Shelby County In The East Texas Hills:

Shelby County, in the East Texas Hills Charles Edward Tatum, 1984 **Black Texas Women: 150 Years of Trial and Triumph** Ruthe Winegarten, 2010-07-22 Enriches and complicates African American and women's history by connecting threads of race gender class and region Darlene Clark Hine John A Hannah Professor of History Michigan State University Winner of the Liz Carpenter Award from the Texas State Historical Association Women of all colors have shaped families communities institutions and societies throughout history but only in recent decades have their contributions been widely recognized described and celebrated This book presents the first comprehensive history of Black Texas women a previously neglected group whose 150 years of continued struggle and some successes against the oppression of racism and sexism deserve to be better known and understood Beginning with slave and free women of color during the Texas colonial period and concluding with contemporary women who serve in the Texas legislature and the United States Congress Ruthe Winegarten organizes her history both chronologically and topically Her narrative sparkles with the life stories of individual women and their contributions to the work force education religion the club movement community building politics civil rights and culture The product of extensive archival and oral research and illustrated with over 200 photographs this groundbreaking work will be equally appealing to general readers and to scholars of women's history black history American studies and Texas history Occasionally a book comes along that is monumental in scope overwhelming in amount of research and so powerful in its impact as to be categorized at once as a lasting contribution to our knowledge of humankind Black Texas Women is one of those rare books The Journal of American History **Let's Cross Before Dark** Bill Winsor, 2022-11-30 Let's Cross Before Dark A History of the Ferries Fords and River Crossings of Texas The state of Texas claims over 12 000 named rivers and streams stretching approximately 80 000 linear miles within its boundaries In this book Bill Winsor identifies and locates over 550 named river crossings within the state that once served as vital destinations for Native Americans European explorers and Mexican and American soldiers and colonists Winsor has catalogued their origins and histories Included in the work are maps of major rivers and their crossings as well as select images of early ferry operations of Texas In addition to an alpha index of the crossings the 625 page book presents an in depth examination of the roles principal rivers and their crossings assumed in the framing of Texas history Each of its fourteen chapters explores the founding of these various sites and the characters that brought them to life This information under one cover presents an incomparable resource for future generations to better understand and appreciate the historical relevance of these vanishing theaters of history *Plain Folk, Planters, and the Complexities of Southern Society* Ricky L. Sherrod, Annette Pierce Sherrod, 2014 The book employs the story of one particular extended family network the Browns Sherrods Mannings Sprowls and Williamses to illustrate the powerful influence of kinship ties as a force mitigating lines of class distinction in the nineteenth century American South It traces each family's story from its earliest appearance in the historical record to the

convergence of the family network first taking shape in northeast Alabama and eventually reaching full blown form in northwest Louisiana s Red River Valley There both the plain folk and planters within the group demonstrated exceptional harmony and cooperation in constructing a flexible family network that left its mark on the area between the 1820s and 1870s The story of these five families reveals much about migratory patterns of that restless segment of early to mid nineteenth century Americans who hankered to exploit opportunities on the ever expanding westward moving agricultural frontier

Freedom Colonies Thad Sitton, James H. Conrad, 2010-01-01 A history of independent African American settlements in Texas during the Jim Crow era featuring historical and contemporary photographs In the decades following the Civil War nearly a quarter of African Americans achieved a remarkable victory they got their own land While other ex slaves and many poor whites became trapped in the exploitative sharecropping system these independence seeking individuals settled on pockets of unclaimed land that had been deemed too poor for farming and turned them into successful family farms In these self sufficient rural communities often known as freedom colonies African Americans created a refuge from the discrimination and violence that routinely limited the opportunities of blacks in the Jim Crow South *Freedom Colonies* is the first book to tell the story of these independent African American settlements Thad Sitton and James Conrad focus on communities in Texas where blacks achieved a higher percentage of land ownership than in any other state of the Deep South The authors draw on a vast reservoir of ex slave narratives oral histories written memoirs and public records to describe how the freedom colonies formed and to recreate the lifeways of African Americans who made their living by farming or in skilled trades such as milling and blacksmithing They also uncover the forces that led to the decline of the communities from the 1930s onward including economic hard times and the greed of whites who found legal and illegal means of taking black owned land And they visit some of the remaining communities to discover how their independent way of life endures into the twenty first century Thad Sitton and James H Conrad have made an important contribution to African American and southern history with their study of communities fashioned by freedmen in the years after emancipation

Journal of American History This study is a thoughtful and important addition to an understanding of rural Texas and the nature of black settlements *Journal of Southern History*
