*Prostaglandins in Hematology* Melvin J. Silver, James Bryan Smith, James J. Kocsis, 1977 *Prostaglandins in Hematology* Silver, 1977-01-01 **The Prostaglandins** Peter Ramwell, 2013-11-11 There is much evidence to suggest that prostaglandins may have a physiological role to play in the control of thyroid gland metabolism although the precise nature of this role remains to be defined Prostaglandins have been found in normal thyroid tissue and there is evidence of increased levels in some but not all cases of medullary carcinoma of the thyroid which may account for the associated diarrhea Exogenous prostaglandins like TSH bind to thyroid plasma membranes stimulate the adenylate cyclase cyclic AMP system thyroid hormone secretion iodide organification colloid droplet formation glucose oxidation and <sup>32</sup>P incorporation into phospholipids Prostaglandins of the E series are the most potent although their maximal effects are generally less than the maximal effects of TSH The interrelationships existing between TSH and prostaglandins have been the subject of intensive investigation but as yet no unifying concept has emerged TSH and prostaglandins have been shown to occupy different receptors on the thyroid plasma membrane Although TSH can increase intracellular prostaglandin levels probably as a result of increased synthesis prostaglandins do not appear to be essential intermediates in TSH action on adenylate cyclase The possibility that prostaglandins are part of a negative feedback system controlling TSH action is as yet a tentative hypothesis and further work will be required to unravel the interrelationships between these substances that now appear to be far more complex than has been envisaged thus far **Prostaglandins, Platelets, Lipids** Hadley L. Conn, Eugene De Felice, Peter T. Kuo, 2014-05-23 *Prostaglandins Platelets Lipids New Developments in Atherosclerosis* focuses on developments pertaining to atherosclerosis and suggested novel approaches for its prevention treatment and complications The selection first underscores the biological importance and therapeutic potential of prostacyclin and rationale for the suppression of platelet aggregation and thrombosis by dietary manipulation of fatty acids Discussions focus on eicosapentaenoic acid as a potential antithrombotic substance vascular effects of prostacyclin antithrombotic and hemostatic effects of prostacyclin fatty acids prostacyclin and thrombosis and therapeutic uses of prostacyclin The text then examines prostaglandins and hypertension role of platelets in stroke and transient ischemic attack and antiplatelet agents in the prevention of acute coronary events Topics include thrombosis and clinical complications of atherosclerosis mechanisms in thrombosis vascular prostaglandins and antihypertensive mechanisms and renal prostaglandins and antihypertensive mechanisms The book ponders on a specific inhibitor of thrombin and cardiovascular actions of prostacyclin in man including prostacyclin and angina pectoris prostacyclin therapy for peripheral arterial disease and hemodynamic changes induced by prostacyclin The selection is a dependable source of data for researchers interested in atherosclerosis **Prostaglandins in Cellular Biology** Peter Ramwell, 2012-12-06 This book represents the first of the ALZA CONFERENCE SERIES which will deal with a wide variety of topics of biomedical interest These Conferences are planned to cover a range of subjects from the molecular level such as

drug receptor and drug membrane interactions to the organ and organismal levels and the dynamics of drug therapy This year s topic is PROSTAGLANDINS It is rapidly becoming clear that prosta glandins are of great interest and potential utility in therapeutics An understanding of the role of prostaglandins in the regulation of cell processes should provide insight into the understanding of a variety of difficult and intransigent fields such as cancer allergy and transplant rejection We hope that this Conference may focus attention on novel approaches to these areas We wish to thank our distinguished Chairmen and guests for their attendance The papers and dis cussions were prepared by Yvonne Hendrickson using an ATS 360 Text Editing System we acknowledge with gratitude her skill patience and hard work P W R B B P
