

The background of the slide is a painting of a city street scene. In the foreground, a person wearing a yellow hat and a yellow cloak is walking away from the viewer. The street is paved with cobblestones and has a dark, possibly wet, surface. In the background, there are several buildings with red roofs and white walls. The sky is a pale yellow color.

Making Of Modern Europe 1648 1780:

The Making of Modern Europe, 1648-1780 Geoffrey Treasure, 2003-12-16 In 1640 the term Europe was without real political significance In the following years the idea of Europe came to mean much more a period documented in this fascinating book **The Making of Modern Europe, 1648-1780** Treasure, Geoffrey Russell Richards Treasure, 2003

The Making of Modern Europe, 1648-1780 Geoffrey Treasure, 2015-12 This reissue of a classic textbook has been revised and updated with a new introduction by the author Geoffrey Treasure provides a thoroughly comprehensive account of the European experience at a time when so much of what is today identified as modern began to take shape Discussing key issues of the period The Making of Modern Europe 1647 1980 examines the evolution of the developing society detailed studies of the people their environment attitudes and beliefs economic aspects the growth of the states politics war and diplomacy religion intellectualism and science This work provides an excellent grounding for the study of seventeenth and eighteenth century European history *The Great Exchange: Making the News in Early Modern Europe* Joad Raymond Wren, 2025-07-10 An epic history of the birth of news in Europe News moves It is a battle a scandal a disaster It is a letter a newspaper a proclamation News is a material thing but also something between us something we take into us and feel This book tells the story of news from the sunset of the Middle Ages to the rise of mass media in modern times It begins in Renaissance Italy with the envoys and merchants who drew in and disseminated news across Europe establishing its channels and conventions Following the beat of news around the continent it uncovers a vast invisible network traversing the boundaries of geography and politics religion and language Joad Raymond Wren allows the reader to see news of the battle of Lepanto the siege of Vienna spreading around this network in real time Dispelling the tenacious myth that news was until the printing press scarce and unreliable and until the telegraph slow and provincial he opens up windows onto a world buzzing with news from faraway News brought the distant closer and provided the means for Europe to know itself The continent was for a time held together by that most essential of human acts communication **The making of modern Europe 1648-1780** Geoffrey Treasure, 1984 **The Oxford Handbook of Early Modern European History, 1350-1750** Hamish M. Scott, 2015 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not

simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power

Making Space Public in Early Modern Europe Angela Vanhaelen, Joseph P. Ward, 2013-04-26 Broadening the conversation begun in *Making Publics in Early Modern Europe* 2009 this book examines how the spatial dynamics of public making changed the shape of early modern society The publics visited in this volume are voluntary groupings of diverse individuals that could coalesce through the performative uptake of shared cultural forms and practices The contributors argue that such forms of association were social productions of space as well as collective identities Chapters explore a range of cultural activities such as theatre performances travel and migration practices of persuasion the embodied experiences of lived space and the central importance of media and material things in the creation of publics and the production of spaces They assess a multiplicity of publics that produced and occupied a multiplicity of social spaces where collective identity and voice could be created discovered asserted and exercised Cultural producers and consumers thus challenged dominant ideas about just who could enter the public arena greatly expanding both the real and imaginary spaces of public life to include hitherto excluded groups of private people The consequences of this historical reconfiguration of public space remain relevant especially for contemporary efforts to meaningfully include the views of ordinary people in public life

Coping with Life during the Thirty Years' War (1618-1648) Sigrun Haude, 2021-08-30 At its core *Coping with Life during the Thirty Years War 1618 1648* explores how people tried to survive the Thirty Years War on what resources they drew and how they attempted to make sense of it A rich tapestry of stories brings to light contemporaries trauma as well as women and men s unrelenting initiatives to stem the war s negative consequences Through these close ups Sigrun Haude shows that experiences during the Thirty Years War were much more diverse and often more perplexing than a straightforward story line of violence and destruction can capture Life during the Thirty Years War was not a homogenous vale of gloom and doom but a multifaceted story that was often heartbreaking yet at times also uplifting

War and the State in Early Modern Europe Jan Glete, 2002-09-11 The sixteenth and seventeenth centuries saw many ambitious European rulers develop permanent armies and navies Jan Glete examines this military change as a central part of the political social and economic transformation of early modern Europe

War and State Formation in Ancient China and Early Modern Europe Victoria Tin-bor Hui, 2005-07-04 The Eurocentric conventional wisdom holds that the West is unique in having a multi state system in international relations and liberal democracy in state society relations At the same time the Sinocentric perspective believes that China is destined to have authoritarian rule under a unified empire In fact China in the Spring and Autumn and Warring

States periods 656 221 BC was once a system of sovereign territorial states similar to Europe in the early modern period Both cases witnessed the prevalence of war formation of alliances development of the centralized bureaucracy emergence of citizenship rights and expansion of international trade This book first published in 2005 examines why China and Europe shared similar processes but experienced opposite outcomes This historical comparison of China and Europe challenges the presumption that Europe was destined to enjoy checks and balances while China was preordained to suffer under a coercive universal status **The Conquest of Nature: Water, Landscape, and the Making of Modern Germany** David

Blackbourn, 2007-08-17 Brilliantly conceived A tour de force in historical writing Ian Kershaw Majestic and lyrically written The Conquest of Nature traces the rise of Germany through the development of water and landscape David Blackbourn begins his morality tale in the mid 1700s with the epic story of Frederick the Great who attempted by importing the great scientific minds of the West and by harnessing the power of his army to transform the uninhabitable marshlands of his scattered kingdom into a modern state Chronicling the great engineering projects that reshaped the mighty Rhine the emergence of an ambitious German navy and the development of hydroelectric power to fuel Germany's convulsive industrial growth before World War I Blackbourn goes on to show how Nazi racial policies rested on German ideas of mastery of the natural world Filled with striking reproductions of paintings maps and photographs this grand work of modern history links culture politics and the environment in an exploration of the perils faced by nations that attempt to conquer nature Paths toward the Modern Fiscal State Wenkai He, 2013-03-01 Wenkai He shows why England and Japan facing crises in public finance developed the tools and institutions of a modern fiscal state while China facing similar circumstances did not He's explanation for China's failure at a critical moment illuminates one of the most important but least understood

transformations of the modern world **Peacemaking in Early Modern Europe** Derek Croxton, 1999 In 1648 after five years of negotiations France signed the Peace of Westphalia The treaties not only ended a long war with the Holy Roman Empire but also transferred large parts of Alsace and Lorraine to France This book is the first full length study of the French negotiating position who formulated it why and how it changed over time Europe Brendan Simms, 2013-04-04 Half a millennium of European warfare brilliantly retold by masterly historian Brendan Simms At the heart of Europe's history lies a puzzle In most of the world humankind has created enormous political frameworks whether ancient such as China or modern such as the United States Sprawling empires kingdoms or republics appear to be the norm By contrast Europe has remained stubbornly chaotic and fractured into often amazingly tiny pieces with each serious attempt to unify the continent by Charles V Napoleon and Hitler thwarted In this marvelously ambitious and exciting new book Brendan Simms tells the story of Europe's constantly shifting geopolitics and the peculiar circumstances that have made it both so impossible to dominate but also so dynamic and ferocious It is the story of a group of highly competitive and mutually suspicious dynasties but also of a continent uniquely prone to interference from semi detached elements such as Russia the Ottoman Empire Britain and just as

centrally to Simms argument the United States Europe The Struggle for Supremacy will become the standard work on this crucial subject and an extremely enjoyable one Reviews This is a brilliant and beautifully written history From the Holy Roman Empire to the Euro Brendan Simms shows that one of the constant preoccupations of Europeans has always been the geography the power and the needs of Germany Europe is a work of extraordinary scholarship delivered with the lightest of touches It will be essential absorbing reading for anyone trying to understand both the past and the present of one of the most productive and most dangerous continents on earth William Shawcross World history is German history and German history is world history This is the powerful case made by this gifted historian of Europe whose expansive erudition revives the proud tradition of the history of geopolitics and whose immanent moral sensibility reminds us that human choices made in Berlin and London today about the future of Europe might be decisive for the future of the world Timothy Snyder author of Bloodlands About the author Brendan Simms is Professor of the History of International Relations at the University of Cambridge His major books include Unfinest Hour Britain and the Destruction of Bosnia shortlisted for the Samuel Johnson Prize and Three Victories and a Defeat The Rise and Fall of the First British Empire

The Smugglers' World Jesse Cromwell, 2018-11-05 The Smugglers World examines a critical part of Atlantic trade for a neglected corner of the Spanish Empire Testimonies of smugglers buyers and royal officials found in Venezuelan prize court records reveal a colony enmeshed in covert commerce Forsaken by the Spanish fleet system Venezuelan colonists struggled to obtain European foods and goods They found a solution in exchanging cacao a coveted luxury for the necessities of life provided by contrabandists from the Dutch English and French Caribbean Jesse Cromwell paints a vivid picture of the lives of littoral peoples who normalized their subversions of imperial law Yet laws and borders began to matter when the Spanish state cracked down on illicit commerce in the 1720s as part of early Bourbon reforms Now successful merchants could become convict laborers just as easily as enslaved Africans could become free traders along the unruly coastlines of the Spanish Main Smuggling became more than an economic transaction or imperial worry persistent local need elevated the practice to a communal ethos and Venezuelans defended their commercial autonomy through passive measures and even violent political protests Negotiations between the Spanish state and its subjects over smuggling formed a key part of empire making and maintenance in the eighteenth century

Marian Apparitions, the Bible, and the Modern World Donal Anthony Foley, 2002 This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments the Reformation the French and Russian Revolutions the rise of Nazism These Marian apparitions and particularly Fatima are not historically unimportant events but rather follow a preordained plan they have a crucial role in helping us to see how the modern world with all its problems has developed Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible a crucial element in the theology and exegesis of the early Church Fathers By understanding these biblical types and their

symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised Here is a convincing demonstration that the future of the Church and the papacy is intimately bound up with a proper understanding of the role of Mary there will only be true peace in the world when her message is accepted and lived If you thought you really understood how the modern world developed and the role and meaning of Marian apparitions then this book will make you think again Donal Foley has written a book with an extraordinary message Aidan Nichols O P The Verdict of Battle James Q. Whitman, 2012-10-22 Slaughter in battle was once seen as a legitimate way to settle disputes When pitched battles ceased to exist the law of victory gave way to the rule of unbridled force Whitman explains why ritualized violence was more effective in ending carnage and why humanitarian laws that view war as evil have led to longer more barbaric conflicts
