Prosody Focus And Word Order:

Prosody, Focus, and Word Order Maria Luisa Zubizarreta, 1998 This monograph exemplifies a trend in grammatical theory in which researchers combine findings from more than one area of linguistics Specifically the author looks at the relationship between phrasal prominence and focus in Romance and Germanic languages to provide insights into how these properties are grammatically articulated Building upon prominence nuclear stress reflects syntactic ordering There are two varieties of syntactic ordering The first is the standard asymmetric c command ordering The second is the ordering derived from the primitive relation of selection holding between a head and its associated argument **The Word Order of the Gospel of Luke** Ivan Shing Chung Kwong, 2005-12-09 This work studies the word order of the Gospel of Luke and some of its prominent messages with consideration of systemic functional linguistic theories The first part of the work focuses on the relative positions of four constituents subject predicate complement and circumstantial adjunct of different types of Lukan clauses independent dependent infinitival participial and embedded clause The result gives some unmarked typical or common word order patterns and some marked word order patterns of all Lukan clauses The second part traces the foregrounded messages of the Gospel based on their related marked word order patterns incorporated with functional linguistic phenomena The result highlights the messages of Jesus disciples and his parents failure in understanding him Pilate's crime of handing over Jesus and Jesus predictions of his future sufferings and Peter's future failure JSNTS and Studies in New Testament Greek series **Topic and Focus** Chungmin Lee, Matthew Gordon, 2006-12-18 During the 2001 Linguistic Summer Institute at University of California Santa Barbara a group of linguists gathered at a workshop to discuss the expression and role of topicalization and focus from a variety of perspectives phonetic phonological syntactic semantic and pragmatic The workshop was designed to lay the groundwork for collaborative efforts between linguists devoted to the study of meaning and linguists engaged in the quantitative study of intonation This volume contains papers emerging from the Santa Barbara Workshop on Topic and Focus A wide variety of methodologies and research interests related to topic and focus are represented in the papers Some works present results of phonetic studies either acoustic or perceptual on the expression of topic and or focus others examine semantic or pragmatic features of topic and or focus while others are concerned with the interface between intonation and meaning Data from several different languages are represented in the papers including several languages with relatively little documentation particularly in the venue of topic and focus e.g. Basque Chickasaw Indonesian Polish Taiwanese The broad sample of languages coupled with the wide variety of research topics addressed by the papers promise to enrich our typological understanding of topic and focus phenomena and provide an impetus for further research The following paragraphs offer brief summaries of the papers contained in this volume Gorka Elordieta's paper describes prosodic conditions governing focus in a dialect of Basque with pitch accents Aspects of the Grammar of Focus Przemysław Tajsner, 2008 The book examines the aspects of focus within the recent minimalist paradigm

Focus is viewed here as a grammar's response to the requirements of the systems external to narrowly defined language. Thus the properties of focus are explored at the two interfaces syntax/phonology and syntax/semantics. The book surveys some recent views on the interface and left periphery status of focus. With respect to the semantics of focus, the book argues for its tripartite division into information, non-exhaustive identification and exhaustive identification. It further contains a proposal of the phase-based derivation of sentences featuring focus in English and finally offers an account of Polish in which focus interestingly correlates with the phenomenon of scrambling.

The Grammar of Focus Georges Rebuschi, Laurice Tuller, 1999-11-15. The grammar of focus has been studied in generative grammar from its inception. It has been the subject of intense, detailed cross-linguistic investigation for over 20 years, particularly within the Principles and Parameters framework. It is appropriate at this point, therefore, to take stock. Appraisal at this particular point is all the more legitimate because it comes at a time of general evaluation of the results of the profound activity that has characterized the Principles and Parameters framework. This general assessment has produced a radical new direction within that framework. The volume starts off with an introductory chapter that aims to provide an outline for the assessment to be followed by an overview of the evolution of the study of focus in generative grammar and a recapitulation of the principal issues associated with focus. These issues are taken up in the remaining chapters of the book where various grammatical means of marking focus as well as grammaticalization of focus marking are analyzed in a wide variety of languages.

The Verbal Complex in Subordinate Clauses from Medieval to Modern German Christopher D. Sapp, 2011-01-26. This research monograph is an empirical and theoretical study of clause-final verbal complexes in the history of German. The book presents corpus studies of Middle High German and Early New High German and surveys of contemporary varieties of German. These investigations of the verbal complex address not only the frequencies of the word orders but also the linguistic factors that influence them. On that empirical basis, the analysis adopted is the classic verb-final approach with alternative orders derived by Verb Projection Raising. Verb Raising in these historical and modern varieties is subject to morphological, prosodic and sociolinguistic restrictions suggesting that the orders in question are not driven by narrow syntax but by their effects at the interface with phonology. This study will be of interest to students and scholars studying the diachronic syntax of German, West Germanic dialect syntax and the relationship between prosody and word order.

Information Structure in Spoken Arabic Jonathan Owens, Alaa Elgibali, 2013-03. Spoken Arabic is different in many respects from literary Arabic. This book is concerned with speakers' intentions and the structural and pragmatic resources they employ. Based on new empirical findings from across the Arabic world, this work will be of interest to both students and researchers.

The Conjoint/Disjoint Alternation in Bantu Jenneke van der Wal, Larry M. Hyman, 2016-12-19. This volume brings together descriptions and analyses of the conjoint/disjoint alternation, a typologically significant phenomenon found in many Bantu languages. The chapters provide in-depth documentation, comparative studies and theoretical analyses of the alternation from a range of Bantu

languages showing its crosslinguistic variation in constituent structure morphology prosody and information structure

Comparative and Contrastive Studies of Information Structure Carsten Breul, Edward Göbbel, 2010-09-09 This volume presents original comparative and contrastive research into various aspects of information structure topic focus contrastivity givenness anaphoricity as well as into forms and structures whose realisation depends on information structural factors clefts dislocations reflexives null subjects prosodic features interrogatives in a number of different languages Catalan English French Georgian German Hebrew Hungarian Each contribution emphasises differences or commonalities between the languages under investigation with respect to the realisation of information structural categories or with respect to the information structural implications of a given form or structure The specific comparative contrastive perspective of the volume makes a substantial contribution towards a better understanding of language specific and universal aspects of information structure It raises significant questions and provides solutions for the formal representation and the functional properties of information structural categories

The Cambridge Handbook of Romance Linguistics Adam Ledgeway, Martin Maiden, 2022-07-07 The Romance languages and dialects constitute a treasure trove of linguistic data of profound interest and significance Data from the Romance languages have contributed extensively to our current empirical and theoretical understanding of phonetics phonology morphology syntax semantics pragmatics sociolinguistics and historical linguistics Written by a team of world renowned scholars this Handbook explores what we can learn about linguistics from the study of Romance languages and how the body of comparative and historical data taken from them can be applied to linguistic study It also offers insights into the diatopic and diachronic variation exhibited by the Romance family of languages of a kind unparalleled for any other Western languages By asking what Romance languages can do for linguistics this Handbook is essential reading for all linguists interested in the insights that a knowledge of the Romance evidence can provide for general issues in linguistic theory

The Syntax of Sentential Stress Arsalan Kahnemuyipour, 2009-07-30 This book explores the nature of sentential stress how it is assigned and its interaction with information structure Its central thesis is that the position of sentential or nuclear stress is determined syntactically and that cross linguistic differences in this respect follow from syntactic variations

Romance Languages and Linguistic Theory 2001 Josep Quer i Carbonell, 2003 The volumes Romance Languages and Linguistic Theory published in the series Current Issues in Linguistic Theory contain the selected papers of the Going Romance conferences a major European annual discussion forum for theoretically relevant research on Romance languages Romance Languages and Linguistic Theory 2001 is the third such volume It presents a selection of the papers that have been presented at the occasion of Going Romance 2001 XV which was held at the University of Amsterdam on December 6 8 2001 The three day program included a workshop on Determiners The volume contains articles on specifics of one or more Romance languages or varieties the architecture of the Determiner Phrase and properties of determiners the left periphery of the sentence and clause structure null elements and their interpretation clitics and other interesting

phenomena in the Romance languages *Romance Linguistics* Ana Teresa Pérez Leroux, Yves Roberge, 2003 This volume contains a selection of refereed and revised papers originally presented at the 32nd Linguistics Symposium on Romance Languages dealing with linguistic theory as applied to the Romance languages and on empirical studies on the acquisition of Romance with studies on Romanian French Spanish Portuguese Italian Romansch and Latin The theoretical section contains contributions concentrating on specific properties of Romance at the syntax semantics interface on morphosyntactic issues on subject licensing and case and on phonology The acquisition section includes contributions on first bilingual and second language acquisition of functional structure word structure quantification and stress Romance Languages and Linguistic Theory 2001 Josep Quer, Jan Schroten, Mauro Scorretti, Petra Sleeman, Els Verheugd, 2003-09-29 The volumes *Romance Languages and Linguistic Theory* published in the series *Current Issues in Linguistic Theory* contain the selected papers of the Going Romance conferences a major European annual discussion forum for theoretically relevant research on Romance languages *Romance Languages and Linguistic Theory 2001* is the third such volume It presents a selection of the papers that have been presented at the occasion of Going Romance 2001 XV which was held at the University of Amsterdam on December 6 8 2001 The three day program included a workshop on Determiners The volume contains articles on specifics of one or more Romance languages or varieties the architecture of the Determiner Phrase and properties of determiners the left periphery of the sentence and clause structure null elements and their interpretation clitics and other interesting phenomena in the Romance languages **On Under-reported Monolingual Child Phonology** Elena Babatsouli, 2020-07-14 This book compiles original studies investigating crosslinguistic child phonological development in typical and atypical settings that is protolanguage phonology The chapters address topics and issues not widely or exhaustively reported in the literature such as research on under represented languages and foci of interest as well as information that has remained little known to the field It documents recent developments on typically developing populations and atypical developmental speech in children with autism developmental language disorder affecting speech childhood apraxia of speech phonological assessment and intervention phonological awareness in a typical contexts affecting literacy and motor speech analysis in speech sound disorders The book will be of interest to linguists and academic researchers as well as postgraduate students who are investigating child language acquisition in monolingual settings Information Structuring of Spoken Language from a Cross-linguistic Perspective M. M. Jocelyne Fernandez-Vest, Robert D. Van Valin, 2015-12-14 Information structure and the organization of oral texts have been rarely studied crosslinguistically This book contains studies of the grammatical organization of information in languages from different areas e g Amazonian Finno Ugric South Asian from a variety of theoretical angles It will be a valuable resource for researchers investigating the interaction of morphosyntax and discourse in familiar and less familiar languages The Architecture of Focus Valéria Molnár, Susanne Winkler, 2011-12-22 This collection investigates the architecture of focus in linguistic theory from different theoretical perspectives Research on focus

and information structure in the last four decades has shown that the phenomenon of focus is highly complex the theoretical approaches manifold and the data highly sensitive The main emphasis has been placed on the integration of the notion of focus in generative grammar In recent years however the approaches to focus and information structure underwent a radical change in perspective The theoretical concept of focus its related terms and phenomena became the object of research Along with it the research questions shifted instead of locating focus in the architecture of grammar linguists investigate the architecture of focus itself The central underlying idea of this collection is to document this change in perspective with the aim of isolating essential keystones and research areas in both the theoretical and empirical domain The book is structured accordingly Following the introduction there are four main sections The general section discusses the theoretical foundations of focus within grammar The second section hosts papers which investigate the representation of focus and topic at the syntax pragmatics interface The third section discusses the phonological representation of focus and its relation to meaning The papers of the final section investigate different types of focus constructions in a variety languages The collection of papers on the architecture of focus its interpretation and representation mirror the establishment of the focus research field

The Oxford Handbook of Information Structure Caroline Féry, Shinichiro Ishihara, 2016-08-25 This book provides linguists with a clear critical and comprehensive overview of theoretical and experimental work on information structure Leading researchers survey the main theories of information structure in syntax phonology and semantics as well as perspectives from psycholinguistics and other relevant fields Following the editors introduction the book is divided into four parts The first on theories of and theoretical perspectives on information structure includes chapters on focus topic and givenness Part 2 covers a range of current issues in the field including quantification dislocation and intonation while Part 3 is concerned with experimental approaches to information structure including language processing and acquisition The final part contains a series of linguistic case studies drawn from a wide variety of the world s language families This volume will be the standard guide to current work in information structure and a major point of departure for future research

Ellipsis and Focus in Generative Grammar Susanne Winkler, 2011-12-22 Covering linguistic research on empty categories over more than three decades this monograph presents the result of an in depth syntactic and focus theoretical investigation of ellipsis in generative grammar The phenomenon of ellipsis most generally refers to the omission of linguistic material structure and sound The central aim of this book is to explain on the basis of linguistic theorizing of how it is possible that we understand more than we actually hear The answer developed throughout this book is that ellipsis is an interface phenomenon which can only be explained on the basis of the complex interaction between syntax semantics and information structure Scholars of grammar and cognitive scientists will profit from reading this book *Focus Realization in Romance and Beyond* Marco García García, Melanie Uth, 2018-11-15 What are the linguistic means for expressing different types of foci such as narrow information focus and contrastive focus in Romance languages and why are there such differing

views on such a presumably clear cut research subject Bringing together original expert work from a variety of linguistic disciplines and perspectives such as language acquisition and language contact this volume provides a state of the art discussion on central issues of focus realization These include the interaction between prosody syntax and pragmatics the typology of word order and intonation languages the differentiation between focus and related notions such as contrast and presupposed modality and the role of synchronic variation and change The studies presented in this volume cover a broad range of Romance languages including French Italian Portuguese and different varieties of Spanish Moreover the book also offers new insights into non Romance languages such as English German and Quechua
