Major Major Terry Major-Ball, 1994 *Our Times* A. N. Wilson, 2024-08-06 When Queen Elizabeth II was crowned in 1953 many proclaimed the start of a new Elizabethan Age Few had any inkling however of the stupendous changes that would occur over the next fifty years both in Britain and around the world In *Our Times* A N Wilson takes the reader on an exhilarating journey through postwar Britain With his acute eye not just for the broad social and cultural sweep but also for the telling detail he brilliantly distills half a century of unprecedented social and political change Here are the defining events and characters of the modern age from the Suez crisis to Vietnam from the Beatles to Princess Diana Here are the Angry Young Men the rise of pop culture and celebrity industrial unrest and the Winter of Discontent the Thatcher era and the eventual collapse of the Soviet Union This book propels the reader from postwar austerity to the end of the British Empire and the emergence of America as a superpower to the multicultural Britain of today With *Our Times* Wilson triumphantly concludes the acclaimed trilogy that opened with *The Victorians* and was followed by *After the Victorians* *Our Times* makes compelling reading for anyone interested in the forces that have shaped our world **A Century of Premiers** D. Europe Contested Harold James, 2019-10-29 Europe Contested analyses the failures and achievements of an astonishing era of economic advance and political chaos from the First World War up to the present day Beginning with the Great War the book goes on to examine connections between the self destruction of liberal democracy market economics and the international political and security framework in the interwar period It then considers the mass politics that surrounded the glorification of new style leaders Lenin Stalin Mussolini and Hitler before moving on to explore the ways in which the interwar legacy was superseded post 1945 James examines the deceptive appearance of stability brought by a new convergence in European politics that focused around the market and the principle of liberal democracy and demonstrates how the impact of globalization and openness to migration and to destabilizing financial capital flows has eroded traditional politics and ended the stable left right polarization at the core of the postwar order This new edition has been thoroughly updated throughout demonstrating also
