## **Longterm Conflict Prevention And Industrial Development:**

**Long-Term Conflict Prevention and Industrial Development** Ralf Bredel, 2003 After decades of striving to prevent international conflict major armed conflicts in the 1990s have taken place within national boundaries After the series of national independence wars in the 1950s and 1960s and frequent geopolitical wars in the 1970s and 1980s a category of wars of the third kind prevailed The aim of this book is to consider the root causes of recent internal conflicts and to develop long term conflict prevention strategies from here New insights suggest the central role of politico economic inequalities in ethnic religious and cultural conflict The United Nations system has just started to adjust to this new reality of conflict and make long term conflict prevention a priority issue on international agendas Whereas development practitioners should principally conceive their work through a conflict prevention lens there is a shift in focus to United Nations agencies that deal with the economic characteristics of conflict The unbroken significance of a sustainable industrial development process in developing countries may allow the United Nations Industrial Development Organization UNIDO a particular vantage point and role in the long term prevention of conflict *Research Handbook on Conflict Prevention* Timo Kivimäki, 2024-06-05 The Research Handbook on Conflict Prevention is a cohesive and comparative analysis of the ways in which organised violence is combatted Renowned experts dissect the complex problem of conflict prevention by investigating its three main aspects agency methods and timing *International Conflict Resolution Using System Engineering (SWIIS)* H. Chestnut, T. Vamos, Peter Kopacek, 2014-07-04 Finding an alternative to supplement military ways of resolving international conflicts has been taken up by many people skilled in various areas such as political science economics social studies modelling and simulation artificial intelligence and expert systems military strategy and weaponry as well as private business and industry The Workshop will therefore be of use as it looks at various control methods which would create a conciliatory social and political environment or climate for seeking and obtaining non military solutions to international conflicts and to solutions to national conflicts which may lead to international conflicts *Innovation, competitiveness and Agro-industrial Development* , *United Nations Juridical Yearbook* United Nations, 2006 *Consequences of Longterm Conflicts in Northeast India* V R Raghavan, 2013-05-01 In the case of Northeast India a number of researchers were engaged to study different and multi layered dynamics of the conflict and the consequences This is the second book that encompasses the studies presented by many researchers on different facets of this conflict *European Legal Book Index* , 2001 **Handbook of Industrial Development** Patrizio Bianchi, Sandrine Labory, Philip R. Tomlinson, 2023-01-13 Providing an overview of industrial development using a variety of different approaches and perspectives the Handbook of Industrial Development brings together expert contributors and highlights the current multiple and interdependent challenges that can only be addressed by an interdisciplinary approach Chapters discuss the existing issues faced by industry following both the digital and environmental transitions highlighting their regional roots and the interplay with the wider institutional framework *The*

*Ethical Economy of Conflict Prevention And Development* Ralf Bredel, 2007 Central to the current development debate is the importance of human welfare in the context of group conflict. When considering ethnic racial and religious conflict this debate draws us toward a political economy of conflict. Moreover, notions of an economic paradigm have become prominent when international organizations debate conflict prevention. In looking closer at the political economy of conflict this publication argues the need to assimilate into our thinking distinct social and ethical economies of conflict prevention. A social economy of conflict prevention considers the interplay of economic with structural and cultural factors in conflict explaining a much neglected category of conflict i.e. hidden conflict. The ethical economy of conflict prevention considers implicit ethical statements development practitioners use. From these statements arise ethical paradoxes that influence the evolving economic paradigm in such way as to contradict one of its intrinsic desires namely to restrict conflict prevention strategies to effective technical interventions. Eventually such narrow focus on technical interventions could identify this evolving paradigm as an economical paradigm. In contrast a rethinking of the ethical economy of conflict prevention provides a useful tool for international organizations when implementing a human rights based approach to development and long term conflict prevention.
