Lyrical and Ethical Subjects, 2005-01-01 **Lyrical and Ethical Subjects** Dennis J. Schmidt, 2005-08-25 A wide ranging attempt to develop a theory of ethical life from a hermeneutic understanding of language Lyrical and Ethical Subjects Dennis J. Schmidt, 2005-08-25 A wide ranging attempt to develop a theory of ethical life from a hermeneutic understanding of language **Improvisation in Music and Philosophical Hermeneutics** Sam McAuliffe, 2023-02-23 In the first book to examine the overlooked relationship between musical improvisation and philosophical hermeneutics Sam McAuliffe asks what exactly is improvisation And how does it relate to our being in the world Improvisation in Music and Philosophical Hermeneutics answers these questions by investigating the underlying structure of improvisation McAuliffe argues that improvising is best understood as attending and responding to the situation in which one find itself and as such is essential to how we engage with the world Working within the hermeneutic philosophical tradition drawing primarily on the work of Martin Heidegger Hans Georg Gadamer and Jeff Malpas this book provides a rich and detailed account of the ways in which we are all already experienced improvisers Given the dominance of music in discussions of improvisation Part I of this book uses improvised musical performance as a case study to uncover the ontological structure of improvisation a structure that McAuliffe demonstrates is identical to the structure of hermeneutic engagement Exploring this relationship between improvisation and hermeneutics Part II offers a new reading of Gadamer s philosophical hermeneutics examining the way in which Gadamer s accounts of truth and understanding language and ethics each possess an essentially improvisational character Working between philosophy and music theory Improvisation in Music and Philosophical Hermeneutics unveils the hermeneutic character of musical performance the musicality of hermeneutic engagement and the universality of improvisation Postmodernism and the Ethical Subject Barbara Gabriel, Suzan Ilcan, 2004 The ethical claims discussed mobilize new relations between ourselves and others as well as new cultural practices including new forms and genres In a historical moment when the more than century old shock of the modern has given way to global and trans national shifts and cultural displacements what new ethical demands are created Writing across the disciplines of anthropology literature museology film and sociology contributors to this groundbreaking volume confront a world fraught with new crises and instabilities The ethical claims they discuss mobilize new relations between ourselves and others as well as new cultural practices including new forms and genres Postmodernism and the Ethical Subject points us to new ways of thinking that raise the ethical stakes of our historical moment *The Routledge Companion to Hermeneutics* Jeff Malpas, Hans-Helmuth Gander, 2014-11-20 Hermeneutics is a major theoretical and practical form of intellectual enquiry central not only to philosophy but many other disciplines in the humanities and social sciences With phenomenology and existentialism it is also one of the twentieth century s most important philosophical movements and includes major thinkers such as Heidegger Gadamer and Ricoeur The Routledge Companion to Hermeneutics is an outstanding guide and reference source to the key

Between Word and Image Dennis J. Schmidt, 2018-11-01 A groundbreaking examination of word and image through the lenses of modern art and Continental philosophy Probing and lucid Stephen H Watson University of Notre Dame Engagement with the image has played a decisive role in the formulation of the very idea of philosophy since Plato

Identifying pivotal moments in the history of philosophy Dennis J Schmidt develops the question of philosophy's regard of the image by considering painting where the image most clearly calls attention to itself as an image Focusing on the philosophies of Martin Heidegger and Hans Georg Gadamer and the art of Paul Klee Schmidt pursues larger issues in the relationship between word image and truth As he investigates alternative ways of thinking about truth through word and image Schmidt shows how the form of art can indeed possess the capacity to change its viewers

Hermeneutical Heidegger Michael Bowler, Ingo Farin, 2016-06-15 Hermeneutical Heidegger critically examines and confronts Heidegger's hermeneutical approach to philosophy and the history of philosophy Heidegger's work both early and late has had a profound impact on hermeneutics and hermeneutical philosophy The essays in this volume are striking in the way they exhibit the variety of perspectives on the development and role of hermeneutics in Heidegger's work allowing a multiplicity of views on the nature of hermeneutics and hermeneutical philosophy to emerge As Heidegger argues the rigor and strength of philosophy do not consist in the development of a univocal and universal method but in philosophy's ability to embrace not just tolerate the questioning of its basic concepts The essays in Hermeneutical Heidegger are exemplars of this kind of rigor and strength

Phenomenology Leonard Lawlor, 2014-09-03 After Husserl the study of phenomenology took off in different directions The ambiguity inherent in phenomenology between conscious experience and structural conditions lent itself to a range of interpretations Many existentialists developed phenomenology as conscious experience to analyse ethics and religion Other phenomenologists developed notions of structural conditions to explore questions of science mathematics and conceptualization Phenomenology Responses and Developments covers all the major innovators in phenomenology notably Sartre Merleau Ponty and the later Heidegger and the major schools and issues The volume also shows how phenomenological thinking encounters a limit a limit most apparent in the aesthetical and hermeneutical development of phenomenology The volume closes with an examination of the furthering of the division between analytic and continental philosophy
