Saxon, 1998 In this groundbreaking and lavishly illustrated volume edited by Dennis Reinhartz and Gerald D Saxon five leading scholars in history geography and cartography discuss the role Spanish explorers and mapmakers played in bringing knowledge of the New World to Europe The entradas of P nfilo de Narv ez and Alvar N nez Cabeza de Vaca 1527 37 Fray Marcos de Niza and Francisco V squez de Coronado 1539 42 and Hernando de Soto and Luis de Moscoso 1539 43 into the Greater Southwest of North America were crucial in the dissemination of information and images of the newly discovered lands The contributors investigate linkages between the early explorers experiences their influence on indigenous peoples and perceptions of the region as reflected in printed maps of the period This body of images which incorporated Indian information made a powerful impression on the still largely preliterate people of Europe reshaping their world Piri Reis Map of 1513 Gregory C. McIntosh, 2012-03-15 One of the most beautiful maps to survive the Great Age of Discoveries the 1513 world map drawn by Ottoman admiral Piri Reis is also one of the most mysterious Gregory McIntosh has uncovered new evidence in the map that shows it to be among the most important ever made This detailed study offers new commentary and explication of a major milestone in cartography Correcting earlier work of Paul Kahle and pointing out the traps that have caught subsequent scholars McIntosh disproves the dubious conclusion that the Reis map embodied Columbus s Third Voyage map of 1498 showing that it draws instead on the Second Voyage of 1493 1496 He also refutes the popular misinterpretation that Reis s depictions of Antarctica are evidence of either ancient civilizations or extraterrestrial visitation McIntosh brings together all that has been previously known about the map and also assembles for the first time the translations of all inscriptions on the map and analyzes all place names given for New World and Atlantic islands His work clarifies long standing mysteries and

opens up new ways of looking at the history of exploration *The Cosmographia of Sebastian Münster* Matthew McLean, 2016-03-23 Sebastian Münster's *Cosmographia* was an immensely influential book that attempted to describe the entire world across all of human history and analyse its constituent elements of geography history ethnography zoology and botany First published in 1544 it went through thirty five editions and was published in five languages making it one of the most important books of the Reformation period Beginning with a biographical study of Sebastian Münster his life and the range of his scholarly work this book then moves on to discuss the genre of cosmography The bulk of the book however deals with the *Cosmographia* itself offering a close reading of the 1550 Latin edition the last and definitive edition worked upon by Münster By analysing the contents of the *Cosmographia* it attempts to recreate how the world of the sixteenth century appeared to a scholar living in Basel and understand what he saw and heard Through this examination of Münster his publications and scholarly networks the conflicts and continuities between medieval scholarly traditions and the widening horizons of the sixteenth century are explored and revealed Of interest to scholars of humanist culture the Reformation and book history this ambitious work throws into relief previously overlooked aspects of the intellectual and religious culture of the time Mapping South American Promises: Potosí, Brazil, and European Visions Andréa Doré, 2025-09-25 Nomen est omen A name is a prophecy a destiny or even a promise Why was South America once referred to as Peru Peruana or America Peruana What role did the Potosí Mountain play in shaping these designations And how did these perceptions affect the lands of Brazil This book offers new insights into these questions exploring both the continuities and the shifts in European representations of South America It reveals how in the first two centuries of its history Brazil compensated for the scarcity of gold and silver with brazilwood sugar the labor and souls of its indigenous peoples the toil of enslaved Africans and its geography The Cambridge Companion to Literature and the Environment Louise Westling, 2014 This authoritative collection of rigorous but accessible essays investigates the exciting new interdisciplinary field of environmental literary criticism *The Self-Made Map* Tom Conley, 1997 **Critical Geographies** Salvatore Engel-Di Mauro, 2008 *Maps and Politics* Jeremy Black, 2000-12 Do maps accurately and objectively present the information we expect them to portray or are they instead colored by the political purposes of their makers In this lively and well illustrated book Jeremy Black investigates this dangerous territory arguing persuasively that the supposed objectivity of the map making and map using process cannot be divorced from aspects of the politics of representation **Mapping Ethnography in Early Modern Germany** S. Leitch, 2010-09-27 As the first book length examination of the role of German print culture in mediating Europe's knowledge of the newly discovered people of Africa South Asia and the Americas this work highlights a unique and early incident of visual accuracy and an unprecedented investment in the practice of ethnography **The Hyperlinked Society** Lokman Tsui, 2009-12-11 Links are among the most basic and most unexamined features of online life Bringing together a prominent array of thinkers from industry and the academy *The Hyperlinked Society* addresses a provocative series of questions about

the ways in which hyperlinks organize behavior online How do media producers considerations of links change the way they approach their work and how do these considerations in turn affect the ways that audiences consume news and entertainment What role do economic and political considerations play in information producers creation of links How do links shape the size and scope of the public sphere in the digital age Are hyperlinks bridging mechanisms that encourage people to see beyond their personal beliefs to a broader and more diverse world Or do they simply reinforce existing bonds by encouraging people to ignore social and political perspectives that conflict with their existing interests and beliefs This pathbreaking collection of essays will be valuable to anyone interested in the now taken for granted connections that structure communication commerce and civic discourse in the world of digital media This collection provides a broad and deep examination of the social political and economic implications of the evolving web based media environment The Hyperlinked Society will be a very useful contribution to the scholarly debate about the role of the internet in modern society and especially about the interaction between the internet and other media systems in modern society Charles Steinfield Professor and Chairperson Department of Telecommunication Information Studies and Media Michigan State University Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication University of Pennsylvania He was named a Distinguished Scholar by the National Communication Association and a Fellow of the International Communication Association in 2010 He has authored eight books edited five and written more than 100 articles on mass media industries His books include Niche Envy Marketing Discrimination in the Digital Age and Breaking up America Advertisers and the New Media World Lokman Tsui is a doctoral candidate at the Annenberg School for Communication University of Pennsylvania His research interests center on new media and global communication Cover image This graph from Lada Adamic s chapter depicts the link structure of political blogs in the United States The shapes reflect the blogs and the colors of the shapes reflect political orientation red for conservative blogs blue for liberal ones The size of each blog reflects the number of blogs that link to it digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society culture and scholarly communication Visit the website at www.digitalculture.org

Mapping Jeremy W. Crampton, 2011-09-09 Mapping A Critical Introduction to Cartography and GIS is an introduction to the critical issues surrounding mapping and Geographic Information Systems GIS across a wide range of disciplines for the non specialist reader Examines the key influences Geographic Information Systems GIS and cartography have on the study of geography and other related disciplines Represents the first in depth summary of the new cartography that has appeared since the early 1990s Provides an explanation of what this new critical cartography is why it is important and how it is relevant to a broad interdisciplinary set of readers Presents theoretical discussion supplemented with real world case studies Brings together both a technical understanding of GIS and mapping as well as sensitivity to the

importance of theory **The Venetian Discovery of America** Elizabeth Horodowich, 2018-09-06 Few Renaissance Venetians saw the New World with their own eyes As the print capital of early modern Europe however Venice developed a unique relationship to the Americas Venetian editors mapmakers translators writers and cosmographers represented the New World at times as a place that the city's mariners had discovered before the Spanish a world linked to Marco Polo's China or another version of Venice especially in the case of Tenochtitlan Elizabeth Horodowich explores these various and distinctive modes of imagining the New World including Venetian rhetorics of firstness similitude othering comparison and simultaneity generated through forms of textual and visual pastiche that linked the wider world to the Venetian lagoon These wide ranging stances allowed Venetians to argue for their different but equivalent participation in the Age of Encounters Whereas historians have traditionally focused on the Spanish conquest and colonization of the New World and the Dutch and English mapping of it they have ignored the wide circulation of Venetian Americana Horodowich demonstrates how with their printed texts and maps Venetian newsmongers embraced a fertile tension between the distant and the close In doing so they played a crucial yet heretofore unrecognized role in the invention of America **Maps & Civilization** Norman J. W. Thrower, 2024-05-31 In this concise introduction to the history of cartography Norman J W Thrower charts the intimate links between maps and history from antiquity to the present day A wealth of illustrations including the oldest known map and contemporary examples made using Geographical Information Systems GIS illuminate the many ways in which various human cultures have interpreted spatial relationships The third edition of Maps and Civilization incorporates numerous revisions features new material throughout the book and includes a new alphabetized bibliography Praise for previous editions of Maps and Civilization A marvelous compendium of map lore Anyone truly interested in the development of cartography will want to have his or her own copy to annotate underline and index for handy referencing L M Seibert Geomatica Imprints John N. Low, 2016-02-01 The Pokagon Band of Potawatomi Indians has been a part of Chicago since its founding In very public expressions of indigeneity they have refused to hide in plain sight or assimilate Instead throughout the city's history the Pokagon Potawatomi Indians have openly and aggressively expressed their refusal to be marginalized or forgotten and in doing so they have contributed to the fabric and history of the city Imprints The Pokagon Band of Potawatomi Indians and the City of Chicago examines the ways some Pokagon Potawatomi tribal members have maintained a distinct Native identity their rejection of assimilation into the mainstream and their desire for inclusion in the larger contemporary society without forfeiting their Indianness Mindful that contact is never a one way street Low also examines the ways in which experiences in Chicago have influenced the Pokagon Potawatomi Imprints continues the recent scholarship on the urban Indian experience before as well as after World War II
