Losing the Sacred David Torevell, 1998 *The Trauma of Monastic Reform* Alison I. Beach, 2017-11-02 This book opens a window on the lived experience of monastic reform in the twelfth century Drawing on a variety of textual and material sources from the south German monastery of Petershausen it begins with the local process of reform and moves out into intertwined regional social political and ecclesiastical landscapes Beach reveals how the shock of reform initiated decades of anxiety at Petershausen and raised doubts about the community's communal identity its shifting internal contours and boundaries and its place within the broader spiritual and social landscapes of Constance and Swabia *The Trauma of Monastic Reform* goes beyond reading monastic narratives of reform as retrospective expressions of support for the deeds and ideals of a past generation of reformers to explore the real human impact that the process could have both on the individuals who comprised the target community and on those who lived for generations in its aftermath Reforming the Liturgy John F. Baldovin, 2016-03-24 2009 Catholic Press Association Award Winner Perhaps no liturgical scholar of our time is better able than John Baldovin to write with clarity and accuracy about the meaning of the church's liturgy and the history of its development in the last half century In this summary volume on the reform of the liturgy since the Second Vatican Council Baldovin pinpoints and assesses both sympathetically and critically the objections to changes in the liturgy since the council focusing on philosophical historical critical and theological questions After addressing each criticism in turn in a final chapter he assesses the critique of post Vatican II liturgy as a whole affirming what is accurate and necessary rejecting what is backward looking and proposing a set of principles to guide future development No one who studies or participates in

New Catholic Feminism Tina Beattie, 2006 It is hard to over estimate the challenge that feminism poses to Roman Catholicism Pope John Paul II's call for a new feminism has led to the development of a Catholic theological response to the so called old feminism The New Catholic Feminism sets up a dramatic encounter between the orthodox Catholic establishment and contemporary critical theory including feminist theology and philosophy queer theory and French psycholinguistics in order to explore fundamental questions about human identity personhood and gender From the naked bodies of Eden to the gay nuptials of liturgy it argues that the strange and volatile world of Catholic sexual symbolism cannot be tamed to meet the ideological agendas of either feminist theology or conservative Catholicism Only through a radical re evaluation of the sacramental significance of the sexed human body might the Catholic Church provide a redemptive response to the sexual politics of contemporary society

Welcoming Finitude Christina M. Gschwandtner, 2019-10-01 What does it mean to experience and engage in religious ritual How does liturgy structure time and space How do our bodies move within liturgy and what impact does it have on our senses How does the experience of ritual affect us and shape our emotions or dispositions How is liturgy experienced as a communal event and how does it form the identity of those who participate in it Welcoming Finitude explores these broader questions about religious experience by focusing on the manifestation of liturgical experience in the Eastern Christian tradition Drawing on the methodological tools of contemporary phenomenology and on insights from liturgical theology the book constitutes a philosophical exploration of Orthodox liturgical experience

Religious Emotions Walter Van Herck, Willem Lemmens, 2009-05-05 In recent decades contemporary Anglo American philosophy has seen a boom in publications on the subject of the emotions Most publications focus on the cognitive value of emotions and on their moral significance The role which emotions play in religion however has so far received little attention In this volume a number of scholars present their research on religious emotions Is there a category of religious emotions What is so distinctive about them Was there really a Christian inspired repression of the emotions Or did Christianity also make use of the human emotional potential How is the relation between religion and emotions conditioned by the process of secularisation How and why did a shift from the concept of passion to that of emotion occur from the eighteenth century on This collection includes systematical treatments as well as historical approaches of these issues The last part gives some paradigmatic cases of religious emotions like emptiness and oceanic feeling In the study of what constitutes a human being neither religion nor emotion can be neglected The reader is invited to reflect on their interaction

Critical Essays on Edward Schillebeeckx's Theology Cornelius C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian

doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx s thoroughly historical and truly immanent theology God is man s terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today s people understand their existence in a new relevant and meaningful way
