

LOOKING-GLASS SELF

The looking-glass self is a concept in social psychology that suggests people develop their sense of self based on how they believe others perceive and evaluate them.

DEFINITION

The looking-glass self is a concept developed by American sociologist Charles Horton Cooley which states that individuals form their view of themselves based on how they believe they appear to others.

Essentially, it suggests that to understand ourselves, we must first attempt to understand how other people see us and use this knowledge to shape our own identities

EXAMPLE

In this example, an individual may think they performed poorly during the job interview, but upon receiving approving looks from their interviewers, they may gain a better opinion of their own performance.

Privilege Through the Looking Glass is a collection of original essays that explore privilege and status characteristics in daily life. This collection seeks to make visible that which is often invisible. It seeks to sensitize us to things we have been taught not to see. Privilege, power, oppression, and domination operate in complex and insidious ways impacting groups and individuals. And yet these forces that affect our lives so deeply seem to at once operate in plain sight and lurk in the shadows making them difficult to discern. Like water to a fish, environments are nearly impossible to perceive when we are immersed in them. This book attempts to expose our environments. With engaging and powerful writing, the contributors share their personal stories as a means of connecting the personal and the public. This volume applies an intersectional perspective to explore how race, class, gender, sexuality, education, and ableness converge, creating the basis for privilege and oppression. *Privilege Through the Looking Glass* encourages readers to engage in self and social reflection and can be used in a range of courses in sociology, social work, communication, education, gender studies, and African American studies. Each chapter includes discussion questions and/or activities for further engagement. *Privilege Through the Looking Glass* offers a varied and profound examination of how privilege functions as the underside of power. This is a powerful and important book about inequality, identity, agency, and the challenge of addressing difference as part of a democratic ethos in a time of growing authoritarianism all over the world. Every educator should read this book. Henry A. Giroux, Professor, McMaster University. A courageous volume that blends theory, personal experiences, and reflections on contemporary debates over identity. This is a book that is more about the politics of identity than identity politics. It is a powerful testament to the urgency of understanding privilege and deserves to be read widely. Peter McLaren, Distinguished Professor, Chapman University.

Privilege Through the Looking Glass unmask[s] the casual isms that suppress the best aspects of our humanity by assembling a powerful and honest collection of parables. Poignant and unflinching, the contributors eschew the cloak of objectivism to give the hard truth about privilege as a social ill and the collective responsibility of the conscious community to confront all forms of oppression. This book has lessons for anyone with the spirit to explore better ways to be themselves and relate to others. Ivory A. Toldson, Professor, Howard University, and Editor in Chief for *The Journal of Negro Education*. Patricia Leavy, Ph.D., is an award-winning independent sociologist and best-selling author.

What's Behind the Looking Glass? Eric Shepherd, 2014-12-26. Most people wish they could get a second chance in life. A do-over and correct those mistakes that now lay hidden or buried in their closet. They wish they could hide all those painful memories and lock them all away into a box. Buried them so deep, hoping they never resurface rather than too face them at all. EJ Stuart is just such a person yet his memories are not the same nor are the hardships of abuse caused by a broken home the same as another man's down the street. His nightmares are worlds apart than any man has ever faced. He dreams of darkness, everlasting darkness so evil that

it can tear a man's mind apart Death to some is only a beginning to something else but what if it was designed to change the outcome entirely yes a redo But what of the cost and are you willing to pay for it even if it is your very soul is at stake EJ Stuart as man now a statuses quo in this world is given the opportunity But first he must choose to as he sits one last time on porch alone waging war with his darkest thoughts That brought him to this stage of life which hunts his dreams and has now entered his waking state Which will he chose Death or a chance to change his destiny forever knowing his very soul is at stake Knowing he could never come back Knowing his life could be changed forever and others around him For this choice is a gift which can only be obtained Behind the Looking Glass Where worlds such as Nightmares Monsters and Fairytales are real and some or seeking his very soul others are asking for help his help to save his and their world from the grasp of evil Choose well

The Female Body in the Looking-Glass Basia Sliwinska, 2016-06-29 In his theory of the mirror stage the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes Within this framework he described female sexuality primarily as an absence and assumed female subordination to the male gaze However what happens if one follows Jean Baudrillard's advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror which reflects the culture in question its norms ideals and values What if the beautiful is inverted and becomes ugly and the ugly is considered beautiful or shape shifts into something conventionally thought of as beautiful These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women's art Through an innovative discussion of the mirror as a metaphor Sliwinska reveals how the post 1989 practices of woman artists from both sides of the former Iron Curtain such as Joanna Rajkowska Marina Abramovic Boryana Rossa Natalia LL and Anetta Mona Chisa and Lucia Tkacova go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity Their provocative works offer alternative representations of the female body to those seen in the cultural mirror Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity such as Alice in Wonderland Venus and Medusa The Female Body in the Looking Glass makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts such as the mirror and genderland inspired by Alice's adventures in Wonderland as critical tools with which we can analyse and
