Eisenmenger, 1997-09-23 **Mother of Plenty** Colin Greenland, 2013-10-02 When Tabitha stole the Starship Plenty she had no idea what it would come to mean Its alien nature began to burrow into her affections Now the rules are changing and with them come war and treachery Tabitha is facing a crisis and this time round Plenty might not be the saviour A winner of the Arthur C Clarke and British Science Fiction Awards the series featuring intergalactic pilot Captain Tabitha Jute concludes with her daring flight into a dying star system to avert a plot against the human race **Cyberdog** Jesse Feiler, 1996 This book provides an overview of Cyberdog describes what it looks like what it does and how to use it in everyday projects Guidance is also provided on how to extend and customize Cyberdog by adding or replacing part editors Sample Cyberdog solutions are offered in order to give a clear understanding of the topic *A Tanged Web* M.P. Zarrella, 2013-05-18
Annelise loved the outdoors animals and art As a teenager her days were spent lying in the grass drawing her cat or up in the trees studying the bugs that made their home in the leaves She wanted to do them justice in her artwork The young artist also loved to paint the flowers in the garden Annelise captured everything in her sketch book except the horses in her life As far as her equine friends were concerned there was no time to sit and draw time with them was far too precious to waste Her day at the barn flew by brushing feeding bathing and most important riding Now years later it saddened Annelise not to have a sketch some of her equine companions Horses like most other animals rapidly disappeared during the early part of the twenty first century long ago cast out as an expensive nuisance and as a danger to the survival of humanity Horses no longer viewed as the sport of kings and a helper to man were in danger of becoming a food source Those seeking the perfect planet had eradicated the wondrous creatures that once lived freely and had such a symbiotic relationship of service with humanity One law after another was enacted First no animals within city limits and then no animals within three hundred miles of any population center Zoos were outlawed because they created too much pollution and used too much water The only way to see a real animal exotic or domesticated was to drive to four central locations mostly in the plains of the Midwest and the deserts of the far West Animals were now kept in a handful of sanctuaries Where had all of these crazy laws come from **From Semantics to Computer Science** Gilles Kahn, Yves Bertot, 2009-09-24 Gilles Kahn was one of the most influential figures in the development of computer science and information technology not only in Europe but throughout the world This volume of articles by several leading computer scientists serves as a fitting memorial to Kahn s achievements and reflects the broad range of subjects to which he contributed through his scientific research and his work at INRIA the French National Institute for Research in Computer Science and Control The authors also reflect upon the future of computing how it will develop as a subject in itself and how it will affect other disciplines from biology and medical informatics to web and networks in general Its breadth of coverage topicality originality and depth of contribution make this book a stimulating read for all those

interested in the future development of information technology *Kisses of Fire* Eileen Raven Scott,2017-12-30 Half demon Aruni prefers to live among the people of her human father So far she has been successful in blending with the humans But her carefully constructed life disintegrates when she meets Ilvio a member of the mer elves tribe Fire clashes with water and in an instant their hearts are burning with love A love neither the elves nor the demons will tolerate Is their love doomed to failure The Play Ethic Pat Kane,2011-08-19 Fizzes with intellectual curiosity Kane writes engagingly and with a humility difficult to find among idea entrepreneurs James Harkin Independent We all think we know what play is Play is what we do as children what we do outside of work what we do for no other reason than for pleasure But this is only half of the truth The Play Ethic explores the real meaning of play and shows how a more playful society would revolutionize and liberate our daily lives Using wide and varied sources from the Enlightenment to Eminem Socrates to Chaos theory Kierkegaard to Karaoke The Play Ethic shows how play is fundamental to both society and to the individual and how the work ethic that has dominated the last three centuries is ill equipped to deal with the modern world With verve wit and intelligence Pat Kane takes us on a tour of the playful world arguing that without it business the arts politics education even our family and spiritual lives are fundamentally impoverished The Play Ethic seeks to change the way you look at your daily life how you interact with others how you view the world It is a guidebook to new exciting and unsettling times Shocking controversial yet magnificently argued The Play Ethic is a book no one who works or has ever worked can afford to be without Kane s Manifesto for a Different Way of Living is a brave attempt to inject a little playfulness into the dull grind of the working stiff Iain Finlayson The Times If you get Bored... Then you could always read these!!! Christopher M Warren,2011-09-20 This little book is the perfect winter warmer Half the stories within are sure to send pulses of chill up your spine while the rest will make your brain reel as it focuses its thoughts on the much bigger picture **Buzz** Marian Salzman,Ira Matathia,Ann O'Reilly,2003-04-25 How to master the power of buzz Trendspotters and bestselling authors Marian Salzman and Ira Matathia demystify buzz and show how marketers can create and leverage it for the success of their products and services The world we inhabit is in constant flux and the captive audience on which advertisers relied for years no longer exists Branding today requires a flexibility and creativity that have thus far eluded many traditional practitioners When there is no clear forum for communicating your brand message to the audience you must have your audience do it for you The authors show how and why buzz works examining case studies like Kate Spade Madonna Bulgari Ford Nokia and French Connection They explore the role specific consumer groups play in setting trends show how influence works reveal the efficacy of shock ads and explain how to manage brand momentum This book is a dynamic guide that sheds new light on the topic of buzz using real world examples and case studies that show how marketers can manufacture the seemingly authentic word of mouth to which today s cynical consumer responds *Seasons of Plenty* Colin Greenland,2013-09-24 Space Captain Tabitha Jute is the hero of the solar system She has defeated the Capellan overlords and liberated the gigantic alien spaceship known

as Plenty Now begins the first human voyage to another star a journey that will take the strange ship and her motley complement of passengers and crew far into unknown reaches of time and space Volume two of the Tabitha Jute sf trilogy sequel to TAKE BACK PLENTY [MacUser](#) ,1997 **Ship of Thought** Duncan Barford,2018-05-08 Learning is the most basic means by which we can change ourselves Of all the activities of the mind learning is perhaps the most fundamental yet one of the most provocative and difficult to understand In this fourth volume of the Encyclopaedia of Psychoanalysis ten new essays by an interdisciplinary array of educationalists psychoanalysts and academics confront head on the many problems associated with the mystery of learning What is learning How are ideas transmitted from the mind of one person to the mind of another What makes a good teacher Like all the preceding volumes in The Encyclopaedia of Psychoanalysis ideas and opinions are presented from a contrasting variety of viewpoints within contemporary psychoanalytic theory Individual chapters are devoted to the theories of learning implicit in the work of Freud Jung Klein Bion Winnicott and Lacan Other topics explored in this extremely comprehensive and thought provoking collection include how to teach psychoanalytically the relationship between learning difficulty and writer s block and the problems inherent in teaching psychoanalysis itself

thriller featuring Eve Rossi head of a covert division of the FBI made up of ex criminals and set against the backdrop of Macy's Thanksgiving Day Parade What at first looks like an assassination attempt on New York City's Police Commissioner might in fact be a smokescreen for the abduction of his teenage daughter Or is it a larger conspiracy As midtown Manhattan grinds to a halt in preparation for Macy's Thanksgiving Day Parade Eve Rossi and her team of ex cons race against the clock to save a child's life and thwart a massive terrorist threat in this whiplash paced thriller *Saltwater* Jessica Andrews, 2024-05-01

Portico Prize Winner A luminous feminist coming of age novel that captures the richness and imperfection of the bond between a daughter and her mother *The Observer* A Best Book of 2020 *Open Letters Review* It begins with our bodies Safe together in the violet dark and yet already there are spaces beginning to open between us From that first immaculate fluid connection through the ups and downs of a working class childhood in northern England the one constant in Lucy's life has been her mother comforting and mysterious ferociously loving tirelessly devoted as much a part of Lucy as her own skin Her mother's lessons in womanhood shape Lucy's appreciation for desire her sense of duty as a caretaker her hunger for a better perhaps reckless life At university in glamorous London Lucy's background sets her apart And then she is finished graduated adrift She escapes to a tiny house in Donegal left empty by her grandfather a place where her mother once found happiness There she will take a lover live inside art and the past and track back through her memories and her mother's stories to make sense of her place in the world In a stunning new voice in British literary fiction *The Independent* that lays bare our raw dark selves Jessica Andrews's debut is a story of becoming a woman an artist and of finding a way forward by looking back Gorgeous Andrew's writing is transportingly voluptuous conjuring tastes and smells and sounds like her literary godmother Edna O'Brien *The New York Times Book Review*
