

Снайпери та гранатометники також ведуть вогонь по цілях, позиціях супротивника. Після проходження передовими підрозділами рубежу вони закріплюються на захоплених позиціях і забезпечують підхід групи прикриття, яка підтягується на нові позиції.

Практика показала, що за належної підготовки й всебічного забезпечення підрозділів бойові групи можуть успішно використовуватися в наступі й в обороні, у складі бойової охорони, сторожових застав, під час проведення блокування, пошуку, патрулювання, під час штурмових дій у населеному пункті, у горах.

Звичайно, застосування бойових груп не панацея. Їхнє створення вступає в певне протиріччя з основним принципом ведення бою — зосередження сил і засобів на важливому напрямку. Зауважмо, що не проти кожного супротивника прийнятна групова тактика — вона не заміняє, а лише доповнює ударну тактику. До того ж, як уже зазначалося раніше, ефективне використання групової тактики вимагає від командирів високої тактичної підготовки, уміння організовувати взаємодію між бойовими групами, із сусідами, з підтримуючими засобами, здійснювати стійке управління бойовими групами, усебічне забезпечення в ході бою.

1. З якою метою об'єднують солдатів відділення в бойові групи? Доведіть, що психологічна сумісність важлива для членів бойової групи.
2. У якому складі можуть бути створені бойові групи?
3. Який розподіл обов'язків між військовослужбовцями та як організовують їх взаємодію в бойовій групі?
4. Які особливості дій солдата в складі бойової групи в умовах ближнього бою?
5. Розкажіть товаришу про завдання, прийоми і способи дій солдата на полі бою в складі бойової групи.
6. Як розпізнають солдати «своїх» під час організації взаємодії між бойовими групами на полі бою?

§ 30. Порядок дій у складі бойових груп

Як треба поводитися в складі бойової групи з бойовими товаришами, зважаючи на різницю характерів?

Завдання, прийоми і способи дій солдата на полі бою в складі бойової групи.

Практика свідчить, що за належної підготовки та всебічного забезпечення бойові групи механізованого відділення можуть успішно виконувати бойові завдання в наступі та обороні в складі бойової охорони, сторожових застав, блокувань під час проведення блокування, пошуку, патрулювання, під час штурмових дій у населеному пункті та в горах. Кожен військовослужбовець, що входить до складу бойової групи, незалежно від спеціальності, має бути навчений прийомам ведення розвідки місцевості в населених пунктах, у горах, твердо знати тактику дій супротивника. Старші бойових груп мають уміти вибрати місце для обладнання засідок: біля доріг, стежок, що проходять по карнизах та ущелинах, на схилах висот, що прилягають до дороги (стежки) або утворюють вхід в ущелину, у населених пунктах тощо. Під час прорізування місцевості важливо, щоб вза-
