Nine Lies About America:

Nine Lies about America Beichman, Arnold, 1973 Anti-American Myths Arnold Beichman, 2023-05-09 In his probing new introduction to *Anti American Myths* which was initially published twenty years ago as *Nine Lies About America* Arnold Beichman notes a powerful fact what makes the United States unique is not only its military power nor its huge economy nor even its great technological innovations Rather what differentiates the nation from virtually all others is that there is no large scale territorial movement whose sponsors seek to secede from the country and to establish a new nation And yet anti Americanism has characterized a small portion of ideologists whom Beichman refers to as radical egalitarians These prophets of doom still abound Everywhere the glib accusations are leveled America is sick racist materialist aggressive decadent and only violent revolution can save it Even the collapse of the Soviet Union and of socialist regimes in Eastern Europe has not quelled the rhetoric of anti Americanism It is Beichman's aim to explain the roots of such persistent opposition to American society as presently constructed Tom Wolfe in his Foreword shrewdly observes This is not a book about America it is a book that uses the subject of the United States as a device with which to explore the modern intellectual's retrograde habits of mind Beichman finds nothing particularly amusing about what American intellectuals do to rationality and the English language let alone the common weal when they get on the subject of the United States But I for one find his demonstration of the hash these men have made of the mother tongue extremely entertaining When initially published Beichman's classic was termed powerful persuasive and credible a laser beam of fact and reason by the Los Angeles Times and a most valuable antidote to a lot of cliché thinking and cliché writing by the New York Times Edwin McDowell in his review for the *WaH Street Journal* reminds the reader that Beichman is not a rightwinger bent on defining the status quo but unabashedly a man of the left an important figure in the international trade union movement *Anti American Myths* will be of interest to intellectual historians political scientists sociologists and all readers interested in contemporary social and political affairs **Forbidden Bookshelf's Resistance in America Collection** Nancy Howell Lee, Peter Dale

Scott, Bertram Gross, 2017-06-13 From creeping capitalism to abortion to government corruption these three books shed light on controversial topics that are too often left in the dark Curated by NYU professor Mark Crispin Miller the *Forbidden Bookshelf* series resurrects books from America's repressed history All touching on bold and debated topics these three books are more relevant today than ever *Friendly Fascism* Bertram Gross a presidential adviser in the New Deal era explores the insidious way that capitalist politics could subvert America's constitutional democracy First published over three decades ago this book predicted the threats and realities that occur when big business and big government become bedfellows while demonstrating how US citizens can build a truer democracy *The Search for an Abortionist* Nancy Howell Lee's eye opening account reveals the dangerous and illegal options for women seeking an abortion before *Roe v Wade* Based on interviews with 114 women this groundbreaking work takes an intimate look at the abortion process Dallas 63 Peter Dale Scott exposes

the deep state an intricate network within the American government linking Wall Street influence corrupt bureaucracy and the military industrial complex Since World War II its power has grown unchecked and nowhere has it been more apparent than at Dealey Plaza on November 22 1963 Scott details the CIA and FBI s involvement in the JFK assassination and shows how events like Watergate the Iran Contra affair and 9 11 are all connected to this behind the scenes web of corruption

The Untold Journey Natalie Robins,2017-05-16 A biography of a famed 20th century Jewish New York author and literary and social critic who struggled in the shadow of her husband Diana Trilling s life with Columbia University professor and literary critic Lionel Trilling was filled with secrets struggles and betrayals and she endured what she called her own private hell as she fought to reconcile competing duties and impulses at home and at work She was a feminist yet she insisted that women s liberation created unnecessary friction with men asserting that her career ambitions should be on equal footing with caring for her child and supporting her husband She fearlessly expressed sensitive controversial and moral views and fought publicly with Lillian Hellman among other celebrated writers and intellectuals over politics Diana Trilling was an anticommunist liberal a position often misunderstood especially by her literary and university friends And finally she was among the New Journalists who transformed writing and reporting in the 1960s making her nonfiction as imaginative in style and scope as a novel The first biographer to mine Diana Trilling s extensive archives Natalie Robins tells a previously undisclosed history of an essential member of New York City culture at a time of dynamic change and intellectual relevance Meticulously researched and documented the biography is a detailed foray into the lives of a generation of writers and into the mind of literary critic writer and intellectual Diana Trilling Ms Robins does a solid job of rehabilitating a significant literary and cultural figure of the 20th century a woman who spent much of her career in her husband s shadow Kirkus Reviews **Knowledge And Decisions** Thomas Sowell,2022-01-04 With a new preface by the author this reissue of Thomas Sowell s classic study of decision making updates his seminal work in the context of The Vision of the Anointed Sowell one of America s most celebrated public intellectuals describes in concrete detail how knowledge is shared and disseminated throughout modern society He warns that society suffers from an ever widening gap between firsthand knowledge and

decision making a gap that threatens not only our economic and political efficiency but our very freedom because actual knowledge gets replaced by assumptions based on an abstract and elitist social vision of what ought to be. Knowledge and Decisions a winner of the 1980 Law and Economics Center Prize was heralded as a landmark work and selected for this prize because of its cogent contribution to our understanding of the differences between the market process and the process of government. In announcing the award the center acclaimed Sowell whose contribution to our understanding of the process of regulation alone would make the book important but in reemphasizing the diversity and efficiency that the market makes possible his work goes deeper and becomes even more significant. *Stealing America's Future* William Steiner, 2010-04

Stealing America's Future makes a comparison of today's America to late 19th Century Europe using two rare books *The Conventional Lies of our Civilization* by Nordau describing Europe's elitist leadership and *The Soviets at Work* by Lenin outlining the Russian Revolution as it took place. Not a part of the discussion of history both provide frightening detail about the nuances of the geopolitics of Europe circa 1900 that relate to today's America. Using heartwarming family stories, humorous anecdotes, incisive criticism and cold factual analysis it describes how progressive liberalism with its attempts at social engineering and excessive permissiveness has brought social and economic disaster to America. David Letterman relating to Sarah Palin: I fear he sees her as more man than he will ever be and more woman than he will ever get. Bill Maher relating to Michelle Obama: my only conclusion about Maher is that he is just another angry little bully who is fearful of powerful women. Is it time to separate the North American Continent into a federation of smaller component nations better reflecting the economics and ethos of these individual component nations yet having our common defense as the only connection or do we need to get back to the Constitution our founders gave to us?

Raised in a poor farm family in Pawnee County Nebraska, Dr. Steiner had the ethics of hard work and family values as his primary guide post to succeed. Working his way through college and graduating from the University of Nebraska in 1973, he located his dental practice in an economically impacted area of Omaha, Nebraska where he also worked in a public health clinic, developing insights with regard to what motivates people. He is a pilot and an accomplished martial artist, attaining several black belts. He was featured in a Sun Up Interview by the Omaha World-Herald's Robert McMorris and was also featured in an interview by William Rush in the League of Human Dignity paper where Sensei Steiner outlined his martial arts training strategies for handicapped persons. He was called by Charles Kuralt to panel a discussion of the Gulf Crisis for CBS News before the Gulf War. *Dictionary Catalog of the Department Library* United States. Department of the Interior. Library, 1969
