Gel'man,Otar Marganiya,2010-08-06

By the end of the 2000s the term resource curse had become so widespread that it had turned into a kind of magic keyword not only in the scholarly language of the social sciences but also in the discourse of politicians commentators and analysts all over the world like the term modernization in the early 1960s or transition in the early 1990s In fact the aggravation of many problems in the global economy and politics against the background of the rally of oil prices in 2004 2008 became the environment for academic and public debates about the role of natural resources in general and oil and gas in particular in the development of various societies The results of numerous studies do not give a clear answer to questions about the nature and mechanisms of the influence of the oil and gas abundance on the economic political and social processes in various states and nations However the majority of scholars and observers agree that this influence in the most of countries is primarily negative Resource Curse and Post Soviet Eurasia Oil Gas and Modernization is an in depth analysis of the impact of oil and gas abundance on political economic and social developments of Russia and other post Soviet states and nations such as Kazakhstan and Azerbaijan The chapters of the book systematically examine various effects of resource curse in different arenas such as state building regime changes rule of law property rights policy making interest representation and international relations in theoretical historical and comparative perspectives The authors analyze the role of oil and gas dependency in the evolution and subsequent collapse of the Soviet Union authoritarian drift of post Soviet countries building of predatory state and pendulum like swings of Russia from state capture of 1990s to business capture of 2000s uneasy relationships between the state and special interest groups and numerous problems of geo economics of pipelines in post Soviet Eurasia

Modernisation in Russia since 1900 Markku Kangaspuro,Jeremy Smith,2006-12-27

Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the

attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

Russian Energy Power and Foreign Relations Jeronim Perovic, Robert W. Orttung, Andreas Wenger, 2009-02-20 This book examines Russia's new assertiveness and the role of energy as a key factor in shaping the country's behavior in international relations and in building political and economic power domestically since the 1990s. Energy transformed Russia's fortunes after its decline during the 1990s. The wealth generated from energy exports sparked economic recovery and political stabilization and has significantly contributed to Russia's assertiveness as a great power. Energy has been a key factor in shaping Russia's foreign relations in both the Eurasian and global context. This development raises a host of questions for both Russia and the West about the stability of the Russian economy, how Russia will use the power it gains from its energy wealth, and how the West should react to Russia's new found political weight. Given that energy is likely to remain at the top of the global political agenda for some time to come, and Russia's role as a key energy supplier to Europe is unlikely to diminish soon, this book sheds light on one of the key security concerns of the 21st century: where is Russia headed and how does energy affect the changing dynamics of Russia's relations with Europe, the US, and the Asia Pacific region. This book will be of interest to students of Russian politics, energy security, international relations, and foreign policy in general. Jeronim Perovic is a senior researcher at the Center for Security Studies at ETH Zurich. Robert Orttung is a visiting scholar at the Center for Security Studies at the Swiss Federal Institute of Technology (ETH) in Zurich and a senior fellow at the Jefferson Institute. Andreas Wenger is professor of international security policy and director of the Center for Security Studies at ETH Zurich.
