Nickel Plate Road Passenger Service Kevin J. Holland,1997-01-01 Railfan & Railroad ,2006 *RailNews* ,1998

Scranton Railroads David Crosby,2009 Founded as a small iron making community Scranton gained prominence as the anthracite capital of the world for the rich deposits of hard coal surrounding the city Five railroads eventually served Scranton attracted by the lucrative anthracite trade The viability of these lines became directly linked to the coal industry and the decline of this traffic in the 1950s had a devastating impact on the railroad industry in the northeastern United States Following decades of decline abandonments and mergers an unparalleled resurgence of freight traffic coupled with the development of heritage railroading has transformed Scranton into a destination for tourists and rail historians alike

The Bessemer and Lake Erie Railroad, 1869-1969 Roy C. Beaver,1969 **More Classic American Railroads** Mike Schafer,2000 A groundbreaking new book that upends our understanding of ancient America Conventional history tells us humans migrated on foot across present day Alaska populating the Americas far later than other continents However emerging new evidence suggests seafarers reached the continents thousands of years earlier and developed far more sophisticated civilizations than previously imagined From distinguished historian BBC World Service Gavin Menzies the author of the blockbuster New York Times bestseller 1421 comes a revolutionary new account of how the first humans came to North and South America Menzies reveals that ancient peoples used the oceans natural currents and prevailing winds to make voyages across both the Atlantic and Pacific What s more we now must accept that they had time to develop remarkably advanced cultures Armed with cutting edge DNA evidence newly unearthed artifacts and astonishing linguistic and archaeological discoveries Menzies shows humans have been making transoceanic voyages as far back as 100 000 years ago vastly predating the supposed overland migration to the Americas during the last Ice Age the ancient South American civilizations of the Olmec and Maya in Central and South America may have had direct origins and influences from Asia ancient maps held in the Library of Congress in Washington D C show there must have been sustained and dedicated voyages to the Western Hemisphere by Chinese explorers as early as 2200 B C huge Chinese settlements occupied and made exploratory journeys from Nova Scotia Japanese Korean and even earlier European voyages likewise predated the explorations currently recorded by history A maverick scholar Menzies has made a riveting new contribution to the story of humanity s earliest explorers revealing the truth behind one of history s most fascinating questions Who discovered America

The Economics of Competition in the Transportation Industries John Robert Meyer,1959 **Railway Employees'**

Journal ,1949 **The Pennsylvania Railroad** Albert J. Churella,2024-11-26 The final volume of Albert J Churella s landmark series The Pennsylvania Railroad concludes the story of the iconic transportation company covering its long decline from the 1930s to its merger with the New York Central Railroad in 1968 Despite some parallels with World War I the experience of World War II had a substantially different impact on the Pennsylvania Railroad The introduction of new

technologies personnel and commuter routes had significant effects on this giant of American transportation The recession of 1958 sparked a period of decline from which it and many other railroads struggled to fully recover The Pennsylvania Railroad The Long Decline 1933 1968 provides an unparalleled look at the final years of this legendary company which in its prime was the largest corporation in the world with a budget second only to that of the US federal government **Moody's Transportation Manual** ,1961
