Shattering Of The Self Violence Subjectivity And Early Modern Texts:

The Shattering of the Self Cynthia Marshall, 2003-05-22 In *The Shattering of the Self Violence Subjectivity and Early Modern Texts* Cynthia Marshall reconceptualizes the place and function of violence in Renaissance literature. During the Renaissance an emerging concept of the autonomous self within art, politics, religion, commerce, and other areas existed in tandem with an established popular sense of the self as fluid, unstable, and volatile. Marshall examines an early modern fascination with erotically charged violence to show how texts of various kinds allowed temporary release from an individualism that was constraining. Scenes such as Gloucester's blinding and Cordelia's death in *King Lear* or the dismemberment and sexual violence depicted in *Titus Andronicus* allowed audience members not only a release but a shattering as opposed to an affirmation of the self. Marshall draws upon close readings of Shakespearean plays, Petrarchan sonnets, John Foxe's *Acts and Monuments of the Christian Martyrs*, and John Ford's *The Broken Heart* to successfully address questions of subjectivity, psychoanalytic theory, and identity via a cultural response to art. Timely in its offering of an account that is both historically and psychoanalytically informed, *The Shattering of the Self* argues for a renewed attention to the place of fantasy in this literature and will be of interest to scholars working in Renaissance and early modern studies, literary theory, gender studies, and film theory.

The Restoration of the Jews: Early Modern Hermeneutics, Eschatology, and National Identity in the Works of Thomas Brightman Andrew Crome, 2014-05-07 This book offers the first detailed examination of the life and works of biblical commentator Thomas Brightman (1562-1607), analysing his influential eschatological commentaries and their impact on both conservative and radical writers in early modern England. It examines in detail the hermeneutic strategies used by Brightman and argues that his method centred on the dual axes of a Jewish restoration to Palestine and the construction of a strong English national identity. This book suggests that Brightman's use of conservative modes of literal exegesis led him to new interpretations which had a major impact on early modern English eschatology. A radically historicised mode of exegesis sought to provide interpretations of the Old Testament that would have made sense to their original readers, leading Brightman and those who followed him to argue for the physical restoration of the Jews to the Holy Land. In doing so, the standard Reformed identification of Old Testament Israel with elect Christians was denied. This book traces the evolution of the controversial idea that Israel and the church both had separate unfulfilled scriptural promises in early modern England and shows how early modern exegetes sought to re-construct a distinctly English Christian identity through reading their nation into prophecy. In examining Brightman's hermeneutic strategies and their influence, this book argues for important links between a literal hermeneutic, ideas of Jewish restoration, and national identity construction in early modern England. Its central arguments will be of interest to all those researching the history of biblical interpretation, the role of religion in constructing national identity, and the background to the later development of Christian Zionism. This important study provides a new examination of Thomas Brightman's hermeneutical method.

Hobgood, 2024-11-04 Human variation has always existed though it has been conceived of and responded to variably Beholding Disability in Renaissance England interprets sixteenth and seventeenth century literature to explore the fraught distinctiveness of human bodyminds and the deliberate ways they were constructed in early modernity as able and not Hobgood examines early modern disability ableism and disability gain purposefully employing these contemporary concepts to make clear how disability has historically been disavowed and avowed too Thus this book models how modern ideas and terms make the weight of the past more visible as it marks the present and cultivates dialogue in which early modern and contemporary theoretical models are mutually informative Beholding Disability also uncovers crucial counterdiscourses circulating in the English Renaissance that opposed cultural fantasies of ability and had a keen sensibility toward non normative embodiments Hobgood reads impairments as varied as epilepsy stuttering disfigurement deafness chronic pain blindness and castration in order to understand not just powerful fictions of ability present during the

Renaissance but also the somewhat paradoxical surprising ways these ableist ideals provided creative fodder for many Renaissance writers and thinkers Ultimately Beholding Disability asks us to reconsider what we think we know about being human both in early modernity and today **Shakespeare Studies** Susan Zimmermann,Suzan Zimmerman,2005-10
