R. Bowker LLC,1978 Blackwood's Edinburgh Magazine ,1838 Art, Creativity, and Politics in Africa and the Diaspora Abimbola Adelakun,Toyin Falola,2018-07-26 This book explores the politics of artistic creativity examining how black artists in Africa and the diaspora create art as a procedure of self making Essays cross continents to uncover the efflorescence of black culture in national and global contexts and in literature film performance music and visual art Contributors place the concerns of black artists and their works within national and transnational conversations on anti black racism xenophobia ethnocentrism migration resettlement resistance and transnational feminisms Does art by the subaltern fulfill the liberatory potential that critics have ascribed to it What other possibilities does political art offer Together these essays sort through the aesthetics of daily life to build a thesis that reflects the desire of black artists and cultures to remake themselves and their world **Interpreting America** John Ryder,1999 More scholarly works on the history of American philosophy have been completed in Russian than in any other language outside of our own yet most of that body of work has not been translated or studied comprehensively Consequently Soviet era efforts to understand American thought have remained almost entirely unknown to Western scholars In his pioneering new book *Interpreting America* John Ryder makes available for the first time to English speaking readers Russian views of the full range of American philosophical thought from seventeenth century Puritanism through the colonial and revolutionary periods nineteenth century idealism pragmatism naturalism and other twentieth century movements and figures Using his own accurate translations he clearly reconstructs a chain of core ideas emphasizes the most essential concepts of each writer's work and gives a multidimensional

reconstruction of the arguments of each author By taking mainstream Soviet philosophical commentators like Baskin Bogomolov Karimsky Melvil Pokrovsky Sidorov and Yulina seriously and letting them speak for themselves Ryder shows not only what Soviet philosophers and scholars thought of American philosophy and why they were so interested in the first place but also the nuances of the internal disagreements among Soviet thinkers about what American philosophers were saying He also reveals a strong continuity between contemporary post Soviet Russian philosophy and earlier Soviet work Perhaps no other book has ever explored in such a systematic manner the ways in which one philosophical system has regarded another Ryder s revealing study of how others have viewed us helps to clarify the depth richness and complexity of our own American philosophical heritage

Looking with Robert Gardner Rebecca Meyers,William Rothman,Charles Warren,2016-08-01 Assesses the range and magnitude of Robert Gardner s achievements as a filmmaker photographer writer educator and champion of independent cinema During his lifetime Robert Gardner 1925 2014 was often pigeonholed as an ethnographic filmmaker then criticized for failing to conform to the genre s conventions conventions he radically challenged With the release of his groundbreaking film *Dead Birds* in 1963 Gardner established himself as one of the world s most extraordinary independent filmmakers working in a unique border area between ethnography the essay film and poetic experimental cinema Richly illustrated *Looking with Robert Gardner* assesses the range and magnitude of

Gardner's achievements not only as a filmmaker but also as a still photographer, writer, educator, and champion of independent cinema. The contributors give critical attention to Gardner's most ambitious films such as *Dead Birds* 1963, *New Guinea Rivers of Sand* 1975, *Ethiopia and Forest of Bliss* 1986, *India* as well as lesser known films that equally exemplify his mode of seeking anthropological understanding through artistic means. They also attend to his films about artists including his self-depiction in *Still Journey On* 2011 to his roots in experimental film and his employment of experimental procedures and to his support of independent filmmakers through the Harvard Film Study Center and the television series *Screening Room* which provided an opportunity for numerous important film and video artists to present and discuss their work. This book is a monumental, fearless, and insightful contribution of critique that looks both with and at Gardner's works as a whole. Catherine Summerhayes, author of *Google Earth Outreach and Activism: Looking with Robert Gardner* introduces new and exciting voices into the dialogue about the renowned ethnographic and documentary filmmaker. The book contains very close readings of many of his films and suggests fresh approaches for analyzing those as well as ethnographic films in general. Understanding Self-Worth Dawna Daigneault, Chris Brown, 2025-09-08. *Understanding Self-Worth: A Guide to Worth, Conscious Theory, and Psychotherapeutic Practice* is a guide for psychotherapists confounded by the struggle of working with clients who present with a pervasive pattern of denied self-worth. When self-worth is perceived as conditional or denied altogether, clients may become complicit in creating a lost-worth story, the story they tell that keeps them denying their own worth. The denial may include generational abusive and/or intrusive injunctions that go against their lived truth. Psychotherapists will come away from this book with a deep understanding of the importance of attending to the degree of trauma experienced when the client's self-worth is separated from their individual truth. Moreover, where there is worth-based trauma, the psychotherapist will learn models both for helping clients gently and honestly reestablish a worthy and true sense of self and for consciously guiding clients toward recovery of human worth as a birthright. **Library of Congress Catalogs** Library of Congress, 1979. **Embodied Consciousness** J. McCutcheon, B. Sellers-Young, 2013-07-01. This volume of essays combines research from neuroscience, conscious studies, methods of training performers, modes of creating a staged narrative, Asian aesthetics, and postmodern theories of performance in an examination of the relationship between consciousness and performance. Kant's Defense of Common Moral Experience Jeanine Grenberg, 2013-07-18. This book

argues that everything important about Kant's moral philosophy emerges from common human experience of the conflict between happiness and morality

Selfless Minds Monima Chadha, 2023-01-28 *Selfless Minds* offers a new interpretation of no self metaphysics in Vasubandhu's *Abhidharmakosa Bhasya* Monima Chadha reads Vasubandhu as defending not only eliminativism about self but also about persons and illusionism about the sense of self and all kinds of self representation This radical no self thesis presents several challenges for Abhidharma Buddhist philosophy of mind Even if we then grant that there is no self we are left with deeper questions about the sense of self or self representations implicated in our ordinary everyday experience and thought about the world and ourselves And if we grant that there are no persons questions remain about the status of our person related concerns and interpersonal practices *Selfless Minds* answers these questions on behalf of the Abhidharma Buddhist The first part of the book defends the hypothesis that we can salvage much of our experience and thought without implicating self representations The second part of the book examines the revisionary implications of the no person metaphysics Some of these seem unpalatable if not downright absurd This she argues give us reason to re evaluate both the Abhidharma metaphysics and our ordinary person related practices and concerns in light of each other by using some sort of wide reflective equilibrium *Selfless Minds* is a contribution to cross cultural philosophy that studies the nature of selfless minds from a place at the crossroads of different traditions and disciplines philosophy in the traditional Buddhist and contemporary Western traditions and contemporary cognitive sciences
