## **Protest And Popular Culture Women In The American Labor Movement:**

Protest And Popular Culture Mary Triece, 2018-03-05 Protest and Popular Culture is at once a historical monograph and a critique of postmodernist approaches to the study of mass media consumerism and popular political movements. In it, Triece compares the self-representations of several late nineteenth and twentieth-century women's protest movements with representations of women offered by contemporaneous mass media outlets. She shows that from the late nineteenth century until the present day, U.S. women's protest movements sought to convince women that they are first and foremost laborer-producers, while the U.S. media has just as consistently sought to convince women that they are primarily consumers. Triece contends that these approaches to portraying women have been and continue to be constructed in opposition to one another. The leaders of women's protest movements, she argues, have long sought to convince women not to spend time and money on reshaping their selves through consumer purchases but instead to focus attention on empowering themselves politically by asserting control over their own labor power. The mass media meanwhile has always treated such movements as potential threats to the financial well-being of the consumer sector—that is, of advertisers—and so has consistently trivialized them while seeking simultaneously to convince women that they should devote attention and resources to buying things, not to struggling to overcome class and gender discrimination. Many cultural studies scholars have argued that in recent years, rising prosperity has made consumerism into the primary site of both individual expression and resistance to the dominant socioeconomic order, with self-definition through personal purchases supplanting the role formerly played by struggle for an end to inequities of all kinds. These scholars contend that as such, mass media no longer functions to naturalize and thus reinforce such inequities, and consumerism no longer serves to perpetuate them. Triece argues that her examples show that this argument is faulty and that scholars should continue to take a traditional materialist view in all studies of mass media consumerism and popular protest.

On the Picket Line Mary Triece, 2024-04-22 Bonnie Ritter Book Award National Communication Association's Feminist and Women Studies Division 2008 *On the Picket Line* uncovers the voices of working-class women, particularly those active in the Communist Party U.S.A., in order to examine how these individuals confronted the tensions between their roles as workers, wives, mothers, and consumers. Combining critical analysis, Marxist and feminist theory, and labor history, Mary E. Triece analyzes the protest tactics employed by working-class women to challenge dominant ideologies surrounding domesticity. She details the rhetorical strategies used by women to argue for their rights as workers in the paid labor force and as caregivers in the home. Their overtly coercive tactics included numerous sit-ins, strikes, and boycotts that won tangible gains for working poor and unemployed women. The book also gives voice to influential figures in the 1930s labor movement, many of whom were members of the Communist Party U.S.A., such as Ella Reeve Bloor, Margaret Cowl, Anna Damon, Ann Burlak, and Grace Hutchins. Triece ultimately argues that these confrontational protest tactics of the 1930s remain relevant in today's fights for more humane workplaces and better living conditions.

**Rehearsing Revolutions** Mary McAvoy, 2019-06-17 Choice Outstanding Academic Title 2019 George Freedley Memorial Award Finalist 2020 Between the world wars several labor colleges sprouted up across the U S These schools funded by unions sought to provide members with adult education while also indoctrinating them into the cause As Mary McAvoy reveals a big part of that learning experience centered on the schools drama programs For the first time Rehearsing Revolutions shows how these left leaning drama programs prepared

American workers for the on the ground activism emerging across the country In fact McAvoy argues these amateur stages served as training grounds for radical social activism in early twentieth century America Using a wealth of previously unpublished material such as director s reports course materials playscripts and reviews McAvoy traces the programs evolution from experimental teaching tool to radically politicized training that inspired overt even militant labor activism by the late 1930s All the while she keeps an eye on larger trends in public life connecting interwar labor drama to post war arts based activism in response to McCarthyism the Cold War and the Civil Rights movement Ultimately McAvoy asks What did labor drama do for the workers colleges and why did they pursue it She finds her answer through several different case studies in places like the Portland Labor College and the Highlander Folk School in Tennessee

**Inez** Linda J. Lumsden, 2004-07-08 Inez Milholland was the most glamorous suffragist of the 1910s and a fearless crusader for women s rights Moving in radical circles she agitated for social change in the prewar years and she epitomized the independent New Woman of the time Her death at age 30 while stumping for suffrage in California in 1916 made her the sole martyr of the American suffrage movement Her death helped inspire two years of militant protests by the National Woman s Party including the picketing of the White House which led in 1920 to ratification of the 19th Amendment granting women the right to vote Lumsden s study of this colorful and influential figure restores to history an important link between the homebound women of the 19th century and the iconoclastic feminists of the 1970s

**One-Party Classroom** David Horowitz, Jacob Laksin, 2009-03-10 David Horowitz has single handedly exposed the intellectual corruption that exists within the classrooms of American colleges Like all forms of corruption indoctrination flourishes when kept in the dark Here Horowitz turns on the bright lights to expose what has become profoundly wrong with our colleges and universities We are all in his debt Ward Connerly former regent

University of California David Horowitz and coauthor Jacob Laksin take us inside twelve major universities where radical agendas have been institutionalized and scholarly standards abandoned The schools they examine are not the easily avoided bottom of the barrel Rather they are an all too representative sampling of American higher education today Horowitz and Laksin have conducted the first comprehensive in depth multiyear investigation of what is being taught in colleges and universities across the country public to private from large state schools to elite Ivy League institutions They have systematically scrutinized course catalogs reading lists professors biographies scholarly records and the first person testimonies of students administrators and faculty Citing more than 150 specific courses they reveal how academic standards have been violated and demonstrate beyond dispute that systematic indoctrination in radical politics is now an integral part of the liberal arts curriculum of America s colleges The extreme ideological cant that today s students are being fed includes Promoting Marxist approaches as keys to understanding human societies with no mention of the bloody legacy of these doctrines and total collapse in the real world of the societies they created Instilling the idea that racism brutally enforced by a white male patriarchy to oppress people of color and other marginalized groups has been the organizing principle of American society throughout its history and into the present Requiring students to believe that gender is not a biological characteristic but a socially created aspect of human behavior designed by men to oppress women Persuading students that America and Israel are imperialistic and racist states and that the latter has no more right to exist than the South African regime in the days of apartheid In page after shocking page Horowitz and Laksin demonstrate that America s colleges and universities are platforms for a virulent orthodoxy that threatens academic ideals and academic freedom In place of scholarship and the dispassionate pursuit of truth that have long been the hallmarks of higher learning the new militancy embraces activist zealotry and ideological fervor In disturbingly large segments of today s universities students are no longer taught how to think but are told what to think
