The Politics of Neoliberal Democracy in Africa Usman A. Tar, 2008-10-30 Since the late 1980s the changing dynamic of global development has driven the tide of democratic expansion in the developing world In Africa western donors have sought to impose neo liberal visions of socio economic and political institution building spreading political reforms and economic liberalisation with far reaching consequences Associated with external interventions but also sometimes conflicting with them are internal protests against authoritarianism which have problematically reinforced and or undermined the donor agenda for democratic reform Here Usman Tar questions the assumption that Africa was lacking the essential components for a spontaneous transition to democracy He explores the dynamic but contradictory links between external and internal dimensions of neo liberal democratic expansion in Africa focusing on Nigeria Tar dissects the struggles for democracy and for democratic policy and practice in a country with rich economic potential but a troubled political dispensation **The**

Politics of Military Reform Jürgen Rüland, Maria-Gabriela Manea, Hans Born, 2012-09-03 This volume seeks to explain why democratization and military reforms stagnate in newly democratizing countries The contributions blend historical ideational cultural and structural explanatory factors to analyze the trajectories of military reform in Indonesia and Nigeria two major regional powers that share many structural commonalities In the tradition of the literature on security sector reform SSR the book not only scrutinizes executive initiatives toward military reform but also provides ample coverage of societal actors Findings show that while military reform is stagnating in both countries societal forces ought to be taken into account more as major driving forces in explaining military reform Several chapters study how legislatures non governmental organizations and the civilian defence epistemic community contribute to the transformation of military institutions The last part of the book tackles another aspect rarely studied in the literature on military reform namely the role of militias in military reform

Growing Apart Peter Lewis, 2009-12-11 *Growing Apart* is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America s best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution *Growing Apart* is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book s valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor *Bulletin of Indonesian Economic Studies* This is a

highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis s book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies *Nigeria's Struggle for Democracy and Good Governance* Adigun A.
