Lost Fields:

Structure of Typical American Oil Fields American Association of Petroleum Geologists, 1929 Geology and Technology of the California Oil Fields Ralph Arnold, Valentín R. Garfias, 1914 **ePro** Brian Tiplady, 2016-05-13 Patient self reported data has become increasingly important in today's clinical trials. Trials in some disease indications rely upon patient recorded diary data as the primary endpoint to demonstrate drug efficacy including for example indications such as insomnia, migraine and pain. In addition, improvements in quality of life measured using patient questionnaires can now be included as claims on drug labelling. Traditionally, these data have been collected using paper questionnaires and diaries issued to subjects. Regulators and the industry have become increasingly aware of the limitations of recording patient reported outcomes data on paper, including data quality and integrity issues. As a result, there is a growing interest in collection of patient reported outcomes data using electronic means. ePRO Solutions include handheld PDAs, Interactive Voice Response (IVR) systems and other site based hardware such as touchscreen PCs. Recently, there has been much open debate with the regulators around the use of ePRO in clinical drug submissions. US and European agencies have approved new drugs that have included ePRO data in the submission dossier, but there are many questions around the adoption of the technology that concern the community. These include: How should instruments developed on paper be adapted for electronic use and what degree of validation should be done between paper and electronic forms? How can researchers ensure they are complying with regulatory requirements including the PRO guidance published by FDA in 2009 when using ePRO solutions? Can fewer patients be exposed in a clinical trial as a result of improved data quality obtained using electronic diaries? What type of solution should be used for certain patient populations and protocols and how can ePRO solutions be designed optimally to increase patient acceptability and compliance? Bill Byrom and Brian Tiplady's ePro addresses all these issues, reviews the new FDA guidance and provides a very contemporary view on this important subject. *Writing Apache Modules with Perl and C* Lincoln Stein, Doug MacEachern, 1999. Apache is the most popular web server on the Internet because it is free, reliable and extensible. The availability of the source code and the modular design of Apache makes it possible to extend web server functionality through the Apache API. For the most part, however, the Apache API has only been available to C programmers and requires rebuilding the Apache server from source. mod_perl, the popular Apache module used primarily for enhanced CGI performance, changed all that by making the Apache API available to Perl programmers. With mod_perl, it becomes simple to develop Apache modules with Perl and install them without having to rebuild the web server. *Writing Apache Modules with Perl and C* shows how to extend web server capabilities regardless of whether the programming language is Perl or C. The book explains the design of Apache mod_perl and the Apache API. It then demonstrates how to use them to perform tasks like the following: Rewriting CGI scripts as Apache modules to vastly improve performance. Server side filtering of HTML documents to embed special markup or code, much like SSI. Enhancing server log functionality. Converting file formats on the

fly Implementing dynamic navigation bars Incorporating database access into CGI scripts Customizing access control and authorization to block robots or to use an external database for passwords The authors are Lincoln Stein and Doug MacEachern Lincoln is the successful author of *How to Set Up and Maintain a World Wide web Site* and the developer of the widely used Perl CGI pm module Doug is a consultant and the creator of the innovative mod_perl Apache module *Mining and Engineering World*, 1907

 expression of a poetry that was lost This new edition features a foreword by Mark Z Danielewski whose bestselling novel
 House of Leaves drew inspiration from Bachelard s writings and an introduction by internationally renowned philosopher

 1898-1962 Judy Cornes,2006-10-03 A 1906 film called The Dream of a Rarebit Fiend shows a man drinking and eating
 voraciously at a restaurant then going home to bed In the surreal scenes that follow furniture disappears tiny devils poke the
 man s head with pitchforks and his bed hurls itself out the window and across the city But it wasn t commentary on drinking
 rather it was a showcase of early special effects double exposure photography panning shots and montage Turn of the
 century films typically treated drinking as a subject for comedy and ridicule and the comic possibilities translated well into
 silent movies As talkies developed and the film industry matured alcohol s portrayal was reflected in the times prohibition the
 Great Depression the war years and as social commentary Here is a study of 64 years of alcohol as portrayed in film The
 author begins with the appearance in 1898 of what is probably the first commercial a 30 second film of men in kilts dancing
 and the words Scotch Whiskey appearing in the background The final film is 1962 s Days of Wine and Roses which addresses
 alcoholism The author includes a film from each decade those with artistic or historical value those that represent the
 comedy drama and musical genres and well known pictures such as The Lost Weekend and A Star Is Born The first three
 chapters cover 1903 to 1939 The remaining chapters follow not a timeline but the growing complexity of the movies A
 recurring motif is the use of the term white logic a phrase used by writer Jack London in his 1913 memoir John Barleycorn It
 refers to disillusionment with everyday life brought on by and exacerbated by alcohol An annotated filmography lists the date
 source and other relevant information about movies in this study **Country Women Cope with Hard Times** Melissa A.
 Walker,2012-10-15 Rare glimpses into the hardscrabble lives of rural Southern women and a model for oral history practice
 It was hard times French Carpenter Clark recalls a sentiment unanimously echoed by the sixteen other women who talk
 about their lives in Country Women Cope with Hard Times Born between 1890 and 1940 in eastern Tennessee and western
 South Carolina these women grew up on farms in labor camps and in remote towns during an era when the region s
 agricultural system changed dramatically As daughters and wives they milked cows raised livestock planted and harvested
 crops worked in textile mills sold butter and eggs preserved food made cloth sewed clothes and practiced remarkable

resourcefulness Their recollections paint a vivid picture of rural life in the first half of the twentieth century for a class of women underrepresented in historical accounts Through her edited interviews with these women Melissa Walker provides firsthand descriptions of the influence of modernization on ordinary people struggling through the agricultural depression of the 1920s and 1930s and its aftermath Their oral histories make plain the challenges such women faced and the self sacrificing ways they found to confront hardship While the women detail the difficulties of their existence the drought years early freezes low crop prices and tenant farming they also recall the good times and the neighborly assistance of well developed mutual aid networks of which women were the primary participants **Under The Blade** Thomas

Lyson,2018-05-04 Under the Blade The Conversion of Agricultural Landscapes examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations Under the Blade makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1 4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions among law economics landscape characteristics population growth social and political forces ethics and aesthetics Under the Blade The Conversion of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain *Fires in the Dark* Kay Redfield Jamison,2024-05-14 The
