A Literary History of England Vol. 4 A. Baugh, Kemp Malone, 1959 *Taking the Fight to the Enemy* Adam L. Fuller, 2012-01-01 Neoconservatism is more of a disposition than a single political theory but it is an attitude that has had a profound impact on the broader conservative effort in the United States since the Fifties It is a unique blend of skepticism and fortitude about a host of wide ranging issues spanning culture economics and national defense This book looks at six neoconservative intellectuals Irving Kristol Gertrude Himmelfarb Norman Podhoretz Midge Decter Daniel Bell and Nathan Glazer and the intellectual influences on their thinking about the defects of communism fascism progressivism the dominant American culture and even capitalism itself This book looks at the gestation of political criticism within the pages of the neoconservatives own writings as well as the books they read and the thinkers they either learned from or came to fear The book looks at the ways in which the neoconservatives adapted Lenin s formula for success to conservative efforts in the United States arguing that neoconservatism is an anti ideology ideology in that it considers a New Class of professional ideologically motivated reformers to be the greatest problem facing the United States because of their increased efforts to

technocratize ordinary life their moral relativism their efforts to usurp human nature and supplant it with their own utopian visions their anti Americanism and their unwillingness to face imminent dangers threatening the American way of life The book argues that the neoconservative political strategy is to take the fight to the enemy **History** John Higham, Leonard Krieger, Felix Gilbert, 2016-04-14 This book originally published in 1977 is a survey of European historiography from its origins in the historians of Greece and Rome through the annalists and chroniclers of the middle ages to the historians of the late eighteenth century The author concentrates on those writers whose works fit into a specific category of writing or who have influence the course of later historical writing though he does deal with some of the more specialist forms of medieval historiography such as the crusading writers and chivalrous historians like Froissart He maintains that modern history did not develop until the 18th Century An Intellectual History of Liberal Catholicism in Western Europe, 1789-1870 Aude Attuel-Hallade, 2024-01-25 This volume probes and deciphers the tensions and contradictions that underlie modern European Liberal Catholicism Beginning with the French revolution and looking at dialogues between European public moralists the book discusses the ways in which liberal Catholics loosened their bonds with religion all the while relying on it It reflects on how and why they promoted a post revolutionary state and society based on religious dogma and morality and what new liberal order and socio political and religious models they proposed Beyond the analysis of the work of these Catholic intellectuals the question of their conceiving a specific liberal approach through Catholicism is also investigated More generally it prompts a vital reappraisal of the political ideological and philosophical pressures that the religious question caused in the redefinition of Western European post revolutionary liberalism *Discipline and Power*, 1995 An intellectual cultural and social analysis of the ways in which universities successfully transformed a set of values encoded in the concept of liberal education into a licensing system for a national elite *The New History and the Old* Gertrude Himmelfarb, 2004 For this updated edition of her acclaimed work on historians and historiography Himmelfarb adds four new essays In examining the effects of postmodernism the illusions of cosmopolitanism A J P Taylor and revisionism and Fukuyama's end of history Himmelfarb enriches her exploration of the ways historians make sense of the past *Humanities*, 1991
