American bankruptcy reports , 1928 *War as Protection and Punishment* Teresa Degenhardt, 2023-09-15 This book provides an analysis of how penal discourses are used to legitimate post Cold War military interventions through three main case studies Kosovo Iraq and Libya These cases reveal the operation of diverse modalities of punishment in extending the

ambit of international liberal governance The argument starts from an analysis of these discourses to trace the historical arc in which military interventions have increasingly been launched through reference to both the human rights discourse and humanitarian sentiments and a desire to punish the perpetrators The book continues with the analysis of practices involved in the post intervention phase looking at the ways in which states have been established as modes of governance Kosovo how punitive atmospheres have animated soldiers violence in the conduct of war Iraq and finally how interventions can expand moral control and a system of devolved surveillance in conjunction with both border control and the engagement of the International Criminal Court Libya In all these case tensions and ambiguities emerge These practices underscore how punitive intents were also present in the expansion of liberal governance demonstrating how the rhetoric of punishment was useful in legitimating Western state powers and recomposing the borders of the liberal world at the periphery War as Protection and Punishment ends with a number of critical comments on the diffusion of punitive discourse in the international arena considering how issues of crime and justice have also animated at least in part the current engagement with the Russian invasion of Ukraine An accessible and compelling read this book will appeal to students and scholars of criminology sociology politics and those interested in how penal discourses are used to legitimize military conventions
