Lyrical Protest Black Musics Struggle Against Discrimination

Bethami A. Dobkin

Lyrical Protest Black Musics Struggle Against Discrimination:

Lyrical Protest Mary Ellison, 1989-11-03 The book is organized around topical issues and explores such themes as black power revolution socialism black feminism and world peace One of the few books on music and social change to deal specifically with black music this volume begins by tracing all black music to its African roots The Funk Movement Reiland Rabaka, 2024-10-23 Rabaka explores funk as a distinct multiform of music aesthetics politics social vision and cultural rebellion that has been remixed and continues to influence contemporary Black popular music and Black popular culture especially rap music and the Hip Hop Movement The Funk Movement was a sub movement within the larger Black Power Movement and its artistic arm the Black Arts Movement Moreover the Funk Movement was also a sub movement within the Black Women s Liberation Movement between the late 1960s and late 1970s where women s funk especially Chaka Khan and Betty Davis s funk was understood to be a form of Black musical feminism that was as integral to the movement as the Black political feminism of Angela Davis or the Combahee River Collective and the Black literary feminism of Toni Morrison or Alice Walker This book also demonstrates that more than any other post war Black popular music genre the funk music of the 1960s and 1970s laid the foundation for the mercurial rise of rap music and the Hip Hop Movement in the 1980s and 1990s This book is primarily aimed at scholars and students working in popular music studies popular culture studies American studies African American studies cultural studies ethnic studies critical race studies women s studies gender studies and sexuality studies **The Routledge History of Social Protest in Popular Music** Jonathan C. Friedman, 2013-07-04 The major objective of this collection of 28 essays is to analyze the trends musical formats and rhetorical devices used in popular music to illuminate the human condition By comparing and contrasting musical offerings in a number of countries and in different contexts from the 19th century until today The Routledge History of Social Protest in Popular Music aims to be a probing introduction to the history of social protest music ideal for popular music studies and history and sociology of music courses Tales of Terror Bethami A. Dobkin, 1992-04-20 Conventional research suggests that news coverage of terrorism is a tool of the terrorist to gain public support and recognition Based on an analysis of more than 200 evening newscasts aired during the first six years of the Reagan administration Tales of Terror offers a detailed account of the ways in which news media escalate public panic about terrorism and encourage support for specific U S policy objectives rather than build sympathy for terrorists Bethami Dobkin explores similarities between news media and government portrayals of terrorism combining textual criticism with an interpretation of official U S policy statements and argues that government depictions and news presentations of terrorism reproduce an ideology that supports military strength and intervention Dobkin examines several specific features of news coverage the dramatic format of television news and the political interests that this format serves the narrative construction of enemies by television journalists and public officials and the political significance of the terrorist label the use and significance of testimony particularly that of people

affected by crisis the mutual exploitation of political crisis by both television news producers and public officials the function of journalism in shaping the conduct of public diplomacy and public perceptions of foreign conflict and the creation of consensus about the need for military responses to political violence This revealing study will be of particular interest to scholars of communications and political science

The Cambridge Companion to Pop and Rock Simon Frith, Will Straw, John Street, 2001-08-16 This Companion maps the world of pop and rock pinpointing the most significant moments in its history and presenting the key issues involved in understanding popular culture s most vital art form Expert writers chart the changing patterns in the production and consumption of popular music the emergence of a vast industry with a turnover of billions and the rise of global stars from Elvis to Public Enemy Nirvana to the Spice Girls They trace the way new technologies from the amplifier to the internet have changed the sounds and practices of pop and they analyse the way maverick entrepreneurs have given way to multimedia corporations In particular they focus on the controversial issues concerning race and ethnicity politics gender and globalisation Contains full profiles of a selection of figures from the pop and rock world

Civil Rights Music Reiland Rabaka, 2016-05-03 While there have been a number of studies that have explored African American movement culture and African American movement politics rarely has the mixture of black music and black politics or rather black music as an expression of black movement politics been explored across several genres of African American movement music and certainly not with a central focus on the major soundtracks of the Civil Rights Movement gospel freedom songs rhythm blues and rock roll Here the mixture of music and politics emerging out of the Civil Rights Movement is critically examined as an incredibly important site and source of spiritual rejuvenation social organization political education and cultural transformation not simply for the non violent civil rights soldiers of the 1950s and 1960s but for organic intellectual artist activists deeply committed to continuing the core ideals and ethos of the Civil Rights Movement in the twenty first century Civil Rights Music The Soundtracks of the Civil Rights Movement is primarily preoccupied with that liminal in between and often inexplicable place where black popular music and black popular movements meet and merge Black popular movements are more than merely social and political affairs Beyond social organization and political activism black popular movements provide much needed spaces for cultural development and artistic experimentation including the mixing of musical and other aesthetic traditions Movement music experimentation has historically led to musical innovation and musical innovation in turn has led to new music that has myriad meanings and messages some social some political some cultural some spiritual and indeed some sexual Just as black popular movements have a multiplicity of meanings this book argues that the music that emerges out of black popular movements has a multiplicity of meanings as well

Continuum Encyclopedia of Popular Music of the World , 2003-01-30 The Bloomsbury Encyclopedia of Popular Music Volume 1 provides an overview of media industry and technology and its relationship to popular music In 500 entries by 130 contributors from around the world the volume explores the topic in two

parts Part I Social and Cultural Dimensions covers the social phenomena of relevance to the practice of popular music and Part II The Industry covers all aspects of the popular music industry such as copyright instrumental manufacture management and marketing record corporations studios companies and labels Entries include bibliographies discographies and filmographies and an extensive index is provided This and all other volumes of the Encyclopedia are now available through an online version of the Encyclopedia https://www.bloomsburypopularmusic.com/encyclopedia/work/docid/BPM_reference_EPMOW A general search function for the whole Encyclopedia is also available on this site A subscription is required to access individual entries Please see <https://www.bloomsburypopularmusic.com/> for librarians

Religion vs. Television Jay Newman, 1996-08-20 The subject of competition between religion and television has if only indirectly received considerable attention particularly from religionists disturbed by the threat posed by television programming to traditional religious beliefs values and attitudes This detailed study considers the competing cultural forces of television and religion from a wider and more theoretical perspective Newman examines the major forms of competition and the various motives and strategies of the people and groups involved His philosophical approach allows us to see that the most important aspect of competition between television and religion is their rivalry as cultural forces In this rivalry religion continues to have a profound influence on the shaping of television just as it has always had on all newly developing forms of culture

Popular Music and Human Rights: British and American music Ian Peddie, 2011 Popular music has long understood that human rights if attainable at all involve a struggle without end The right to imagine an individual will the right to some form of self determination and the right to self legislation have long been at the forefront of popular music's approach to human rights At a time of such uncertainty and confusion with human rights currently being violated all over the world a new and sustained examination of cultural responses to such issues is warranted In this respect music which is always produced in a social context is an extremely useful medium in its immediacy music has a potency of expression whose reach is long and wide Contributors to this significant volume cover artists and topics such as Billy Bragg punk Fun da Mental Willie King and the Liberators Hedwig and the Angry Inch the Anti Death penalty movement benefit concerts benefit albums Gil Scott Heron Bruce Springsteen Wounded Knee and Native American political resistance Tori Amos Joni Mitchell as well as human rights in relation to feminism A second volume covers World Music

Continuum Encyclopedia of Popular Music of the World, Volume 1 John Shepherd, David Horn, Dave Laing, Paul Oliver, Peter Wicke, 2003-03-06 The Bloomsbury Encyclopedia of Popular Music Volume 1 provides an overview of media industry and technology and its relationship to popular music In 500 entries by 130 contributors from around the world the volume explores the topic in two parts Part I Social and Cultural Dimensions covers the social phenomena of relevance to the practice of popular music and Part II The Industry covers all aspects of the popular music industry such as copyright instrumental manufacture management and marketing record corporations studios companies and labels Entries include bibliographies discographies and filmographies and an extensive
