Shattering Our Assumptions:

Shattering Our Assumptions Miriam Neff, Debra Klingsporn, 1996 Based on a survey of 1 000 Christian women this book looks at their longings and struggles and at how they are courageously making their way in a challenging world This is a bold look at Christian women of today who they are not what everyone thinks they should be Written for all Christian women it offers encouragement and freedom to think beyond comfortable or uncomfortable ruts Shattered Assumptions Ronnie Janoff-Bulman, 2010-06-15 This book investigates the psychology of victimization It shows how fundamental assumptions about the world's meaningfulness and benevolence are shattered by traumatic events and how victims become subject to self blame in an attempt to accommodate brutality The book is aimed at all those who for personal or professional reasons seek to understand what psychological trauma is and how to recover from it **Psychological Growth After Trauma** Simon Wharne, 2025-08-26 Psychological Growth After Trauma is a guide to moving away from assumptions about trauma as a simple form of psychological damage Each chapter promotes an understanding of difficult experiences as learning opportunities that help us attune to the reality of existence and become more at ease with the truths that trigger our anxieties The book holds close to a phenomenological stance in which understanding emerges through experience and reflection This is not a book that argues for a model that practitioners would be required to adopt and impose on their clients Instead Psychological Growth After Trauma brings insights and explorations together allowing the reader to build their own framework for understanding The Handbook of Transactional Analysis Psychotherapy Joel Vos, Biljana van Rijn, 2025-06-04 This book is a comprehensive introduction to Transactional Analysis theory evidence base and practice It provides a step by step manual to the competencies and skills needed across the therapy process and a guide to working with a variety of client issues Supported by case studies reflective questions boxed summaries and process questionnaires this is the ideal book to support you in your training and practice It is an essential companion whether you're studying on a specialist TA course studying TA as part of a wider training or integrating TA into your practice **Against Symbolic Liberalism** Sari Hanafi, 2025-08-14 In an era of deepening polarization Sari Hanafi examines how social scientists often reproduce the very injustices they seek to challenge taking entrenched positions while dismissing alternative perspectives He introduces the concept of symbolic liberalism a contradiction in which individuals espouse classical liberal principles yet act in politically illiberal ways This he argues has exacerbated the pathologies of late modernity authoritarianism economic precarity and environmental destruction now all unfolding in a climate where reasonable debate seems increasingly impossible Examining key flashpoints of contemporary polarization Hanafi critiques how symbolic liberalism inflates the universality of rights while simultaneously narrowing the space for dialogue Rather than this rigid ideological stance he calls for a dialogical turn a renewed public sphere where diverse conceptions of the common good engage in genuine conversation Blending political and moral philosophy with sociological critique Hanafi offers a path forward in an age when intellectual

exchange is more necessary yet also more imperilled than ever Against Symbolic Liberalism is not just a critique of polarization but a critical and impassioned call to reclaim meaningful intellectual discourse A Professional's Guide to Understanding Trauma and Loss David E. Balk, Tracy Wong, Janet R. Balk, 2023-06-05 The purpose of this book is to provide vital information regarding loss and trauma to practicing counselors and therapists Trauma and loss are pervasive presenting problems many counselors and therapists possess scant understanding of trauma and loss and little if any attention is paid to trauma or to loss in the graduate training of clinical psychology and counseling psychology students The book is organized into four sections which cover an overview of loss and trauma key conceptual frameworks for understanding loss and trauma review of several types of events producing trauma and loss and interventions addressing loss and trauma A key contribution of the book is the focus on losses caused by death and losses due to other reasons The contributions to practice include the overview of what is known about trauma and about loss examination of several frameworks for organizing both understanding of and working with traumatized and bereaved clients rich descriptive cases of individuals coping with various traumatic events and the losses embedded in the trauma and presentation of various interventions including changes that can be made in the graduate education of practitioners The Shattered Expanse of Aster Vane Timothy Howard, 2025-02-05 In The Shattered Expanse of Aster Vane a war torn world where the ruins of civilization are overrun by sentient bioluminescent mutant flora three unlikely heroes a visionary engineer a tech savvy recluse and a battle hardened tactician must decode the cryptic language of nature to harness the power of coexistence over control As Miri Kul a civil engineer unearths a hidden communique from the pulsating veins of bioflora she ignites a journey beyond survival into the heart of ecological enigma Joining forces with Dalor Fen a reclusive tinkerer obsessed with reviving pre war technology and the pragmatic Rusmar whose tactical skills navigate the anarchic resurgence of the wild the trio plunges into a realm of breathtaking revelation and peril Their odyssey through mutant biomes and urban decay reveals a world where nature speaks in chemical whispers demanding a reevaluation of humanity's dominion Converging their diverse expertise the heroes confront militant factions clinging to dominion and discover that nature's wisdom offers a path to symbiosis rather than supremacy Through evocative prose and richly layered characters The Shattered Expanse of Aster Vane crafts a visionary epic about the cost of progress the resilience of nature and the profound journey from isolation to integration Readers will be enthralled by this haunting hopeful tale of a future where nature and technology embrace unlocking a path to balance and enduring renewal *NEPHILIM RISING: ANCIENT PROPHECY AWAKENS ~ BOOK 1 ADULT VERSION* Kristy Bratcher, 2025-07-24 Nephilim Rising Ancient Prophecy Awakens Adult Version They thought the flood ended it They were dead wrong What if the myths about giants weren't myths at all and what if the survivors are coming back to finish what they started On March 14th 2025 a 4 726 year old celestial timer hit zero The exact cosmic alignment that unleashed the Watchers on Mount Hermon in 2703 BC has returned and the ancient seals that have held back humanity's most terrifying
