Looking For A Miracle Weeping Icons Relics Stigmata Visions And Healing Cures:

Looking for a Miracle Joe Nickell, 2009-12-02 The willingness of people to believe in magical icons mystical relics and miraculous pictures like the Image of Guadalupe is almost as curious as these phenomena themselves Though they cry out for scientific investigation millions of people blindly accept them as fact Historical and paranormal investigator Joe Nickell confronts such strange events powers and objects as the Shroud of Turin bleeding or weeping statues burning handprints liquefying blood ecstatic visions miraculous cures and people speaking in tongues in Looking for a Miracle Departing from standard critiques of religion Nickell carefully investigates the evidence relating to specific claims Religious believers and rationalists alike have much to learn from this revealing examination of the evidence for the miraculous Looking for a Miracle Joe Nickell, 1997

Miracle Cures Robert A. Scott, 2010-06-07 Iconic images of medieval pilgrims such as Chaucer's making their laborious way to Canterbury conjure a distant time when faith was the only refuge of the ill and infirm and thousands traveled great distances to pray for healing Why then in an age of advanced biotechnology and medicine do millions still go on pilgrimages Why do journeys to important religious shrines such as Lourdes Compostela Fátima and Medjugorje constitute a major industry In Miracle Cures Robert A Scott explores these provocative questions and finds that pilgrimage continues to offer answers for many Its benefits can range from a demonstrable improvement in health to complete recovery Using research in biomedical and behavioral science Scott examines accounts of miracle cures at medieval early modern and contemporary shrines He inquires into the power of relics apparitions and the transformative nature of sacred journeying and shines new light on the roles belief hope and emotion can play in healing

Shining Garment of the Text Alison Jasper, 1998-09-01 Taking the prologue of John's Gospel as a case study in feminist biblical criticism the author engages with a persistent view that the biblical text is seriously compromised by its association with patriarchal values Close analysis of five interpretations by Augustine Hildegard von Bingen Martin Luther Adrienne von Speyr and Rudolf Bultmann shows how unavoidably interpretation clothes the biblical text with the varied and dazzling patterns of the patriarchal reading context But in a second turn drawing on the techniques of both structuralist criticism and deconstruction and offering three further inventive readings of this powerful passage Jasper reflects woman and the feminine in the shining garment of her own contextualized reading

50 Popular Beliefs That People Think Are True Guy P. Harrison, 2012-01-03 What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality asks Neil deGrasse Tyson science popularizer and author of Astrophysics for People in a Hurry I don t know for sure But a good place to start would be for everyone on earth to read this book Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels Or perhaps you re trying to find a nice way of dissuading someone from wasting money on a homeopathy cure Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon How do you find a gently persuasive way of steering people away from unfounded beliefs bogus cures conspiracy theories and the like This down to earth entertaining exploration of commonly held extraordinary claims will help you set the record straight The author a veteran journalist has not only surveyed a vast body of literature but has also interviewed leading scientists explored the most haunted house in America frolicked in the inviting waters of the Bermuda Triangle and even talked to a contrite Roswell alien He is not out simply to debunk unfounded beliefs Wherever possible he presents alternative scientific explanations which in most cases are even more fascinating than the wildest speculation For example stories about UFOs and alien abductions lack good evidence but science gives us plenty of reasons to keep exploring outer space for evidence that life exists elsewhere in the vast universe The proof for Bigfoot or the Loch Ness Monster may be nonexistent but scientists are regularly discovering new species some of which are truly stranger than fiction Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality this book invites readers to
