Michael Lewis and Carolyn Saarni

Lying And Deception In Everyday Life

Lewis/Saarni

Lying And Deception In Everyday Life:

Lying and Deception in Everyday Life Michael Lewis, Carolyn Saarni, 1993-02-05 I speak the truth not so much as I would but as much as I dare Montaigne All cruel people describe themselves as paragons of frankness Tennessee Williams Truth and deception like good and evil have long been viewed as diametrically opposed and unreconcilable Yet few people can honestly claim they never lie In fact deception is practiced habitually in day to day life from the polite compliment that doesn't accurately relay one's true feelings to self deception about one's own motivations What fuels the need for people to intricately construct lies and illusions about their own lives If deceptions are unconscious does it mean that we are not responsible for their consequences Why does self deception or the need for illusion make us feel uncomfortable Taking into account the sheer ubiquity and ordinariness of deception this interdisciplinary work moves away from the cut and dried notion of duplicity as evil and illuminates the ways in which deception can also be understood as a adaptive response to the demands of living with others The book articulates the boundaries between unethical and adaptive deception demonstrating how some lies serve socially approved goals while others provoke distrust and condemnation Throughout the volume focuses on the range of emotions from feelings of shame fear or envy to those of concern and compassion that motivate our desire to deceive ourselves and others Providing an interdisciplinary exploration of the widespread phenomenon of lying and deception this volume promotes a more fully integrated understanding of how people function in their everyday lives Case illustrations humor and wit concrete examples and even a mock television sitcom script bring the ideas to life for clinical practitioners behavioral scientists and philosophers and for students in these realms *Lying and Deception in Everyday Life*

Lewis/Saarni, 1993-06-23 Taking into account the sheer ubiquity and ordinariness of deception this interdisciplinary work moves away from the cut and dried notion of duplicity as evil and illuminates the ways in which deception can also be understood as a adaptive response to the demands of living with others The book articulates the boundaries between unethical and adaptive deception demonstrating how some lies serve socially approved goals while others provoke distrust and condemnation Throughout the volume focuses on the range of emotions from feelings of shame fear or envy to those of concern and compassion that motivate our desire to deceive ourselves and others *The Rise of Consciousness and the Development of Emotional Life* Michael Lewis, 2013-10-16 Synthesizing decades of influential research and theory Michael Lewis demonstrates the centrality of consciousness for emotional development At first infants competencies constitute innate reactions to particular physical events in the child's world These action patterns are not learned but are readily influenced by temperament and social interactions With the rise of consciousness these early competencies become reflected feelings giving rise to the self conscious emotions of empathy envy and embarrassment and later shame guilt and pride Focusing on typically developing children Lewis also explores problems of atypical emotional development Winner m William James Book Award Society for General Psychology APA Division 1 Adman's Dilemma Paul Rutherford, 2018-01-01 The Adman's

Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists, and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post WW2 era, the later rebranding of the adman as artist, until the apparent demise of the figure symbolized by the triumph of that consummate huckster, Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources including memoirs, novels, movies, TV shows, websites, and museum exhibits to suggest how the adman embodied some of the strange realities of modernity.

[Encyclopedia of Deception](#)
Timothy R. Levine, 2014-02-20

The *Encyclopedia of Deception* examines lying from multiple perspectives drawn from the disciplines of social psychology, sociology, history, business, political science, cultural anthropology, moral philosophy, theology, law, family studies, evolutionary biology, philosophy, and more. From the little white lie to lying on a resume to the grandiose lies of presidents, this two-volume reference explores the phenomenon of lying in a multidisciplinary context to elucidate this common aspect of our daily lives. Not only a cultural phenomenon, historically, lying is a frequent occurrence in our everyday lives. Research shows that we are likely to lie or intentionally deceive others several times a day or in one out of every four conversations that lasts more than 10 minutes.

Key Features More than 360 authored by key figures in the field are organized A to Z in two volumes which are available in both print and electronic formats. Entries are written in a clear and accessible style that invites readers to explore and reflect on the use of lying and self-deception. Each article concludes with cross-references to related entries and further readings. This academic, multi-author reference work will serve as a general, non-technical resource for students and researchers within social and behavioral science programs who seek to better understand the historical role of lying and how it is employed in modern society.

[De Gruyter Handbook of Organizational Conflict Management](#)
LaVena Wilkin, Yashwant Pathak, 2022-09-06

The *De Gruyter Handbook of Organizational Conflict Management* offers insightful contributions covering a myriad of conflict management topics ranging from fundamental issues such as emotional intelligence and cultural differences to cutting-edge themes such as political conflicts and mindfulness training. Renowned conflict management scholars and leading practitioners have contributed chapters to this handbook based on their research and their practical experience in the field of conflict management. Many of the authors have influenced the topic of conflict management as it has become both a field of academic study in universities and a necessary leadership skill. The handbook is organized in four sections. The first section covers interpersonal conflict management and focuses on perceptions, conflict styles, emotional intelligence, psychological safety, and change. The second

section includes ethnic and cultural issues in organizational conflict management such as microaggressions ethnicity and religion and political conflicts The third section offers methods for managing organizational conflicts including mediation negotiation ombudspersons and conflict coaching This section also offers guidance on developing an organizational conflict management system and discusses HR s role in managing conflicts The fourth section introduces chapters on special topics in conflict management such as workplace bullying gender issues birth order personality human connections and forgiveness This handbook is an essential reference for scholars and practitioners It offers organizational leaders insights into the causes and solutions to organizational conflict management In addition it is an excellent textbook for undergraduate and graduate courses in organizational conflict management

[The SAGE Handbook of Nonverbal Communication](#) Valerie Manusov,Miles L. Patterson,2006-08-10 Publisher Description

Deceit: The Lie of the Law Peter Macdonald Eggers,2013-09-11 Deceit The Lie of the Law will provide a complete and detailed account of the law of deceit as developed over the past two centuries This new book by Peter MacDonald Eggers examines the commercial contractual and civil relationships in which claims in deceit have been made

Hostile Intent and Counter-Terrorism Glyn Lawson,Alex Stedmon,2017-09-18 This volume presents world leading ideas and research that explores some of the most prominent topics relevant to detecting terrorism The book is divided into six key themes conceptualising terrorism deception and decision making social and cultural factors in terrorism modelling hostile intent strategies for counter terrorism and future directions Twenty two chapters cover the spectrum of detecting terrorist activities hostile intent crowded public spaces and suspicious behaviour The work draws from high impact research findings and presents case studies to help communicate concepts Specific areas of interest include methodological issues in counter terrorism counter terrorism policy and its impact on end users novel research methods and innovative technologies in counter terrorism A variety of disciplines are represented by this work including ergonomics human factors psychology criminology cognitive science sociology political theory art design engineering and computer science This book not only expands the knowledge base of the subject area and is therefore of prime relevance to researchers investigating counter terrorism but provides a valuable resource to security stakeholders at policy and practitioner levels
