Prostate and Cancer - the Book Nathan Pera,2005-05-09 There will be nearly 200 000 new cases of prostate cancer diagnosed this year in the United States This is a cancer that can be overcome if men make the effort to have a yearly physical and their PSA Prostate Specific Antigen blood tested by their primary health care provider In his book Nathan relates how unexpectedly he was confronted with the possibility and eventual reality of prostate cancer through a sudden PSA elevation in what appeared to be a routine yearly checkup He takes you with him through his psychological and spiritual experiences leading to the diagnosis decision making and ultimate treatment choice He then allows you into the very core of his recovery beginning from day one following surgery This is a book for men and couples whom would like to hear from a layperson what it is like to face prostate cancer head on A no holds barred revelation it will give comfort and encouragement to those who face this challenge as Nathan graphically relates Things they may forget to tell you The book offers first hand commentary on the anxieties expectations and realities from someone who has already been where you may be going Finally Nathan relates his relentless and lengthy effort to regain his sexual potency as he searches for the elusive erection

**Prostate Cancer: Climbing above it** Laurence Lephed,2013-01-22 Nine men tell their stories of how they experiences advanced prostate cancer and how they were lifted above it If You'Re Gonna Be Stupid, You'Ve Gotta Be Tough! Bob Cole,2011-12-05 The Cleburne County Search and Rescue Team recently found and saved a man lost on Mt Cheaha in Alabama The man had set out with his wife and kids on the difficult Pinhoti Trail but once the wife and kids headed back the man continued on When he didnt return his wife panicked and called in the search squadwho eventually found a man in his fifties weighing about three hundred pounds wearing leg braces and using crutches This story just goes to show that if youre gonna be stupid youve gotta be tough Author Bob Cole knows all about it He grew up on a farm in rural Georgia and used to have to chase cows before getting on the bus for school Smelling like manure in front of the other kids certainly added a bit of toughness Since those days he has worked married and seen the world but through it all the old adage about toughness and stupidity still holds true This collection of true short stories follows Bob as he travels along the bumpy road of life Follow him through a midlife crisis family hijinks meeting a new son in law and on a mission trip to foreign lands after all stupidity is worldwide Despite some hard timesand some tough decisionsBob Cole has never lost his sense of humor and its apparent in this collection that will keep readers laughing crying and actin tough *Public Papers of the Presidents of the United States* United States. McLaren,2008-10-09 The words prostate cancer overheard in casual conversation are enough to cause the average male to cringe To actually be diagnosed with this condition is to many a devastating blow from which they never recover neither emotionally nor physically Matthew McLaren received the blow and turned it into a twofold opportunity First he overcame his own cancer Secondly he gave us detailed roadmaps so that others in the same situation can find their way out of it or better yet to bypass the quagmire entirely by taking simple preventative measures This book is must reading both for anyone who has prostate cancer or wishes to prevent it and for anyone who treats this condition or dispenses information about it Within these covers Matthew has created a virtual encyclopedia of the etiology anatomy physiology biochemistry and treatments of prostate cancer written in a style that is easy to understand by lay people and thorough enough for practitioners He interweaves science and personal experience in a delightful way The theme of this book is self empowerment Our body comes with its own innate healing power It can cure itself of any condition provided we give it the conditions it needs to do so and in a timely manner Matthew details what those conditions are Much of the wisdom he expresses herein applies not only to prostate cancer but also to other forms of cancer and to disease in general **Weekly Compilation of Presidential Documents**,2000 *Proceedings of ... Mason,G. Nitenberg,2000-07 Estimates suggest that approximately 35% of cancers are a consequence of suboptimal diet In this publication epidemiologists basic scientists and clinicians review both the epidemiology and mechanistic aspects of nutrition in the prevention of lung breast colorectal and prostate cancer Moreover an update on the status of the European EPIC study is given Protein calorie malnutrition of a clinically significant degree is common among cancer patients and contributes significantly to both morbidity and mortality Besides causing death solely from progressive cachexia malnutrition leads to diminished cardiac performance an increased susceptibility to infection and a diminished response to chemotherapy Reversing or even attenuating this cachexia is an extremely problematic issue Topics covered here include mechanisms by which malnutrition evolves in cancer patients animal models of cancer wasting controversial nutritional interventions in cancer patients and nutritional support in pediatric patients and bone marrow transplantation It has become clear that nutritional oncology must be regarded as a part of oncology and that it should be integrated with genetics and molecular biology in the care of the cancer patient This book will appeal to a wide

spectrum of professionals concerned with the prevention and treatment of cancer especially clinical and basic researchers and clinicians
