Sand In Our Souls Leone Huntsman, 2013-05-09 Images of the beach pervade Australian popular culture However the deeper significance of the experience of the beach and its influence on Australian culture generally have not yet been seriously explored How why and when did the beach become part of the Australian way of life In *Sand in our Souls* Leone Huntsman describes the forces and pressures that encouraged or impeded Australians enjoyment of sand and surf from early enjoyment of bathing through nearly a century of repressive restrictions to freedom won in the face of drawn out opposition The ways in which artists writers film makers and the advertising industry have depicted the beach are examined for the light they throw on the beach s significance She traces the development of a distinctively Australian way of being at the beach suggesting that the beach experience has been absorbed into our emerging culture and continues to shape it in subtle ways Huntsman s provocative arguments will stimulate debate on the concept of national identity appropriate for a new Australian century and promote a deeper understanding of an aspect of life in Australia that is cherished by many of those who live here

[White Shark](#) Michael Bright, 2025-07-29 An adult great white is a big shark really big It has been responsible for more shark bites and human deaths than any other species according to the International Shark Attack File This is probably because it sees us as aberrant marine mammals flailing about in the water and certainly worth an exploratory bite but a gentle mouthing from a two tonne
