Making Men Moral Civil Liberties And Public Morality:

Making Men Moral Robert P. George, 1993 In Making men moral Robert P. George defends the traditional position on morals legislation against criticisms advanced by leading contemporary liberal theorists Back cover Making Men Moral Robert P. George, 1995 **Media Ethics** Patrick Lee Plaisance, 2013-11-13 Media Ethics Key Principles for Responsible Practice makes ethics accessible and applicable to media practice and explains key ethical principles and their application in print and broadcast journalism public relations advertising marketing and digital media Unlike application oriented casebooks this text sets forth the philosophical underpinnings of key principles and explains how each should guide responsible media behavior Author Patrick Lee Plaisance synthesizes classical and contemporary ethics in an accessible way to help students ask the right questions and develop their critical reasoning skills as both media consumers and media professionals of the future The Second Edition includes new examples and case studies expanded coverage of digital media and two new chapters that distinguish the three major frameworks of media ethics and explore the discipline across new media platforms including blogs new forms of digital journalism and social networking sites Assisted Suicide and Euthanasia Craig Paterson, 2017-09-29 As medical technology advances and severely injured or ill people can be kept alive and functioning long beyond what was previously medically possible the debate surrounding the ethics of end of life care and quality of life issues has grown more urgent In this lucid and vigorous new book Craig Paterson discusses assisted suicide and euthanasia from a fully fledged but non dogmatic secular natural law perspective He rehabilitates and revitalises the natural law approach to moral reasoning by developing a pluralistic account of just why we are required by practical rationality to respect and not violate key demands generated by the primary goods of persons especially human life Important issues that shape the moral quality of an action are explained and analysed intention foresight action omission action consequences killing letting die innocence non innocence and person non person Paterson defends the central normative proposition that it is always a serious moral wrong to intentionally kill an innocent human person whether self or another notwithstanding any further appeal to consequences or motive **Reclaiming the Center** Millard J. Erickson, Paul Kjos Helseth, Justin Taylor, 2004-11-09 Reclaiming the Center is a valuable contribution to the study of contemporary evangelicalism It is a guide for how evangelicals can move forward with wisdom and discernment without succumbing to the spirit of this age **Utilitarianism, Institutions, and Justice** James Wood Bailey, 1997 Far from recommending cruel acts utilitarianism understood this way actually runs congruent to our basic moral intuitions **Taking Rites Seriously** Francis Beckwith, 2015-11-18 This book is a critical look at how courts legal scholars and the academic culture mischaracterize and misunderstand religious beliefs The Realm of Criminal Law R A Duff, 2018-06-27 We are said to face a crisis of over criminalization our criminal law has become chaotic unprincipled and over expansive This book proposes a normative theory of criminal law and of criminalization that shows how criminal law could be ordered principled and restrained The theory is

based on an account of criminal law as a distinctive legal practice that functions to declare and define a set of public wrongs and to call to formal public account those who commit such wrongs an account of the role that such practice can play in a democratic republic of free and equal citizens and an account of the central features of such a political community and of the way in which it constitutes its public realm its civil order Criminal law plays an important but limited role in such a political community in protecting but also partly constituting its civil order On the basis of this account we can see how such a political community will decide what kinds of conduct should be criminalized not by applying one or more of the substantive master principles that theorists have offered but by considering which kinds of conduct fall within its public realm as distinct from the private realms that are not the polity's business and which kinds of wrong within that realm require this distinctive kind of response rather than one of the other kinds of available response The outcome of such a deliberative process will probably be a more limited and a more rational and principled criminal law

Ethics and the Quest for Wisdom Robert Kane, 2010-08-12 Modernity has challenged the ancient ideal of a universal quest for wisdom and today's world of conflicting cultures and values has raised further doubts regarding the possibility of objective ethical standards Robert Kane refocuses the debate on the philosophical quest for wisdom and argues that ethical principles about right action and the good life can be seen to emerge from that very quest itself This book contends that the search for wisdom involves a persistent striving to overcome narrowness of vision that comes from the inevitable limitations of finite points of view When applied to questions of value and the good life this striving has ethical implications about the way we should treat ourselves and others This study argues for the merits of this central thesis against alternative theories in contemporary normative ethics and discusses its practical applications for social ethics political philosophy law and moral education

Human Rights and Common Good

John Finnis, 2011-04-07 This central volume in the *Collected Essays* brings together John Finnis's wide ranging contribution to central issues in political philosophy The volume begins by examining the general theory of political community and social justice It includes the powerful and well known Maccabaeen Lecture on Bills of Rights a searching critique of Ronald Dworkin's moral political arguments and conclusions of the European Court of Human Rights approach to fundamental rights and of judicial review as a constitutional institution It is followed by an equally searching analysis of Kant's thought on the intersection of law right and ethics Other papers in the book's opening section include an early assessment of Rawls's *A Theory of Justice* a radical re-interpretation of Aquinas on limited government and the significance of the private/public distinction and a challenging paper on virtue and the constitution The volume then focuses on central problems in modern political communities including the achievement of justice in work and distribution the practice of punishment war and justice the public control of euthanasia and abortion and the nature of marriage and the common good There are careful and vigorous critiques of Nietzsche on morality Hart on punishment Dworkin on the enforcement of morality and on euthanasia Rawls on justice and law Thomson on the woman's right to choose Habermas on abortion Nussbaum and Koppelman on same

sex relations and Dummett and Weithman on open borders The volume s previously unpublished papers include a foundational consideration of labour unions a fresh statement of a new grounding for the morality of sex a surprising reading of C S Lewis s Abolition of Man on contraception and an introduction reviewing some of the remarkable changes in private and public morality over the past half century
