Kincraft Todne Thomas, 2021-02-22 In *Kincraft* Todne Thomas explores the internal dynamics of community life among black evangelicals who are often overshadowed by white evangelicals and the common equation of the Black Church with an Afro Protestant mainline. Drawing on fieldwork in an Afro Caribbean and African American church association in Atlanta, Thomas locates black evangelicals at the center of their own religious story, presenting their determined spiritual relatedness as a form of insurgency. She outlines how church members cocreate themselves as spiritual kin through what she calls kincraft: the construction of one another as brothers and sisters in Christ. Kincraft, which Thomas traces back to the diasporic histories and migration experiences of church members, reflects black evangelicals' understanding of Christian familial connection as transcending racial, ethnic, and denominational boundaries in ways that go beyond the patriarchal nuclear family. Church members also use their spiritual relationships to navigate racial and ethnic discrimination within the majority white evangelical movement. By charting kincraft's functions and significance, Thomas demonstrates the ways in which black evangelical social life is more varied and multidimensional than standard narratives of evangelicalism would otherwise suggest.

[Ancient Food Rituals](#) Amara Jensen, AI, 2025-03-11 *Ancient Food Rituals* explores the deep connections between food spirituality and religious ceremonies throughout history. It examines how these practices have shaped human societies and belief systems. Early societies saw success in agriculture and hunting as divine favor, imbuing food with spiritual significance. The book argues these rituals provide insights into cultural values, revealing food as more than just sustenance. The book starts with fundamental concepts like the symbolic meanings of foods such as bread representing life and wine symbolizing transformation. It then delves into specific food rituals from ancient Egypt, Greece, Rome, Mesoamerica, and early Judaism and Christianity. Each chapter focuses on a particular civilization or religious tradition, examining the foods that were considered sacred and the rituals surrounding their preparation and consumption. Drawing from archaeological records, ancient texts, and ethnographic studies, the book highlights common threads and unique adaptations across different cultures. It culminates in a discussion of the enduring legacy of ancient food rituals in contemporary society, showing how modern dietary practices and religious celebrations echo these ancient traditions. This approach offers a broad comparative analysis of food and spirituality.
