Negotiating Corruption Laura Routley,2015-12-14 Negotiating Corruption demands that we think again about corruption in Africa It problematises the framing of African corruption as a phenomenon that emerges from a clash between two sets of norms Moreover it highlights the colonial legacies of this frame which situates African corruption within continually recurring debates about the political inclusion or banishment of others NGOs are characterised as intermediaries between the local and the international and between the state and the population In both of these roles they are understood to reform

governance by bringing about changes in culture and instituting bureaucratic norms They have therefore been seen as part of the apparatus of a global liberal governmentality This book complicates this portrayal and highlights the ambiguous role of liberal governmentality through an exploration of the grey practices of the NGOs studied These practices are grey as they do not fit the pattern of virtuous NGOs holding the state to account described in development policy yet at the same time they ensure that the state produces the outcomes that a fully functioning state ought to This enacting of oppositional and antagonistic elements is further unpacked in conversation with Homi Bhabha s concepts of negotiation and hybridity Negotiating Corruption draws attention to both the limitations of current explanations of corruption in Africa and the problematic way in which they are framed The book s detailed engagement with understandings of corruption within policy and academic debates will make it a useful resource for undergraduate teaching It will also be of keen interest to researchers academics and postgraduate students who engage with the issues of corruption NGOs civil society African politics governmentality and hybridity Nigeria, Africa, and the United States Olayiwola Abegunrin,2016-12-07 The U S Department of Defense is fighting a new shadow war in Africa Africa is the battlefield of tomorrow and the United States military is spreading secret wars in the continent This book explores how and why this has happened Since the beginning of the twentieth century the formulation of the United States policy towards Africa has always been based on the strategic importance of the natural resources of Africa and how these can be used in the national interests of the United States However most Americans gave very little thought to Africa but instead referred to it as the Dark Continent not only because its peoples are dark skinned but also because it was unknown to them Africa is no longer dark but is rather becoming one of the lions on the move This book examines and analyzes Nigeria and U S policy on the continent since the Cold War It looks at Nigeria and the challenges facing the country including problems of development good governance and security It particularly focuses on the impacts of terrorism on Nigeria and U S Africa relations since the Cold War and the realities of September 11 2001 in relations to Nigeria and United States Islamists jihadists terrorism in Africa There is huge potential in Nigeria the country has the largest population in Africa and is well endowed in terms of both natural and human resources Nigeria also has the largest economy on the continent the largest black population in the world a burgeoning and vibrant youthful population and a tradition of international engagement since its independence Its advantageous geographical location in West Africa enables trade within the continent as well as with Europe North and South America and Asia Nigeria is the most important strategic partner for the United States in the African continent and will become increasingly so in this century **1989-1990** John Paxton,2021-06-21 No detailed description available for 1989 1990 1988-1989 John Paxton,2021-06-21 No detailed description available for 1988 1989 The Statesman's Year-Book 1986-87 J. Africa's First Peacekeeping Operation Terry M. Mays, 2002-05-30 In 1981 the Organization of African Unity OAU mandated and fielded the first regional peacekeeping operation since the Arab League's mission in Kuwait 20 years earlier Battalion sized contingents from Nigeria Senegal and Zaire were joined by smaller observer contingents from other OAU members in an effort to provide a buffer zone between the two main factions in the Chadian civil war Mays opens his analysis by providing an overview of the concept of peacekeeping Several definitions are offered to help distinguish between the various types of peace operations After examining the concept hegemon he looks at the ways regional and subregional hegemons utilize peacekeeping operations as foreign policy tools as they protect their interests Mays argues that Nigeria as a West African hegemon served as the moving force behind the mandating and fielding of the OAU peacekeeping mission in Chad Rather than being purely humanitarian in nature Nigeria's motivation included the removal of French and later Libyan soldiers from a weak state on its border However Nigeria could not perform the task alone France and the United States were instrumental as well in the mandating and fielding process French and American interests stemmed from concern over Libyan motives in Chad Nigeria kept the effort to mandate the peacekeeping operation alive for two years France proved to be the stimulus behind persuading the Chadian government to accept the deployment of OAU peacekeepers and prompting the Senegalese to contribute a battalion to the mission the United States contributed by keeping France and Nigeria focused on a peacekeeping solution and helping persuade Zaire to join the mission Mays offers the first comprehensive examination of the OAU peacekeeping mission and reviews the political and military organization of the force as well as its deployment redeployment plans logistics and operations between the Chadian factions Utilizing an extensive collection of resources including interviews with participants diplomats and government documents he provides a detailed examination of every meeting conference between 1979 and 1981 that discussed a peacekeeping option for Chad Factors of success in traditional peacekeeping operations are applied to the OAU mission and he concludes by reviewing the impact of the 1981 1982 OAU operation on current African peacekeeping trends An invaluable analysis for scholars students and other researchers involved with peacekeeping international relations and African studies

African Security Issues Bruce E. Arlinghaus, 2019-08-16 As African nations emerge more fully from the immediate postindependence era there is a pressing need to examine their security concerns from both African and global perspectives Issues of strategic access and resources superpower and regional conflict economic growth and internal stability and the role of African nations as a significant bloc

Africa's Quiet Revolution Observed from Nigeri Dominic Okereke, 2012-07 This book prescribes rapid revolution in principal sectors of this African economy through radical paradigm changes And the resultant comprehensive transformation will guarantee significantly higher productivities and double digit annual economic growth Included in this

paradigm shift is the joint reindustrialization of the African economy and the US ailing industries via a new Strategic trans Atlantic Alliance modeled on the balanced Euro US cooperation after World War II But it first takes readers through a thorough evaluation of the familiar subject corruption which haunts Nigeria the principal economy in the continent The fundamental difference with other texts on the subject is that this book identifies the most debilitating variant of that corruption That variant causes massive capital flight from a post colonial soft economy that is neither capitalist nor socialist The Nigerian corruption thrives on the native Philosophy of Commission hardened by intractable tribalism that coagulated and ossified with the imports substitution pattern preferred by European firms since independence The book then proceeds to earn its priced revolutionary credential by inventing very novel scientific methods that will skillfully turn this insidious source of structural rigidity and arrested development into a force for economic growth A new apex political leadership culture is recommended and to be fortified with a unifying lingua franca An inter ethnic marriage melting pot is advised for intensified nigerianization of Nigerian youths at birth Spiritual diversity is envisaged to significantly diminish religious intolerance and sectarian violence Modern bureaucracy and inward looking tourism are reformulated to reduce effervescent insecurity and minimize capital flight The resultant economic stability will enlarge domestic foreign investment inflow and will reverse the current dis industrialization and massive job loss and the conditions of under full employment Technological Functionalism Economic pan Africanism and the Alternative Policy of Inputs Substitution are among the several brand new blueprints that this book offers for the extensive transformation of Africa s economy into the robust emerging economy that will rival its counterparts in India and China in the immediate future Contemporary Issues and U.S. National Security Interests in Africa South of the Sahara ,1985
