

Prothalamion By Edmund Spenser

CALM was the day, and through the trembling air
Sweet breathing Zephyrus did softly play,
A gentle spirit, that lightly did delay
Hot Titan's beams, which then did glister fair;
When I whose sullen care,
Through discontent of my long fruitless stay
In prince's court, and expectation vain
Of idle hopes, which still do fly away
Like empty shadows, did afflict my brain,
Walked forth to ease my pain
Along the shore of silver streaming Thames,
Whose ruddy bank, the which his river hems,
Was painted all with variable flowers,
And all the meads adorned with dainty gems,
Fit to deck maidens' bowers,
And crown their paramours,
Against the bridal day, which is not long:
Sweet Thames, run softly, till I end my song.

Mourning and Panegyric Celeste M. Schenck,2010-11 This work is primarily a genre study aiming both at enlarging the canon of pastoral texts and at theorizing generical development in a comparative context Addressed to a general audience of poetry enthusiasts as well as students of genre theory and specialists in the field the book takes as its examples the twin pastoral genres of funeral elegy and marriage hymns Schenck establishes in her introduction that the strategies she isolates in elegies and epithalamia govern lyric processes more generally that in fact every poem might be an epitaph if it pronounces an elegy upon a former poetic self and announces rebirth of the artist as a poet All poems are genuinely epitaphic in their attempt to record verbally and lastingly the death and implied rebirth of the poet as poet each time he lifts his pen to begin a new poem The specific forms explored in this book elegy and epithalamium serve precisely as model initiatory scenarios Elegies tend to gesture toward the past pronouncing an epitaph upon poetic apprenticeship and recovery voice by means of symbolic burial of a forebear Marriage poems alternatively are future directed celebrating as do elegies passage from virgin to mature state Both forms aim at circumventing mortality by apotheosis and deification in the case of the elegy and by the projection forth of issue at the end of the marriage poem Investigation of the symbolic reciprocity of these seemingly distinct forms yields a surprising range of variant forms extends provocatively Claudio Guillen s theory of genre and counter genre and initiates a poetics of pastoral ceremony that has implications for the general study of lyric modes

Spenser's Famous Flight Patrick Cheney,1993-12-15 In Spenser s famous Flight Patrick Cheney challenges the received wisdom about the shape and goal of Spenser s literary career He contends that Spenser s idea of a literary career is

not strictly the conventional Virgilian pattern of pastoral to epic but a Christian revision of that pattern in light of Petrarch and the Reformation Cheney demonstrates that far from changing his mind about his career as a result of disillusionment Spenser embarks upon and completes a daring progress that secures his status as an Orphic poet In October Spenser calls his idea of a literary career the famous flight Both classical and Christian culture has authorized the myth of the winged poet as a primary myth of fame and glory Cheney shows that throughout his poetry Spenser relies on an image of flight to accomplish his highest goal The Canterbury Tales and Faerie Queene: with Other Poems of Chaucer and Spenser.
