Proteas In Hawaii:

Proteas in Hawaii Angela Kay Kepler, 1988 This authoritative text provides a wealth of information on buying and caring for protea flower arrangements and general and historic information on the plant *Proteas* Maryke Middelmann, 2012-02-07 South Africa is situated at the Southern most tip of Africa and boasts over 21 000 species of plants all crammed into one country The Cape Floral Kingdom the smallest of the six floral kingdoms of the world occupies a mere 90 000 square kilometers in the south western corner of South Africa yet it is home to over 8 500 species of plants By comparison the British Isles which is three and a half times larger than this support only 1 400 species Only the Panama rain forest has a comparable species density to the Cape Floral Kingdom The earliest record is that of a Dutch missionary who gathered plants in 1624 when his ship replenished its water supply on the return voyage from Batavia to Holland His descriptions and drawings gave the world its first clues to a treasure house of new and exciting plants along its shores Various botanists visited the Cape in the years that followed and by the year 1700 nearly 1 000 Cape plants were known The flowers most commonly associated with South Africa are of course the proteas named by Linnaeus after the Greek god Proteus who was able to assume many different forms The name is apt as proteas are found in all shapes They may like *Protea cynaroides* the South African floral emblem have enormous flower heads but there are species that have flower heads of only 30 mm diameter They even come as trees like the world famous silver tree *Leucadendron argenteum* This tree was reported to be cultivated in Kew Gardens England as early as 1789 The Scottish botanist Francis Masson on a great voyage around the world with Captain Cook collected no less than 400 species of plants new to scientists of Europe including 79 specimens of protea and 50 species of Cape pelargonium commonly but incorrectly known as geraniums It is difficult to compare the small sweet smelling Freesia found in the flora of the Western Cape with the impressive long stemmed Freesias which are now sold worldwide as cut flowers At the auctions in Holland Freesias worth more than 100 million US are sold annually The so called Guernsey lily is actually just another bulb from the Cape the *Nerine sarniensis* One explanation of how *Nerine* reached Guernsey is that a Dutch ship homeward bound from the Far East was wrecked on the Channel Islands On board were boxes of Cape bulbs consigned to Holland Washed ashore on Guernsey the bulbs took root and in due course to the astonishment and delight of the inhabitants flowered One of the first flowers to be shipped commercially to Europe was the *Ornithogalum* or Chinchinchee which because of its extremely long shelf life could be sent by sea They were in high demand in the early 1950s and seem to have made a come back with new varieties Countries such as the Netherlands Japan and Germany have developed enormous horticultural industries over the years by focusing their efforts on breeding and selection of plants many of which are native to South Africa including gladioli freesias lobelia to name but a few Proteas were not commercialised until much later because they were difficult to propagate The author had access to numerous magazine and newspaper clippings from around the world which came into her possession after the death of Walter Middelmann who

was known by the family to be a great collector of books and cuttings on the many subjects that interested him This together with documents of the South African Protea Producers and Exporters Association SAPPEX and the International Protea Association IPA as well as other associations world wide makes for an interesting history It all started with wild harvesting in the early 1960s to cultivar development up to 2010 The author was the chairman of both SAPPEX and IPA for many years She was also editor of both SAPPEX News quarterly and the IPA Journal bi annually from which a wealth of information was available Apart from these documents she also relied on Moon Hawaiian Islands Kevin Whitton,2014-08-19 This full color guide to the islands of Hawaii includes vibrant photos and helpful planning maps Longtime O ahu resident Kevin Whitton shares the best ways to experience these beautiful islands including O ahu Maui Kaua i and the Big Island of Hawai i as well as side trips to Moloka i and Lana i Hike the Diamond Head Summit Trail catch a wave in Lahaina watch the sun set over Ni ihau from a beach on the West Side and sample local delicacies at Hilo s popular farmer s market Whitton includes unique trip ideas like One Week Island Pairings and The Two Week All Island Trip as well as information on dining transportation and accommodations for a wide range of travel budgets Complete with details on everything from the best beaches and restaurants to when to go for whale watching Moon Hawaiian Islands gives travelers the tools they need to create a more personal and memorable experience *The Hawaii Tropical Cut Flower Industry Conference* ,1991 Moon Hawaii Kevin Whitton,2017-09-12 Unwind on the pristine beaches of Maui hike the famed coastline of Kaua i or experience the melting pot culture of the Big Island Inside Moon Hawaii you ll find Strategic itineraries ranging from a two week tour of the state to day trips and rainy day options with ideas for eco tourists beach bums honeymooners history buffs and adrenaline junkies The top activities and unique experiences Paddle an outrigger canoe learn to surf the legendary waves or relax on endless stretches of sandy beaches Immerse yourself in history at Pearl Harbor and explore the burgeoning art and culinary scene of O ahu s Chinatown Hike through lava fields waterfalls and lush forests and get your fill of fresh produce at a local farmers market Sample traditional Polynesian cuisine or watch the sunset at a romantic beachfront restaurant The best spots for sports and recreation including hiking kayaking whale watching surfing snorkeling and scuba diving Expert insight from island local Kevin Whitton on when to go how to get around and where to stay including how to decide which islands are right for your trip Detailed maps and full color photos throughout Thorough information on the landscape climate wildlife and local culture Full coverage of Waikiki Honolulu O ahu s North Shore Hanauma Bay Kailua Ko Olina Lana i Moloka i Lahaina Kihei Haleakala and Maui s Upcountry the Road to Hana Kona Kohala Hawai i Volcanoes National Park Hilo Hamakua Coast Kamuela Waimea and the Saddle Road Lihu e Princeville Po ipu and Waimea With Moon Hawaii s expert advice and local insight you can plan your trip your way Just visiting one island Check out Moon Maui Moon Kaua i Moon O ahu or Moon Big Island of Hawai i **Exotic Tropicals of Hawaii** Angela Kay Kepler,1989 Only in Hawai i is there such a staggering variety of exotic tropical flowers Now for the first time ever a complete account of more than 136 species of Hawai i s tropicals is
