Longing Like Despair:

A Longing Like Despair Alan Grob, 2002 A major aim of Grob's study is to show Arnold as poet to be possessed of far greater philosophic depth and subtlety than his critics have usually credited him with by identifying the deep affinities and shared weltanschauung of his poetic vision with the metaphysical pessimism of Schopenhauer the major European philosopher whose insistence on the cosmic opposition between the world as will and the world as idea provided the most important philosophic alternative in the nineteenth century to the age's otherwise dominant progressive historicism Jacket

Horace and the Victorians examines the English reception of Horace in Victorian culture a period which saw the foundations of the discipline of modern classical scholarship in England and of many associated and lasting social values It shows that the scholarly study translation and literary imitation of Horace in this period were crucial elements in reinforcing the social prestige of Classics as a discipline and its function as an indicator of gentlemanly status through its domination of the elite educational system and its prominence in literary production The book ends with an epilogue suggesting that the framework of study and reception of a classical author such as Horace so firmly established in the Victorian era has been modernised and democratised in recent years matching the movement of Classics from a discipline which reinforces traditional and conservative social values to one which can be seen as both marginal and liberal [Victorian Noon](#) Carl Dawson,2020-03-24
