1963: That Was the Year That Was Andrew Cook, 2013-02-01 While we conveniently package the past into decades when talking about the Roaring 20s the Rock and Roll era of the 50s or the Swinging 60s these tend to be labels of convenience rather than of historical accuracy In reality the first four years of the 1950s were more akin to the 1940s with austerity and rationing still facts of every day life Likewise the first three years of the 60s were in terms of fashion social attitudes and living standards really part of the 1950s The year 1963 was to be the seminal year when most of the things we now associate with the Swinging 60s really began Most years are fortunate to experience three or four seminal events during their allotted twelve months a cursory look through a chronology of 1963 however shows just how many significant events took place This year alone saw a huge number of watershed moments in popular culture national and international politics Arranged in a chronological month by month format 1963 That Was the Year That Was pieces together these happenings exploring their
