The Dream Machine M. Mitchell Waldrop, 2018-09-25 The story of the man who instigated the work that led to the internet and shifted our understanding of what computers could be Behind every great revolution is a vision and behind perhaps the greatest revolution of our time is the vision of J C R Licklider He did not design the first personal computers or write the software that ran on them nor was he involved in the legendary early companies that brought them to the forefront of our everyday experience He was instead a relentless visionary who saw the potential in the way that individuals could interact with computers and software At a time when computers were a short step removed from mechanical data processors Licklider was writing treatises on human computer symbiosis computers as communication devices and a now not so unfamiliar Intergalactic Network His ideas became so influential his passion so contagious that author M Mitchell Waldrop calls him computing's Johnny Appleseed In a simultaneously compelling personal narrative and comprehensive historical exposition Waldrop tells the story of the man who not only instigated the work that led to the internet but also shifted our understanding of what computers were and could be This Stripe Press edition also includes the original texts of Licklider's three most influential writings Man Computer Symbiosis 1960 which outlines the vision that led to the personal computer revolution of the 1970s his Intergalactic Network memo 1963 which outlines the vision that inspired the internet and The Computer as a Communication Device 1968 coauthored with Robert Taylor which amplifies his vision for what the network could become

Small Contribution Big Difference Arshdeep Singh Veer,G. Singh,2015-04-15 Small Contribution Big Difference as the name describes this book sheds light on the basis of contribution Although the contribution is a small word to hear but its meanings are very deep to understand Because our small contribution can make a big difference in our society or in the lives of our loved ones people around us the people who are needy and poor This book is written to make everyone aware of the process of contribution and to make us think about how valuable a contribution is in our lives Contributing is not a difficult task it is a simple mindset that motivates and enables us to change our lifestyle to contribute some of our time money or resources to the lives of others Because often what happens to us at first we don t even think about contributing we don t know why we should contribute why we should do something good for society why we should help others And even if we realize it and make up our minds to do something then we are unable to find the right way to contribute according to our abilities and resources So this book introduces us to many reasons around the world for which our different contributions can make a difference Because there are so many issues in society such as poverty natural disasters discrimination that affect basic human needs like food clothing shelter education etc so through this book we will be able to explore different ways by which We can help those in need and those who have been affected for some reason Whether it s someone in our family someone we love our neighbor a citizen of our nation or anyone in the world we can make their lives a little better by

contributing This book also highlights some of the major evils of our society that are making our world very dirty and how we can get rid of these evils and raise our voice against them After reading this book we can realize that not only a big contribution can make a big difference in the world even our small contribution can make a big difference If we think we have a lack of resources that s why we are unable to contribute then that is not true there is only one thing we need that is a positive mind set by which we can contribute and devote ourselves anytime So hopefully this book will help all of us to see the world differently and make us able to find the real purpose of our life that will give us a life fulfillment and we would become capable to give back to the society In addition to this there are many other ways to contribute and there are other social issues that need to be considered that are not covered in this edition due to some limitations but hopefully they will definitely be considered in next editions

Logistics Management and Optimization through Hybrid Artificial Intelligence Systems Ortiz Zezzatti, Carlos Alberto Ochoa, Chira, Camelia, Hernandez, Arturo, Basurto, Miguel, 2012-03-31

This book offers the latest research within the field of HAIS surveying the broad topics and collecting case studies future directions and cutting edge analyses investigating biologically inspired algorithms such as ant colony optimization and particle swarm optimization Sharing, 1978 **Living in Data** Jer Thorp, 2021-05-04 Jer Thorp s analysis of the word data in 10 325 New York Times stories written between 1984 and 2018 shows a distinct trend among the words most closely associated with data we find not only its classic companions information and digital but also a variety of new neighbors from scandal and misinformation to ethics friends and play To live in data in the twenty first century is to be incessantly extracted from classified and categorized statisti fied sold and surveilled Data our data is mined and processed for profit power and political gain In Living in Data Thorp asks a crucial question of our time How do we stop passively inhabiting data and instead become active citizens of it Threading a data story through hippo attacks glaciers and school gymnasiums around colossal rice piles and over active minefields Living in Data reminds us that the future of data is still wide open that there are ways to transcend facts and figures and to find more visceral ways to engage with data that there are always new stories to be told about how data can be used Punctuated with Thorp s original and informative illustrations Living in Data not only redefines what data is but reimagines who gets to speak its language and how to use its power to create a more just and democratic future Timely and inspiring Living in Data gives us a much needed path forward

Community Visioning Programs Norman Walzer, Gisele Hamm, 2012-01-30 Community visioning is key in helping local public officials and community leaders create a flourishing future for their cities and is essential for the effective planning and implementation of these strategies Visioning involves collaborative goal setting to motivate actions of planners citizens and officials in order to design and carry out a strategic planning process for the successful development of the community The use of visioning since the 1980s has led to a wealth of information on the productivity of the paths it has taken The contributors all with experience working in the area review the successes and failures of the strategies and look at new innovations which are pushing the

frontiers of community visioning This review of the development of visioning focuses on small and medium sized communities in North America It aims to guide citizens local leaders and planners on what strategies are best to help them revitalise their communities and ensure a prosperous future
