a collection of procedures named after the basic graph types they p duced The graphics code was roughly one and a half megabytes in size In the early 1990 s I redesigned the SYSTAT graphics package using ject based technology I intended to produce a more comprehensive and namic package I accomplished this by embedding graphical elements in a tree structure Rendering graphics was done by walking the tree and editing worked by adding and deleting nodes The code size fell to under a megabyte In the late 1990 s I collaborated with Dan Rope at the Bureau of Labor Statistics and Dan Carr at George Mason University to produce a graphics p duction library called GPL this time in Java Our goal was to develop graphics components This book was nourished by that project So far the GPL code size is under half a megabyte **InfoWorld** ,1982-03-01 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects <u>The Look of Love</u> David George Richards,2007-02-09 Five girls Louise Chrissy Jo Angela and Victoria start their first year at Manchester Metropolitan University together Most of them are friends from school while one is new to the group Louise is shy and introverted mainly because of her sexuality which in the past has caused her both ridicule and pain She has got to know the other girls but hides her sexuality scared of coming out but yearning for the soul mate she lacks Chrissy Jo and Angela are avid night clubbers but where Jo is only interested in fun and boys Chrissy has dreams of better things Beautiful smart and with a wicked reply to any chat up line she also yearns for the perfect soul mate But for Chrissy it must be a rich soul mate one who can buy her all her dreams Victoria is loud uninhibited and always at the centre of attention the life and soul of any party But Victoria also hides a darker side She is not just an extrovert but an utter exhibitionist bent on self destruction She lives to the extreme and often dangerously so On Friday night the girls hit the cafe bars and night clubs of Manchester It is an eventful night out a night out that will lead to romance the fulfilment of young dreams and for one of them murder <u>The Most Complex Machine</u> David J.
