Prosecuting International Crimes:

Prosecuting International Crimes in Africa Chacha Murungu, Japhet Biegon, 2011 Prosecuting international crimes in Africa contributes to the understanding of international criminal justice in Africa The book argues for the rule of law respect for human rights and the eradication of a culture of impunity in Africa it is a product of peer reviewed contributions from graduates of the Centre for Human Rights Faculty of Law University of Pretoria where the Master's degree programme in Human Rights and Democratisation in Africa has been presented since 2000 Back cover

Prosecuting International Crimes: A Multidisciplinary Approach Bartłomiej Krzan, 2016-07-11 The volume edited by Bartłomiej Krzan offers different perspectives on the prosecution of international crimes The analyses contained therein reflect different backgrounds mainly legal combining several disciplines and making it a multidisciplinary study The main but definitely not the exclusive point of reference is that of international law In addition other perspectives those of legal history or sociology of law and obviously the one of criminal law both substantive and procedural provide useful alternatives or in most occasions complementary approaches to the examination of the prosecution of international crimes The book combines different views backgrounds and underlying assumptions But gathered together they it is to be hoped shed some additional useful light that might be helpful for identifying new dimensions of the reaction judicial or other towards international crimes Contributors Władysław Czapliński Patrycja Grzebyk Witold Jakimko Wojciech Jasiński David Kohout Karolina Kremens Bartłomiej Krzan Krzysztof Maso Neringa Mickevičiūtė Robert Uerpmann Wittzack Regina Valutytė Karolina Wierczyńska Joachim Wolf Loammi Wolf and Justinas ilinskas

[Prosecuting International Crimes](#) Robert Cryer, 2005 This book concentrates on the legitimacy of the international criminal law regime It explains the development of the system of international criminal law enforcement in historical context with regard to international relations theory

Prosecuting International Crimes Hassan B. Jallow, 2019 The book reflects the long association of the author with the process of international criminal justice particularly as Chief Prosecutor touching on his mandate as such identifying the challenges in the prosecution of international crimes and the measures and strategies fashioned to meet those challenges It covers as well an assessment of the legacy of the UNICTR and a glimpse into the future of international criminal justice The book highlights recommended practices in the administration of international criminal justice which should be of value to practitioners and decision makers in advancing the cause of justice and accountability and in combating impunity

Prosecuting International Crimes Robert Cryer, 2005-06-30 This 2005 book discusses the legitimacy of the international criminal law regime It explains the development of the system of international criminal law enforcement in historical context from antiquity through the Nuremberg and Tokyo Trials to modern day prosecutions of atrocities in the former Yugoslavia Rwanda and Sierra Leone The modern regime of prosecution of international crimes is evaluated with regard to international relations theory The book then subjects that regime to critique on the basis of legitimacy and the rule of law in particular selective enforcement not

only in relation to who is prosecuted but also the definitions of crimes and principles of liability used when people are prosecuted. It concludes that although selective enforcement is not as powerful as a critique of international criminal law as it was previously, the creation of the International Criminal Court may also have narrowed the substantive rules of international criminal law.

Old Evidence and Core International Crimes Morten Bergsmo, CHEAH Wui Ling, 2012-11-19. It is often only years after the commission of core international crimes that prosecutions and investigations take place. This anthology addresses challenges associated with such delayed justice: the location, treatment and assessment of old evidence. Part I considers the topic from the perspective of different actors involved in the prosecution of core international crimes at the domestic and international levels. Part II comprises chapters focusing on the efforts of the Bangladeshi authorities to investigate and prosecute international crimes perpetrated during the 1971 war. This book brings together experienced judges, prosecutors, lawyers, scientists and commentators who have dealt with questions of old evidence in their work. Among the contributors are Shafique Ahmed, Andrew Cayley, David Cohen, Seena Fazel, Siri S. Frigaard, M. Amir Ul Islam, Md. Shahinur Islam, Agnieszka Klonowiecka, Milart Alphons, M. M. Orie, Stephen J. Rapp, Patrick J. Treanor, Otto Triffterer and Martin Witteveen. The chapters describe the challenges encountered in practice and suggest concrete solutions that can be tailored to fit the circumstances of the case or country. By providing a comprehensive analysis of the relevant problems in this area and a variety of views, this anthology will serve as an invaluable resource for criminal justice actors and researchers seeking to address questions of old evidence.

Prosecuting International Crimes and Human Rights Abuses Committed Against Children Sonja C. Grover, 2009-10-21. This casebook addresses selected precedent-setting rulings of various international human rights and international criminal courts with a focus on the child victims of international crimes and human rights abuses. The cases are analysed from the children's human rights perspective and the question is examined as to what extent the aforementioned courts are according these children justice. The scope of the book is thus limited to the consideration of these representative important cases concerning violations of international human rights and humanitarian law and international criminal law involving child victims and the judicial remedies accorded or denied these victims and their family members. This is not in any way to diminish the suffering and importance of the adult victims of violations of fundamental human rights and grave international crimes. Rather, the book is intended to deal with the restricted and largely neglected topic of to what extent international courts are attending to the implications of there being child victims with respect to the courts addressing and handling of, among other matters, the following: a) the confirmation of charges relating to child-specific international crimes, i.e. recruitment of child soldiers, forced child marriage, etc.

Justice Beyond the Hague David A. Kaye, Council on Foreign Relations, 2011. When the International Criminal Tribunal for the former Yugoslavia (ICTY) was established more than twenty years ago, the international community had little experience prosecuting the perpetrators of genocide, war crimes and other atrocities. Unfortunately, there has been ample opportunity to build expertise in the

intervening decades ad hoc tribunals have been established to address past crimes in Cambodia and Sierra Leone and a formal International Criminal Tribunal for Rwanda ICTR was convened in the aftermath of Rwanda's 1994 genocide. Since 2002 the International Criminal Court ICC has assumed responsibility for new prosecutions pursuing war criminals in countries unable or unwilling to bring them to justice domestically. Yet after more than two decades of experience the limits of these courts' capabilities are becoming clear. While they have brought some senior leaders to justice the scope of the courts' budgets and their enquiries can never reach all or even most perpetrators of atrocities. They are physically far removed from the scenes of the crimes they are prosecuting cannot compel evidence or conduct independent investigations and are vulnerable to changes in funding and international political support. To overcome these and other difficulties the international community must place greater emphasis on strengthening the national justice systems of the countries where atrocities have occurred. In this Council Special Report David Kaye examines existing international justice mechanisms analyzes how they have succeeded and where they have failed and explains what reforms national legal systems will require to secure just and peaceful outcomes. Cognizant of the myriad individual challenges facing countries experiencing or emerging from violent conflict Kaye nevertheless identifies a core set of common needs: political pressure on governments reluctant to prosecute perpetrators; assistance in building legal frameworks and training legal officials; support for investigations including forensic analysis and security sector reform; and creating belief in the justice system among the local population. To these ends Kaye outlines several recommendations for U.S. policymakers and their governmental and nongovernmental partners worldwide. Beginning in the United States Kaye argues that Washington should expand diplomatic and financial support for national justice systems and appoint a senior official to oversee initiatives from the State Department, Justice Department, USAID and other agencies. Abroad he calls for the secretary of state to organize a donor conference to agree on funding priorities and responsibilities for the international community and to establish a coordinating body to ensure that support for national level justice systems is properly coordinated and informed by best practices. Justice Beyond The Hague provides important insights into the strengths and limitations of current international justice mechanisms. It makes a clear case for increasing support to national legal systems and outlines a variety of ways that the U.S. government can improve and coordinate its aid with others. While there will always be a place for international courts in countries that cannot or will not prosecute perpetrators themselves this Council Special Report successfully argues that domestic systems can and should play a more meaningful role.

International Prosecution of Human Rights Crimes Wolfgang Kaleck, Michael Ratner, Tobias Singelnstein, Peter Weiss, 2006-11-22

1 In his separate opinion in the Nuclear Weapons case Judge Mohammed Bedoui then the President of the International Court of Justice called nuclear weapons the absolute evil. There are a few other things which merit being called solutely evil. They are the predicates of the International Criminal Court and of various domestic laws patterned on the Rome Statute: war crimes, crimes against humanity, genocide and aggression. A conference organized by the Berlin based

Republikanischer Anwaltinnen und Anwaltsverein Republican Lawyers Association and the New York based Center for Constitutional Rights was held in Berlin in June 2005 under the title Globalverfassung versus Realpolitik Global Constitution versus Realpolitik It dealt with the tension between these universally accepted norms and the actual practice of governments in an age characterized by the ill defined concept of the war on terror This book is the outcome of that conference It is intended for a wide variety of readers academics all kinds of jurists as well as human rights activists who sometimes know more about the applicable law than the legal experts It owes its existence to a paradox On the one hand new structures for dealing with the most serious international crimes are being put into place

The Prosecution of International Crimes

Roger Stenson Clark, Madeleine Sann, 2003-08-01 The post World War Two period has witnessed numerous armed conflicts characterized by extensive violations of relevant obligatory international norms Responding to these events the United Nations General Assembly created a permanent international court in 2003 with jurisdiction over selected international crimes The International Tribunal for the Former Yugoslavia was a precursor to this permanent court It was established for the purpose of prosecuting persons responsible for serious violations of international humanitarian law committed in the territory of the former Yugoslavia As a precedent for what we may expect in the future it deserves special attention from a historical political and especially an international law point of view The Prosecution of International Crimes comprehensively examines the creation mandate and challenges of the International Tribunal for the Former Yugoslavia Derived from a special issue of Criminal Law Forum An International Journal a peer review journal dedicated to the advancement of criminal law theory practice and reform throughout the world it is now available in paperback Mark Osiel is professor of law at the University of Iowa He is the author of Mass Atrocity Collective Memory and the Law *Incitement on Trial* Richard Ashby Wilson, Richard Wilson, 2017-08-18 This book explains why international criminal tribunals struggle to monitor inciting speech and proposes a model of prevention and punishment [Prosecuting International Crimes in Africa](#), 2011 Prosecuting international crimes in Africa contributes to the understanding of international criminal justice in Africa The book argues for the rule of law respect for human rights and the eradication of a culture of impunity in Africa it is a product of peer reviewed contributions from graduates of the Centre for Human Rights Faculty of Law University of Pretoria where the Master's degree programme in Human Rights and Democratisation in Africa has been presented since 2000 Back cover

The Prosecution of International Crimes

Ben Brandon, Max Du Plessis, 2005 With the coming into force of the Rome Statute of the International Criminal Court ICC on 1 July 2002 a new era of international criminal justice has begun For the first time a permanent international court has been established with jurisdiction to try individuals for the most serious crimes genocide crimes against humanity and war crimes But the impact of the ICC goes well beyond the international stage The Court is intended to complement national jurisdictions and will only take on cases when States with jurisdiction over the relevant crimes are either unwilling or unable to conduct the prosecution Thus the vast majority of cases will be investigated and

prosecuted by domestic authorities in domestic courts This has significant ramifications for the police to investigate prosecute defend or adjudicate on such matters as well as render various types of assistance to the ICC This Guide is intended to assist domestic authorities within Commonwealth countries in meeting this challenge by providing practical information about the Court the relevant principles of international law and the new laws adopted in each State Part I takes the reader through the structure of the ICC issues relating to jurisdiction an outline of the crimes a description of the co operation regime and general principles of international humanitarian law Part II looks at national legislation that has been adopted to date It is hoped that this publication will serve as an important guide for legal professionals and all those working in the criminal justice system and enable them to become familiar with the practical realities involved in ending impunity for those who have committed the gravest of international crimes

Criteria for Prioritizing and Selecting Core International Crimes Cases Morten Bergsmo, 2010-07-23 Promoting Accountability for International Crimes: Hassan B. Jallow, 2024-04-26 This book brings together a rich selection of speeches papers and articles by the author drawn from his long and diverse experience in international criminal justice It touches on the development and implementation of prosecutorial strategies the challenges of investigation and prosecution of international crimes and the responses to such challenges and on specific issues including the work and legacy of the UNICTR Rwanda tribunal prosecuting sexual and gender based crimes arrest and tracking of fugitives giving effect to complementarity international cooperation to combat international crimes as well as a vision of the future of international criminal justice An excellent guide and source from one of the world s leading practitioners of international criminal justice

Prosecuting Serious Human Rights Violations Anja Seibert-Fohr, 2009-07-09 Criminal punishment is increasingly seen as a necessary element of human rights protection There is a growing conviction at the international level that those responsible for the most serious crimes should not go unpunished Although there is a wealth of legal writing on international criminal law an extensive analysis is still needed of the questions why and to what extent criminal prosecution is a necessary means of human rights protection at the domestic level This book is the first to examine comprehensively the duty to prosecute serious human rights violations under the International Covenant on Civil and Political Rights the American and European Conventions on Human Rights and customary international law It does so by exploring the phenomena of impunity and amnesties These issues are particularly relevant for post conflict situations in which it is often argued that criminal punishment threatens peace and reconciliation The question of how to deal with post conflict justice under international human rights law is therefore a continuing theme throughout the book Apart from post conflict justice the text also considers the relevance of criminal measures in times of peace by exposing flaws in the criminal legislation and in the conduct of criminal procedure With its survey of the relevant human rights instruments and jurisprudence *Prosecuting Serious Human Rights Violations* is placed at the interface of international criminal law and

international human rights The book analyses the rapidly growing body of human rights case law dealing with criminalization prosecution and punishment of serious human rights violations It identifies and critically examines the standards for the conduct of criminal proceedings developed by the European and Inter American Courts of Human Rights and the UN Human Rights Committee providing a unique reference tool for scholars and practitioners working in this area of law It also describes the standards for criminal law under the Conventions Against Genocide Torture and Enforced Disappearances As the analysis of pertinent case law reveals shortcomings in the current conceptualization of the prosecution of human rights violations the author develops a solid theoretical framework for future jurisprudence By evaluating the relationship between criminal law and the protection of human rights the book elucidates not only the potential but also the limits of the role human rights law can play in the emerging concept of international criminal justice
