Luxury And Public Happiness In The Italian Enlightenment:

Luxury and Public Happiness Till Wahnbaeck, 2004 This work charts the development of political economy in 18th century Italy arguing that the focus on economic thought is characteristic of the Italian Enlightenment at large Through an analysis of the debate about luxury it traces the shaping of a new language of political economy **Suffering and Happiness in England 1550-1850: Narratives and Representations** Michael J. Braddick, Joanna Innes, 2017-07-26 Suffering and Happiness in England 1550 1850 pays tribute to one of the leading historians working on early modern England Paul Slack and his work as a historian and enters into discussion with the rapidly growing body of work on the history of emotions The themes of suffering and happiness run through Paul Slack's publications the first being more prominent in his early work on plague and poverty the second in his more recent work on conceptual frameworks for social thought and action Though he has not himself engaged directly with the history of emotions assembling essays on these themes provides an opportunity to do that The chapters explore in turn shifting discourses of happiness and suffering over time the deployment of these discourses for particular purposes at specific moments and their relationship to subjective experience In their introduction the editors note the very diverse approaches that can be taken to the topic they suggest that it is best treated not as a discrete field of enquiry but as terrain in which many paths may fruitfully cross The history of emotions has much to offer as a site of encounter between historians with diverse knowledge interests and skills *Luxury and Gender in European Towns, 1700-1914* Deborah Simonton, Marjo Kaartinen, Anne Montenach, 2014-09-04 This book conceives the role of the modern town as a crucial place for material and cultural circulations of luxury It concentrates on a critical period of historical change the long eighteenth and nineteenth centuries that was marked by the passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional aristocratic luxury to a new bourgeois and even democratic form of luxury This volume recognizes the notion that luxury operated as a mechanism of social separation but also that all classes aspired to engage in consumption at some level thus extending the idea of what constituted luxury and blurring the boundaries of class and status often in unsettling ways It moves beyond the moral aspects of luxury and the luxury debates to analyze how the production distribution purchase or display of luxury goods could participate in the creation of autonomous selves and thus challenge gender roles *The Enlightenment* Dorinda Outram, 2019-06-13 An engaging and accessible overview of the Enlightenment as a global phenomenon with updated material and additional online resources [Global Commerce in the Age of Enlightenment](#) J. Bohorquez, 2022-12-30 Combining contextual institutional and global perspectives this book evaluates the impact of international trade on eighteenth century economic thought It meticulously delineates how economic ideas and institutions flowed between North and South Europe and across the Indian and Atlantic Oceans during the Age of Enlightenment *Global Commerce in the Age of Enlightenment* carefully explores contemporary debates about economic institutions which were a

crucial element in the race for controlling international trade Eighteenth century thinkers devoted much attention to the relative merits of existing institutions such as free ports grasped the dangers of economic dependence and appraised emerging conceptions of property rights The author draws on an impressive range of sources including pamphlets and travel accounts and work from lesser known figures such as Pierre Poivre and Ange Goudar This volume will be valuable reading for advanced students and researchers of the history of economic thought economic history political economy the history of ideas and global history Luxury in Global Perspective Karin Hofmeester, Bernd-Stefan Grewe, 2016-11-28 Global history is predicated on connections and exchange how connections between far flung people places and objects are forged through a variety of exchanges As world history has matured as a field its practitioners have found the movement of commodities between peoples places and time a fruitful vehicle for research and teaching Studies of bulk items like salt spices coffee and other globally traded commodities abound but few scholars have examined the role of luxury goods from a global perspective This anthology charts the many different contexts in which luxury objects have been used across the globe ranging from the social practices linked to these objects to their production exchange and consumption as well as how these practices varied over time and space and how different societies attributed diverse meanings to the same objects Using luxury goods as a conduit Luxury in Global Perspective enriches our understanding of global history *The Oxford Handbook of Luxury Business* Pierre-Yves Donzé, Véronique Pouillard, Joanne Roberts, 2022 This innovative volume brings together contributions from leading experts in the study of luxury to present the full range of perspectives on luxury business from a variety of social science approaches Topics include conceptual foundations and the evolution of the luxury industry the production of luxury goods luxury branding and marketing distributing luxury globalization and markets and issues of morality inequality and environmental sustainability *The Oxford Handbook of Luxury Business* is a necessary resource for all students and researchers of the field as well as for forward thinking industry professionals **The Books that Made the European Enlightenment** Gary Kates, 2022-08-11 In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large portion of the middling classes Kates also highlights how when and why some of these books were read in the European

colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume
