## **She Does Math Reallife Problems From Women On The Job Classroom Resource Materials:**

She Does Math! Marla Parker, 1995-12-31 She Does Math presents the career histories of 38 professional women and math problems written by them. Each history describes how much math the Author took in high school and college, how she chose her field of study, and how she ended up in her current job. Each of the women presents several problems typical of those she had to solve on the job using mathematics. There are many good reasons to buy this book. It contains real life problems. Any student who asks the question "Why do I have to learn algebra or trigonometry or geometry?" will find many answers in its pages. Students will welcome seeing solutions from real world jobs where the math skills they are learning in class are actually used. The book provides strong female role models and supplies practical information about the job market. Students learn that they can only compete for these interesting, well-paying jobs by taking mathematics throughout their high school and college years. The book demonstrates the surprising variety of fields in which mathematics is used. Who should have this book? Your daughter or granddaughter, your sister, your former math teacher, your students, and young men too. They want to know how the math they study is applied, and this book will show them.
