Macchi C202 In Action:

Macchi C.202/C.205V Units in Combat Marco Mattioli, 2022-05-26 A study of the Macchi Folgore and Veltro the most successful Italian fighters in World War II With specially commissioned profiles the book examines how these fighters were conceived their performance and the fascinating stories of their pilots Italian fighters such as the Fiat G 50 and Macchi C 200 had always struggled with their straight line speed and restricted armament when engaging their Allied counterparts To solve these problems Macchi initially designed the C 202 Folgore using German engines which contributed to create a faster aircraft with a superior rate of climb and reachable altitude Folgore s success in various North African engagements then paved the way for the development of Macchi s most successful fighter the C 205V Veltro which managed to combine increased speed and increased power Packed with specially commissioned artwork and original photos and written by Italian military aviation specialist Marco Mattioli this fascinating book explores how the premier Italian fighter of the war came to life and the historical circumstances that prevented it from becoming one of the most dreaded aircraft in the Mediterranean

Macchi C.202 Folgore Davide F. Jabes, Alessandro Romanello, Niccolò Tognarini, 2021-12-02 The Macchi C 202 was probably the most successful Italian fighter during the Second World War It is generally agreed that the performance of the Macchi was superior to both the Hawker Hurricane and the Curtiss P 40 Kittyhawk and on a par with the Supermarine Spitfire Mk V It is not by chance that virtually all the Italian top scoring aces flew this plane either with the Regia Aeronautica or the Aeronautica Nazionale Repubblicana At the same time the Mc 202 is the symbol of the dysfunctions in the Italian military industrial complex the lack of sound industrial planning resulting in orders from the Regia Aeronautica for an exaggerated number of different aircraft the lack of the development of adequate engines limiting aircraft performance and reducing capacity to house weapons with a proper punch the corruption of politics and the culpable connivance of the high military spheres The Mc 202 was therefore produced in limited numbers while there is consensus that air war especially in the African theatre would have been different had the aircraft been adopted before Macchi C.202 in Action Roberto Gentili, Luigi Gorena, 1980 *International Warbirds* John C. Fredriksen, 2001-08-01 In depth descriptions and photographs of the aircraft of 21 nations presented with a unique human dimension that goes behind the machines to the people involved Invaluable for specialists accessible to enthusiasts *International Warbirds An Illustrated Guide to World Military Aircraft 1914 2000* puts the most legendary fighter aircraft of the 20th century developed outside the United States on vivid display It offers 336 illustrated biographies of the most significant warplanes used in squadron service from World War I to the Balkan conflict including numerous models from Great Britain France Russia and Japan as well as notable machines from Israel Canada China India Brazil and other nations Entries span the history and scope of military aircraft from bombers and fighters to transports trainers reconnaissance craft sea planes and helicopters with each capsule history combining nuts and bolts technical data with the story of that model s evolution and use Together these portraits offer an exciting well researched
