## **Protecting Patients Rights A Comparative Study Of The Ombudsman In Healthcare:**

Protecting Patients' Rights? Stephen Mackenney, Lars Fallberg, 2004 Ombudsman has been adopted in a number of countries over the years as a term for an administrative system that aims to protect the interests of individuals who complain against the system. However, this protection varies considerably from country to country. With an eminent list of international contributors, this book provides an overview of the role of the Ombudsman in relation to healthcare in countries with substantial cultural and historical differences. It demonstrates practical ways to protect patients' rights, looking at how each system operates, identifying the best components from each, as well as proposing future reforms. All healthcare professionals, including policy makers and shapers, will find this essential reading, gaining valuable lessons and insights to incorporate into their own organisations and systems. *Family and Succession Law in Finland* Tuulik Mikkola, 2022-09-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this concise exposition and analysis of the essential elements of law with regard to family relations, marital property and succession to estates in Finland covers the legal rules and customs pertaining to the intertwined civic status of persons, the family and property. After an informative general introduction, the book proceeds to an in-depth discussion of the sources and instruments of family and succession law, the authorities that adjudicate and administer the laws and issues surrounding the person as a legal entity and the legal disposition of property among family members. Such matters as nationality, domicile and residence, marriage, divorce and cohabitation, adoption and guardianship, succession and inter vivos arrangements and the acquisition and administration of estates are all treated to a degree of depth that will prove useful in nearly any situation likely to arise in legal practice. The book is primarily designed to assist lawyers who find themselves having to apply rules of international private law or otherwise handling cases connected with Finland. It will also be of great value to students and practitioners as a quick guide and easy-to-use practical resource in the field and especially to academicians and researchers engaged in comparative studies by providing the necessary basic material of family and succession law.

**Compendium of documents on National Human Rights Institutions in eastern and southern Africa** Edited by Charles M Fombad 2019 Charles M Fombad, 2019-01-01 Compendium of documents on National Human Rights Institutions in eastern and southern Africa. Edited by Charles M Fombad 2019 ISBN 978 1 920538 95 8 Pages 898 Print version Available

Electronic version Free PDF available About the publication Africa's increasing recognition and protection of human rights have been accompanied by a surge in the number of NHRIs established with broad mandates to promote and protect human rights. The mandates and powers of the NHRIs vary from country to country as does their ability to deliver on these mandates. Indeed, the rapid increase in the number of NHRIs in Africa has come with a variety of substantive and operational challenges. In the face of such challenges, those who work in NHRIs need to understand the broader regional and global context in which the institutions operate and the changing nature of human rights issues. This compendium provides an overview of NHRIs in eastern and southern Africa. It is guided to a large extent by the internationally agreed upon Principles Relating to the Status of National Institutions referred to as the Paris Principles. These Principles are broadly accepted as the benchmark against which the legitimacy and credibility of NHRIs can be assessed. Endorsed by the United Nations General Assembly in 1993, the Paris Principles provide NHRIs with guidelines as to their competence and responsibilities, their composition and guarantees of independence and pluralism, and their methods of operation. Additional principles relate to the status of commissions with quasi-judicial competence. The generous financial support of the Konrad Adenauer Stiftung Rule of Law for Sub-Saharan Africa Nairobi Kenya office is gratefully acknowledged.
