Shared Housing United States. Congress. House. Select Committee on Aging. Subcommittee on Housing and Consumer Interests, 1982 **Challenge!**, 1980 **The 60s Communes** Timothy Miller, 2015-02-01 The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s To the fascination and amusement of more decorous citizens hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society Widely believed by the larger public to be sinks of drug ridden sexual immorality the communes both intrigued and repelled the American people The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest A great many of them were religious in basis stressing spiritual seeking and disciplined lifestyles Others were founded on secular visions of a better society Hundreds of them became so stable that they survive today This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid 1970s Based on more than five hundred interviews conducted for the 60s Communes Project among other sources it preserves a colorful and vigorous episode in American history The book includes an extensive directory of active and non active communes complete with dates of origin and dissolution

Religious Vitality in Christian Intentional

Communities Mark Killian,2017-09-25 Through ethnographic research Killian examines vitality in Philadelphia and Berea two Christian Intentional Communities whose participants live in close proximity with one another to achieve religious values Pulling from Anthony Giddens theory of structuration Killian argues that the vitality of both communities cannot be reduced to deterministic structural individual or organizational causes Rather vitality in these communities is affected by all of these causes in relationship to one another In other words it s not that each explanation matters e g social structures matter organizational behaviors matter individual religious choices matter but that these explanations matter to each other e g social structures matter to individual choices individual choices matter to organizational behaviors and social structures matter to organizational choices etc To make this argument Killian develops the idea of the vitality nexus the interconnected relationship between the various explanations of religious vitality

A History of Collective Living Susanne Schmid,2024-11-18

This book tells the story of communal living forms from about 1850 until the present day. The projects featured in this book are divided according to the motivations of their creators and users: economic, political, and social. The book also contains historical analysis and the identification of nine discrete development phases. The author investigates and compares different forms of housing and the way they developed until today. She illustrates how shared living, including the assurance of privacy, is practiced in Europe. Owing to its comprehensive documentation, the analysis of typologies, layout plans, and user and expert interviews, the book can also be seen as a handbook on communal living, offering a unique and detailed overview of this form of residential architecture. The out-of-print first edition has now been republished in a new edition, complete with a fresh design and layout. Illustration of European communal housing concepts since 1850. Over 30 case examples on how and why people live together. New edition of the standard work on collective living. Also available in German: *Eine Geschichte des gemeinschaftlichen Wohnens*. The Chinese Family Today Anqi XU, John DeFrain, Wenrong LIU, 2016-11-10. The Chinese economy is undergoing dramatic changes, and the world is watching and changing along with it. The Chinese family is also changing in many ways in response to the economic transformation that is moving the world's most populous nation from an agrarian economy to a global superpower. This is the first book in English to describe and explain the social transformation of the Chinese family from the perspective of Chinese researchers. Presenting a comprehensive view of the Chinese family today and how it has adapted during the process of modernization, it provides description and analysis of the trajectory of changes in family structures, functions, and relationships. It tracks how Chinese marriages and families are becoming more diverse and face a great deal of uncertainty as they evolve in different ways from Western marriages and families. The book is also unique in its use of national statistics and data from large-scale surveys to systematically illustrate these radical and extraordinary changes in family structure and dynamics over the past 30 years. Demonstrating that the de-institutionalization of family values is a slow process in the Chinese context, this book will be of interest to students and scholars of Chinese Studies, Sociology, Social Policy, and Family Policy. **A New Health and Care System** Alex Fox, 2018-02-28. The author draws on the experience and unique perspective gained through his leadership of the Shared Lives movement. Sharing Lives, Dividing Assets Joanna Miles, Rebecca Probert, 2009-08-18 With many couples separating each year the question of how to determine the financial and property consequences of such separation has always been a problem area within family law Should the principles be the same for married and cohabiting couples Should the division of assets reflect the parties own expectations or norms imposed by society These are just two of the questions which the essays in this collection seek to explore Recent cases in the House of Lords have seen willingness on the part of the judges to seek out empirical studies to inform their deliberations but if the law is to engage with empirical data then much more information is needed both about the arrangements people make during their relationships and about the impact of the

law when a relationship breaks down This inter disciplinary work brings together leading academics in the fields of law economics sociology and psychology in an attempt to provide some of the missing empirical information Part I sets out the legal framework and identifies the importance of empirical studies for this area Part II examines how couples whether cohabitants or spouses manage their money during their relationships Part III then considers the impact that the law currently has on separating couples examining how legal principles translate into reality and what their consequences are for the parties Finally Part IV considers the issue of legal rationality it may be rational for the law to be shaped by patterns of behaviour but how far will individual couples allow their behaviour to be shaped by the law
