Lying About America:

The 10 Big Lies About America Michael Medved, 2008-11-18 It ain't so much the things we don't know that get us into trouble nineteenth century humorist Josh Billings remarked It's the things we know that just ain't so In this bold and brilliantly argued book acclaimed author and talk radio host Michael Medved zeroes in on ten of the biggest fallacies that millions of Americans believe about our country in spite of incontrovertible facts to the contrary In **The 10 Big Lies About America** Medved pinpoints the most pernicious pieces of America bashing disinformation that pollute current debates about the economy race religion in politics the Iraq war and other contentious issues The myths that Medved deftly debunks include Myth The United States is uniquely guilty for the crime of slavery and based its wealth on stolen African labor Fact The colonies that became the United States accounted for at most 3 percent of the abominable international slave trade the persistence of slavery in America slowed economic progress and the U S deserves unique credit for ending slavery Myth The alarming rise of big business hurts the United States and oppresses its people Fact Corporations played an indispensable role in building America and corporate growth has brought progress that benefits all with cheaper goods and better jobs Myth The Founders intended a secular not Christian nation Fact Even after ratifying the Constitution fully half the state governments endorsed specific Christian denominations And just a day after approving the First Amendment forbidding the establishment of religion Congress called for a national day of public thanksgiving and prayer to acknowledge the many signal favors of Almighty God Myth A war on the middle class means less comfort and opportunity for the average American Fact Familiar campaign rhetoric about the victimized middle class ignores the overwhelming statistical evidence that the standard of living keeps rising for every segment of the population as well as the real life experience of tens of millions of middle class Americans Each of the ten lies widely believed among elites and taught as truth in universities and public schools is a grotesque propagandistic distortion of the historical record For everyone who is tired of hearing America denigrated by people who don't know what they're talking about **The 10 Big Lies About America** supplies the ammunition necessary to fire back the next time somebody tries to recycle these baseless beliefs Medved's witty well documented rebuttal is a refreshing reminder that as Americans we should feel blessed not burdened by our heritage

America's Five Most Recent Fake Presidents and Why They Love the Lie Dowling G. Campbell PH.D., 2023-05-02 Freedom and democracy have been competing with tyranny and greed since mankind arrived During both World Wars America led in the sacrifice of our soldiers and resources Ever since American freedom has been seriously deteriorating My book **America's Most Recent Five Fake Presidents and Why They Love the Lie** is an attempt to help restore old fashion intelligence graciousness along with freedom and democracy These five fake presidents Richard Nixon Ronald Reagan George H W Bush George W Bush and Donald Trump have all deliberately damaged freedom intelligence and liberty almost beyond repair The first four either started or exacerbated wars and are responsible for the untold deaths of American troops among others In

addition each created a trove of lies that conservatives have been hiding for years The fifth Donald Trump has built a web of lies that has captured and killed the truth of freedom for a frighteningly large number of Americans including a number of conservative politicians In contrast the intervening Democratic presidents have been able to stop the wars started by these Republican presidents and in many cases even restored some much needed financial assistance to those who need it most One of the numerous illustrations is the fact that Bill Clinton in addition to bringing the Bosnia War to an end balanced the budget four times in eight years and left millions of surplus dollars which Bush 2 squandered away in his first six months with Republican praise

Two of the most respected voices in education and a team of young education scholars identify 50 myths and lies that threaten America's public schools With hard hitting information and a touch of comic relief Berliner Glass and their Associates separate fact from fiction in this comprehensive look at modern education reform They explain how the mythical failure of public education has been created and perpetuated in large part by political and economic interests that stand to gain from its destruction They also expose a rapidly expanding variety of organizations and media that intentionally misrepresent facts Many of these organizations also suggest that their goal is unbiased service in the public interest when in fact they represent narrow political and financial interests Where appropriate the authors name the promoters of these deceptions and point out how they are served by encouraging false beliefs This provocative book features short essays on important topics to provide every elected representative school administrator school board member teacher parent and concerned citizen with much food for thought as well as reliable knowledge from authoritative sources Berliner and Glass are long time critics of wrong headed education reforms 50 Myths and Lies continues their record of evidence based truth telling Joined by 19 young scholars in identifying 50 of the worst ideas for changing our nation's schools they are able to sort through the cacophony of today's all too often ill informed debate Anyone involved in making decisions about today's schools should read this book Linda Darling Hammond Charles E Ducommun Professor of Education Stanford University This book is true grit It's the gritty reality of hard data It's the irritating grit that makes you shift in your seat And it's the grit that sometimes makes you want to weep Well argued well written whether you agree or disagree with this book if you care about the future of public education you mustn't ignore it Andy Hargreaves professor Thomas More Brennan Chair in Education Lynch School of Education Boston College 50 Myths and Lies is a powerful defense of public education and a discerning refutation of the reckless misimpressions propagated by a juggernaut of private sector forces and right wing intellectuals who would gladly rip apart the legacy of democratic schooling in America It is a timely and hard hitting book of scholarly but passionate polemic The teachers of our children will be grateful Jonathan Kozol educator author of Fire in the Ashes What do you get when two world class scholars and a team of talented analysts take a hard look at 50 widely held yet unsound beliefs about U S public schools Well in this instance you get a flat out masterpiece that by persuasively blending argument and
