Timothy G. Beckley, 1985-08 1985 Content the Shaver Mystery My Story Questions Green Children of Wulfpeters Cavern  
Monsters Come a Calling the Little People Atlanteans from the Inner Earth Legends of the West Rainbow City the Hollow  
Hills Pre Deluge      *The Shaver Mystery and Inner Earth* Timothy Beckley, Richard Shaver, 1967-12-15 In The Shaver  
Mystery and Inner Earth author Timothy Green Beckley has collected many stories from a vast wealth of sources on the  
subject of what is often called The Inner Earth Theory which holds that the earth does not consist of molten metal at its core  
as modern science tells us but is instead quite hollow inside and supports several different races of sentient beings as well as  
their impressive underground cities Those cities are said to be linked to one another by underground tunnels with above  
ground openings that the occasional surface dwelling mortal stumbles on to Much of the information Beckley presents comes  
from a man named Richard Shaver a spot welder on the Detroit automobile assembly lines who one day began to hear  
strange voices projected at him as he went about his work Following the trail that began with that unearthly auditory  
experience Shaver eventually came to the conclusion that the voices were coming from somewhere beneath the surface from  
a race of creatures he came to call the Deros which is short for degenerate robots The Deros have a story of their own They  
were once a gentle race who lived on the surface of the Earth until it became apparent that the sun was being transformed in  
some way that caused an increase in the amount of a form of dangerous radiation contained in its rays Some of the Deros  
escaped the planet by going into space in their highly developed spacecraft but not all of them managed to do so Those  
forced to remain went underground and built the cities referred to above but the sun's poisonous radiation also caused them  
to go insane and to develop cruel and sadistic personality traits It is because of their evil madness that mankind suffers so  
much today and Shaver himself experienced some bizarre mistreatments as he sought to learn more about the mysterious  
Deros Shaver eventually published many of his Dero tales in a magazine called Amazing Stories which were so popular that  
they greatly increased the magazine's circulation But Shaver's story of the Deros is only one of many versions of exactly what  
is down there in the Hollow Earth Beckley also offers stories by journalist John J Robinson and others whose research has  
turned up different legends and personal experiences some of which tell of a hidden paradise below our feet where beautiful  
spiritually benevolent creatures reside Beckley's use of numerous and divergent reports helps to paint a wonderfully  
complete picture of the centuries of folklore that have become mingled with scientific fact through real world investigations  
into the Subterranean Worlds Inside Earth Some of what's here stretches credibility a little more than might be totally  
comfortable But if you have an appetite for unsolved mysteries that extend beyond the realm of the safe and the knowable  
then Beckley's thorough overview of what may be inside the Hollow Earth is well worth the time spent reading it      *The
