regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays
makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from
poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume
implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for
investigation in the humanities In the volume s inaugural essay Annie Proulx discusses landscapes in American fiction
comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region
that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia
and Canada Whether considering a writer s connection to region or the idea of place in exploring what is meant by
regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are
framed within the fundamental premise of the humanities the search to understand what it means to be human
